" Information.

ONTARIO GOVERNMENT CENTREX TELEPHONE SYSTEM

To effectively meet the increasing communication needs of the Ontario Government, a new pace-setting telephone system "Centrex" is now serving the majority of Government offices in the Metropolitan Toronto Area.

A prominent feature of Centrex is:

DIRECT IN DIALING:

This enables any telephone in the system to be dialed directly, from any telephone outside of the Government, without switchboard operator assistance. The Centrex numbers listed in this directory begin with either the prefix 365 or 248. By dialing the full number shown, you will reach directly the telephones involved. If the number you desire is not listed in the Directory, or you are not familiar with the Department you wish to call, 24-hour assistance is available by calling 363-1211.

BUSINESS HOURS

Monday to Friday—8:30 a.m. to 5:00 p.m.

ROAD REPORTS

From November 1st to mid-April information on conditions of highways may be obtained 24 hours daily by calling:—

248-3561

Outside Toronto, call your local Department of Highways' Office.

THE LEGISLATURE IN SESSION

Pictures by Department of Tourism and Information

Foreword

The Directory and Guide to Services of the Ontario Government is presented in three parts.

First part is the Directory, giving the names of officials commencing with his Honour the Lieutenant-Governor, the Legislature, the Cabinet and the various departments, boards and commissions. Changes in the various departments will arise, the information being as of date of preparation, April 1965.

The second part is The Guide, a presentation by subject of the services provided through the Departments. This presentation appears to answer a need for those dealing with the government, for communities, municipal and other officials, service clubs and all types of organizations who seek the government agency dealing with a specific subject of service.

The third part presents the publications prepared and distributed by the various departments, available as indicated.

There is also brief historical, statistical and other data on the Province.

DEPARTMENT OF TOURISM AND INFORMATION

A. S. BRAY,
Deputy Minister

HON. JAMES AULD,

Guide to Services

Guide to Services

DEPARTMENT OF AGRICULTURE

Minister: THE HONOURABLE WM. A. STEWART

The Department of Agriculture is constituted, through its branches and institutions, to serve the agricultural interests of the Province, to promote the prosperity and welfare of farm people, and to develop and improve the agricultural industry of Ontario through a scientific approach to its problems and an appreciation of the needs, not only of the people of Canada, but of the whole world, for supplies of essential food.

There are four distinct phases to the activities of the Department, although they are co-related and each is dependent on the others for the success and effectiveness of the work done. These four phases are instruction, research, extension, and marketing, and each of these has its place in the activities of the Department in the interests of sound agricultural development in Ontario.

BRANCHES

AGRICULTURAL AND HORTICULTURAL SOCIETIES BRANCH

This Branch gives direction and assistance to Agricultural and Horticultural Societies, Plowmen's Associations and Community Centres. It administers the grants which are provided for these organizations.

AGRICULTURAL SOCIETIES: In addition to the regular legislative grants for agricultural expenditure at fairs, as provided by the Agricultural Societies Act, special grants are paid on field crop competitions, commercial features and on capital expenditures. Judges are provided for all field crop competitions and for fairs in Northern Ontario. This Branch co-operates with the Ontario Association of Agricultural Societies in the holding of annual convention and district meetings.

HORTICULTURAL SOCIETIES: This Branch is responsible for administering grants by authority of the Horticultural Societies Act. A fieldman service is made available to the Societies and other organizations.

The Branch co-operates with the Ontario Horticultural Association in the promotion of several projects, the annual convention and district meetings.

PLOWMEN'S ASSOCIATIONS: Grants are given to the Ontario Plowmen's Association, also substantial assistance in organizing the large International Plowing Match and Farm Machinery Demonstrations, held annually by the Association.

Grants are provided for County and Township Associations which hold local matches, also for junior matches, home plowing competitions and for coaching classes. Departmental judges are supplied for all matches, competitions and coaching classes.

COMMUNITY CENTRES: The Branch is responsible for the administration of grants, by authority of the Community Centres Act, paid to municipalities on community halls, athletic fields, skating arenas, outdoor skating rinks and swimming pools.

DAIRY BRANCH

OFFICE OF THE DAIRY COMMISSIONER: The duty of the Dairy Commissioner is to supervise and co-ordinate the administration and enforcement of The Milk Industry Act and the administration of the Dairy Branch. The Dairy Commissioner also acts as Chief Inspector in the enforcement of The Oleomargarine Act and The Edible Oil Products Act.

THE MILK INDUSTRY ADVISORY COMMITTEE OF ONTARIO: This Committee considers matters relating to the production and marketing of milk and milk products and makes recommendations thereon to the Minister of Agriculture or to the Dairy Commissioner.

DIRECTOR OF FLUID MILK DIVISION: It is the duty of the Director of the Fluid Milk Division to carry out the administrative details with reference to the production and marketing of fluid milk under The Milk Industry Act. He is the immediate assistant to the Dairy Commissioner.

DIRECTOR OF MILK PRODUCTS DIVISION: It is the duty of the Director of the Milk Products Division to carry out administrative details with reference to the production and marketing of milk products under The Milk Industry Act.

MILK INDUSTRY BOARD OF ONTARIO: This Board is responsible for the administration of Part 1 of The Milk Industry Act, dealing with the production and marketing of fluid milk and milk products. The Act makes provision for collective bargaining between producers and distributors, and producers and transporters with reference to conditions of

sale for milk and cream. Agreements made by collective bargaining are filed with the Board and the Board is responsible for their enforcement.

When an agreement is not reached by collective bargaining, the Act provides for arbitration of such disputes by the making of awards.

The Board is also responsible for the inspection of all dairy plants and the licensing of such plants to operate. The Board also regulates minimum production standards for farms and the quality of milk and cream which may be sold in Ontario. The grades of milk products sold within Ontario are also established by regulation.

FIELD INSPECTION: A staff of fieldmen is employed to enforce the regulations made under the Act. These fieldmen supervise milk quality and production conditions, milk purchases, tests, records and payments made under price agreements and awards, and handle complaints of producers in connection with the sale of milk and cream. The field inspection work includes the making of audits on payments to producers, with special investigations to obtain information for the Board.

MARKETING PLANS: Provision is made for the establishment of marketing plans under the Act. The operation of such marketing plans is supervised by the Board.

EXTENSION BRANCH

The Agricultural Extension Branch is responsible for the dissemination of information to farmers and farm families and offers a number of services throughout the Province through the Agricultural Representative Service, the Home Economics Service, the Agricultural Engineering Service, the Fruit and Vegetable Extension Service and Tobacco Extension Service,

An officer of the Extension Branch is located at the Ontario Agricultural College to co-ordinate the extension services with the various Departments at the College. The Branch co-operates with the Kemptville Agricultural School and the Western Ontario Agricultural School, at Ridgetown.

AGRICULTURAL REPRESENTATIVE SERVICE

There are 55 Branch offices located in the Counties and Districts throughout the Province. The Agricultural Representatives, along with the Associates and Assistants, are responsible for carrying out the policies of the Department, and render assistance to farm organizations, farm groups and individual farmers. It is the duty of the Agricultural Representative to acquaint the farmer with the latest developments and techniques in agricultural research.

LIVE STOCK IMPROVEMENT: The Agricultural Representatives co-operate in the promotion of such live stock policies as Brucellosis Control, Warble Fly Control, Dairy Herd Improvement and other policies of the Department relating to live stock.

SOIL AND CROP IMPROVEMENT: The Service assists in the development of county soil and crop improvement programmes and usually the Agricultural Representative acts as the Secretary of the county Associations.

JUNIOR DEVELOPMENT: The Agricultural Representative Service is responsible for the direction of the county 4-H Club Programme and also co-operates with Junior Farmer groups in the development of a leadership programme at community, county and provincial levels. The Extension Branch also assists with the management of various types of regional and provincial competitions, as well as the organization and supervision of Short Courses, Night Schools and other educational meetings.

HOME ECONOMICS SERVICE

The Home Economics Service directs and promotes a programme in Home Economics for women and girls, which is designed to promote satisfactory home life and welfare of rural communities.

EXTENSION SERVICES FOR THE HOMEMAKER: This Service and its staff plan and carry out Extension Services for the Homemaker. It offers to the rural women and girls of Ontario, through the local and district institutes, courses in citizenship, clothing and textiles, health education, home management, foods and nutrition, administrative leadership, homecrafts, home furnishings and psychology for the homemaker. These courses are given by members of the staff in co-operation with the local Institutes. Courses for leaders, in the form of local leader training schools, are provided.

JUNIOR EXTENSION PROGRAMME: This Service sponsors and gives leadership to the Junior 4-H Homemaking Club programme for girls and young women, which is conducted through the Home Economics Supervisor of Junior Extension and the County Home Economists. It promotes and sponsors girls' garden clubs, conducts short courses in Home Economics and sponsors the Girls' Conference for 4-H Homemaking Club members. It gives leadership and guidance to Junior Institutes and clubs of rural young women and girls. It provides programme kits to give assistance to Junior Institutes in the planning and preparation of programmes.

AGRICULTURAL MARKETING RESEARCH: Prices, marketing costs and the movements of products from the farm to the consumer are all matters of continuing concern to producers. The Branch is continually studying these subjects and many reports have been published, particularly in the fruit, vegetable and dairy fields. These reports have been the basis of many discussions with many groups seeking improvement of their marketing procedures.

AGRICULTURAL STATISTICS: Accurate and up-to-date statistics of agricultural production are required not only by the growers and their organizations, but also by the secondary industries and business as a whole. An extensive reporting system has been developed for the collection of information on volume, yields, crop and market conditions. From this information regular reports are prepared and published, including monthly dairy reports, seasonal crop, fruit and vegetable reports and a complete annual bulletin—"Agricultural Statistics for Ontario."

The Branch Staff is continually being consulted by individuals and organizations in connection with farm business problems. Their expert knowledge of farm management, marketing and agricultural economics in general is used by extension workers, farm organizations, marketing boards and many research and other bodies interested in farm business problems.

FARM PRODUCTS INSPECTION SERVICE

The Farm Products Inspection Service administers the enforcement of regulations under The Farm Products Grades and Sales Act and The Plant Diseases Act; and provides related service designed to promote more orderly marketing of farm products through improved methods of grading, packaging, marking, handling, storing and transporting. These services are administered through five district offices located in Leamington, Vineland, Toronto, Bradford and Gravenhurst, and thirteen sub-district offices located in Simcoe, Grand Bend, London, Galt, Hamilton, Orangeville, Alliston, Barrie, New Liskeard, Sudbury, Fort William, Brighton and Ottawa. In addition, five Highway Inspection Stations are located at Bradford (2), Fruitland, Wheatley and Gravenhurst.

The work carried out by this Service may be summarized as follows:

1. Enforcement of the regulations, under The Farm Products Grades and Sales Act, respecting (a) Fresh fruit and vegetables; (b) Fruit and vegetables for processing; (c) Honey; (d) Compulsory inspection areas and highway inspection stations; and (e) Dealers in fruit and vegetables; (f) Controlled-Atmosphere Apple Storages.

LOAN LIBRARY: The Service maintains a loan library which provides material for Women's Institute members in the preparation of their local Institutes programmes.

FEDERATED WOMEN'S INSTITUTES OF ONTARIO: The Home Economics Service works in close association with the Federated Women's Institutes of Ontario in promoting and carrying out the programme of the organization.

AGRICULTURAL ENGINEERING SERVICE

Assistance is provided through this Service to farmers in drainage, water conservation, farm building construction and remodelling, as well as general service with regard to farm machinery through special mechanics' courses and the 4-H Tractor Maintenance programme.

FRUIT AND VEGETABLE EXTENSION SERVICE

This Service provides specialized assistance to Fruit and Vegetable growers who have problems with regard to production and marketing of their products. Through this Service is provided the Spray Service whereby timely letters are forwarded to growers at regular intervals giving recommendations for the use of insecticides and fungicides to counteract pests.

FARM ECONOMICS, CO-OPERATIVES AND STATISTICS BRANCH

The Farm Economics, Co-operatives and Statistics Branch deals with the business aspects of Ontario Agriculture. It is concerned with Farm Management and the net earnings of farm operators; with the efficient marketing of farm products; and with the compilation of agricultural statistics. The Branch makes contribution to a more prosperous agriculture by studying all facts of farm business and by making the pooled experience of farm operators available to those who can use the information to best advantage.

FARM MANAGEMENT RESEARCH: Many hundred farm business records are gathered each year and analyzed to determine farm costs and the factors related to successful production. The reports of these studies are made available to interested growers, to farmer associations and to the general public as basic information for farm business planning. Available reports cover such farm enterprises as dairy cattle, beef cattle, hogs, many cash and feed crops as well as information on land use, farm title transfer, and many others.

2. Enforcement of the regulations, under The Plant Diseases Act, respecting (a) Apple Maggot; (b) Bacterial ring rot; (c) Black knot; (d) Little Pease; (e) Peach yellows; (f) X-disease of peach; (g) San Jose scale; (h) Bulb and stem nematode; (i) Licensing of nurseries and dealers in nursery stock; (j) Inspection of nurseries.
3. Japanese Beetle and European chafer trapping surveys and application of controls in conjunction with the Dominion Department of Agriculture.
4. Variety certification of nursery tree fruits and raspberries.
5. Strawberry plant certification.
6. Other related work including acreage surveys, the testing of new produce containers, shipping maturity testing for fruit and vegetables, grape maturity experimental work, electronic determination of colour in processing tomatoes, checking of tenderometers, fruit and vegetable exhibits, judging of fruit and vegetables, compiling and issuing fruit and vegetable shipment reports, Marketing Board work and considerable liaison and committee work with fruit and vegetable industry organizations.

FARM PRODUCTS MARKETING BOARD

The functions of the Farm Products Marketing Board which administers the regulations approved under The Farm Products Marketing Act are fourfold. Firstly, it receives requests from groups of producers seeking the approval of marketing plans and if a group represents 15 per cent of the producers affected by the proposed plan the Board investigates and considers the purposes of the plan. Secondly, if the Board is satisfied a proposed plan will promote the more efficient marketing of the farm product, it approves the plan and arranges for a plebiscite to be taken of the producers of the farm product on the question of favour of the plan. Thirdly, if the required percentage of the eligible producers vote in favour of the proposed plan, then the Board exercises general supervision over the operation of the plan to provide that the powers delegated to the local board elected by the producers to administer the plan are not exceeded. All price agreements, orders and directions of each local board must be filed with and approved by the Farm Products Marketing Board. Fourthly, the Board may revoke any regulation, order or direction of a local board or marketing agency.

INFORMATION BRANCH

This Branch is responsible for preparing and distributing information of value to the producers and consumers of Ontario farm products. This information is drawn from all branches and institutions of the Department. All mass media—press, radio, television, publications—are used.

The Branch is also responsible for providing information dealing with Department policy, regulations, operations, services and activities.

LIVE STOCK BRANCH

The Live Stock Branch is responsible for promoting the improvement and general development of the live stock industry of the Province. At the same time it gives financial assistance to live stock organizations formed by the breeders for the purpose of improving the industry.

The Branch administers The Dog Tax and the Cattle, Sheep and Poultry Protection Act, and is responsible for the recording of all brands under the Branding of Live Stock Act.

HORSES: The Branch is responsible for the administration of The Stallions Act. It also provides financial grants to horse shows throughout the Province.

CATTLE: The Branch administers the legislation respecting artificial insemination of cattle, and the payment of grants for the establishment and operation of artificial insemination centres.

The Branch administers regulations made under The Live Stock and Live Stock Products Act. This work includes the issuing of licenses to wool warehousemen and wool collectors.

The administration of the Warble Fly Control Act and the Bull Premium Policy also comes under the Branch. In the former case, the Branch provides leadership in organizing control programmes in those municipalities wishing to operate under the Act. Under the Bull Premium Policy, financial assistance is made available to purchasers of approved sires at consignment sales sponsored by Breeder Clubs and at the Ontario Bull Sale. Other financial grants are provided for special cattle shows.

The Commissioner is also responsible for the Beef and Veal Grading Regulations under The Farm Products Grades and Sales Act.

The Branch also administers The Hunter Damage Compensation Act, 1963, which provides compensation to farmers for live stock injured or killed by hunters up to, but not exceeding, the market value of the animal.

In addition the Branch co-operates with other Branches in administering the Advanced Registry Policy for Beef Cattle and the Beef-Pasture Project.

SWINE: The Branch is responsible for administering the bacon hog club policy of the Department, through which purebred boars are leased to organized bacon hog clubs.

Financial grants are made for auction sales and special breed shows of swine.

SHEEP: Financial assistance is given by the Branch in the conduct of auction sales of purebred sheep, regional sheep shows, and lamb fairs.

MARKET DEVELOPMENT BRANCH

Created in 1961, the Market Development Branch is engaged in carrying out a programme designed to explore and develop new markets for Ontario farm produce both at home and abroad.

The Branch also administers The Ontario Food Terminal Act and The Farm Products Containers Act.

ONTARIO FOOD COUNCIL

This Council has been established under the authority of The Ontario Producers, Processors, Distributors and Consumer Food Council Act, 1962-63. This is a new branch which deals with the problem of marketing and merchandising Ontario's agricultural food products and recognizes the potential advantages of bringing the four major groups together for the purpose of discussing matters affecting the various facets of the industry.

Provided under the Act are sections including Fresh and Processed Fruit and Vegetable Products, Dairy and Poultry Products, Meat Products, Cereal Grain Products, and consumers. Other sections, either provincial or regional, may be formed as required. The basis of commodity section organization is representation from producers and all other phases of distribution. It is through these sections that problems, grievances and proposals are funnelled. The Consumers Section is called upon to provide the consumer's viewpoint on matters discussed by commodity sections or by the Council itself, as well as providing a clearing house for resolutions concerning food products emanating from consumers' groups.

The terms of reference of the Council are quite broad and are designed to find methods of ensuring orderly marketing. The functions and activities, however, fall into four main categories.

- (1) Trade Practices
- (2) Improved Marketing Procedures
- (3) New Opportunities in Marketing
- (4) Inter-relationship of those groups engaged in Production and Marketing.

The Ontario Food Council recommends projects, policies and other activities that it feels should be carried out by the industry or by agencies of government.

SOILS AND CROPS BRANCH

This Branch is responsible for promoting crop improvement work of all types in the Province, and for the promotion and operation of projects having as their objective the improvement of crop production, both as to quantity and quality, the control of weeds throughout the Province, and the guidance of farmers as to their crop production practices.

Departmental assistance and promotion is designed to increase yields per acre, improve quality, and provide more economical production per acre. This is done through six main channels.

- (1) Pedigreed seed—Adequate seed suppliers are maintained through 1,800 pedigreed seed growers. In 1963, 309,000 bushels Winter Wheat seed was exported. Total seed exports \$1½ million. 415 seed cleaning plants are maintained, and 38 seed shows held. Seed Surveys are conducted to check on quality of seed being used.
- (2) Introduction and use of higher yielding varieties. This is stimulated by the Soil and Crop demonstration programme and through the promotion and management of high yield competitions.
- (3) Transportation assistance by rail and truck on agricultural limestone, in co-operation with Canada Department of Agriculture.
- (4) Administration of The Weed Control Act; weed control practices including chemicals, and grants to municipalities for weed control purposes.
- (5) Promotion of improved farm practices through grants to fifty-six branches of The Ontario Soil and Crop Improvement Association, with 1,261 Officers and Directors carrying on almost 600 separate projects. Staff members act as speakers, judges and advisors.

Members of the staff are active on advisory committees dealing with weed control, pasture projects, seed cleaning, potato production, turnip production, seed treatment and general field crop improvement including tobacco.

The Branch promotes special publicity on crops, seed and weeds through the medium of press releases and radio broadcasts. It gives assistance in campaigns for the eradication of barberry, buckthorn and leafy spurge where prevalent.

VETERINARY SERVICES BRANCH

The Veterinary Services Branch, established in 1964, is responsible for all veterinary programmes within the Department of Agriculture. Activities of the Branch include regulatory work designed to prevent the spread of live stock diseases, disease control programmes, and a provincial diagnostic service.

Veterinary services performed at the Kemptville Agricultural School; Agricultural Service Building at Brighton; the Demonstration Farm, New Liskeard; and Western Ontario Agricultural School, Ridgetown, come under the direction of the Branch. The Veterinary Services Branch is also charged with the administration of the Community Sales Act, the Dead Animal Disposal Act, meat and live stock inspection.

AGRICULTURAL REHABILITATION AND DEVELOPMENT BRANCH

This new Branch was established in 1962 for the purpose of implementing the provisions of the Agricultural Rehabilitation and Development Act of the Canadian Government. Under the provisions of the Agricultural Rehabilitation and Development Act of Ontario, 1962-63, the Province of Ontario enters into agreements with the Government of Canada for the rehabilitation and development of lands within the Province of Ontario.

ONTARIO JUNIOR FARMER LOAN BRANCH

The Ontario Junior Farmer Loan Branch was established in November 1956 when the administration of The Junior Farmer Establishment Act 1952 was transferred from the Provincial Treasurer to the Minister of Agriculture. Under the provisions of the Act, emphasis is directed toward the encouragement of the maintenance of the family farm as well as the establishment of Junior Farmers on farms.

ONTARIO TELEPHONE SERVICE COMMISSION

The Ontario Telephone Service Commission is composed of a Chairman, a Vice-Chairman, two members, and the requisite technical, stenographic and clerical staff.

The main function of the Commission is the administration of The Telephone Act which governs the activities of municipal and privately owned systems in Ontario and provides procedural, engineering and technical advice to telephone systems.

AGRICULTURAL RESEARCH INSTITUTE OF ONTARIO

The Agricultural Research Institute of Ontario was established by authority of The Agricultural Research Institute of Ontario Act, 1961-62, to inquire into programmes of research and services in respect of agriculture, veterinary medicine and household science; to stimulate interest in research as a means of developing in Ontario a high degree of efficiency in the production and marketing of agricultural products. The Director of the Institute is responsible for integration of research with the academic work of the Federated Colleges and other institutions of learning and research that are administered by the Department of Agriculture.

AGRICULTURAL EDUCATIONAL INSTITUTIONS

FEDERATED COLLEGES, GUELPH

ONTARIO AGRICULTURAL COLLEGE

The Ontario Agricultural College at Guelph is the chief centre for advanced agricultural education in the Province of Ontario. It carries on the three functions of instruction, research and extension.

INSTRUCTION: A four year course in scientific agriculture is offered, leading to the degree of Bachelor of Science in Agriculture of the University of Toronto, with which the College is affiliated.

A two year course in practical agriculture is offered, specially planned to meet the needs of young men who have adopted agriculture as a vocation. Opportunities for graduate study leading to the degree of Master of Science in Agriculture are offered to qualified students by the College, conjointly with the University of Toronto School of Graduate Studies.

During the winter months, short courses are offered in such subjects as live stock and crops, soil management, horticulture, farm economics, poultry husbandry and community programmes. There is a three months' course each winter in dairy practices.

RESEARCH: Research work on all types of problems related to agriculture is carried on in all departments of the College, which include agricultural economics, agricultural engineering, animal husbandry, animal nutrition, apiculture, bacteriology, botany, chemistry, dairying, entomology and zoology, field husbandry, horticulture, physics, poultry husbandry, and

soils. Problems arising on the farms of the Province are referred to the College for scientific investigation and research.

EXTENSION: Through extension activities, the results of research and investigation are made available to farmers of the Province. Staff members are available to address meetings of farmers and to give advice to farm groups on specific matters within the scope of the various departments.

The Department of Public Relations is a medium for the dissemination of information, of providing visual aids for extension purposes, and of making arrangements for the use of the accommodation and facilities of the college for many types of conferences, meetings and field days of agricultural organizations and other bodies related to agriculture.

ONTARIO VETERINARY COLLEGE

The Ontario Veterinary College is the only College for English-speaking veterinary students in Canada. It carries on the functions of instruction, research and extension.

INSTRUCTION: The College provides a degree course leading to the degree of Doctor of Veterinary Medicine of the University of Toronto, with which it is affiliated.

The College provides short courses in several phases of veterinary work as the need arises.

RESEARCH: Research work into all types of animal diseases and parasites is carried on at the College. This includes investigation into special problems arising on farms throughout the Province, and also specific research projects directed at eliminating or controlling animal diseases such as brucellosis and mastitis in cattle, rhinitis in swine and diseases of horses and poultry.

EXTENSION: The Extension Department of the College makes available to Ontario farmers a diagnostic service on various diseases of animals. On behalf of the Federal Department of Agriculture, it distributes vaccine for the prevention of buccellosis through its policy of calfhood vaccination. It conducts blood tests for this disease, and also examines and reports upon samples of milk from animals suspected of mastitis. It distributes biological products for the prevention of poultry infection.

The services of members of the staff are available for consultations with individual farmers, for addressing farm organization meetings, and for taking part in the curricula of short courses held at the O.A.C. and in the counties of the Province.

MACDONALD INSTITUTE

Macdonald Institute offers a four year degree course in Home Economics.

Main departments of work at Macdonald Institute are six in number—Foods and Nutrition, Clothing and Textiles, Home Management and Equipment, Art and Home Planning, Social Science, and Physical Education. Other courses in Science and Agriculture, English and Economics are taught by members of Ontario Agricultural College departments.

KEMPTVILLE AGRICULTURAL SCHOOL

The Kemptville Agricultural School is the centre for advanced agricultural education in eastern Ontario.

INSTRUCTION: This school offers a two year practical course in agriculture, a special course in dairying, and for girls one and two year courses in home economics.

DEMONSTRATION AND EXPERIMENTAL WORK: The school undertakes special projects in demonstration and experimental work, and particularly in the testing of varieties of crops as to their suitability for eastern Ontario conditions, in soil testing, and the testing of fertilizers, insecticides and fungicides.

EXTENSION: Extension services are provided for eastern Ontario farmers on various subjects related to agriculture, including farm drainage surveys, soil tests, information on field crops, horticulture, entomology, live stock, home planning and other practical problems. Members of the staff are available for consultation and for addressing farm organization meetings, and the facilities of the school are made available to many organizations for meetings and conferences.

HORTICULTURAL EXPERIMENT STATION, VINELAND

The Horticultural Experiment Station at Vineland, Ontario, is operated to carry on research work and plant breeding with fruits and vegetables; and to give extension service to the fruit and vegetable growers of the Province. The research and breeding work includes various types of projects.

PLANT BREEDING: Plant breeding work is carried on with a view to originating new and improved varieties of fruits and vegetables, in which work the station has had marked success. Station selections, prior to naming and introducing, are sent out to growers and to secure additional information as to their commercial possibilities.

PROPAGATION MATERIAL: A substantial service is given to nurseries and fruit growers in the distribution of true-to-name propagating material of many varieties of fruits.

PRODUCTION STUDIES: Studies and investigations on many phases of fruit and vegetable production are carried on at the station, to develop information and knowledge of value to commercial growers.

MARKETING STUDIES: Tests and investigations of methods of marketing and shipping fruits and vegetables are conducted, to assist in the development of new and improved types of packages and proper classification of products.

RESEARCH IN PROCESSING: The Horticultural Products Laboratory at the Vineland Station carries out studies and investigations on various phases of processing of fruits and vegetables.

EXTENSION SERVICES: The Station assists in preparing and distributing spray service circulars to fruit and vegetable growers. Many technical bulletins are written by members of the staff.

Members of the staff are available for addressing meetings and conducting discussions for fruit and vegetable growers' associations, farm forums, service clubs, horticultural societies, county short courses and Women's Institutes.

WESTERN ONTARIO AGRICULTURAL SCHOOL AND EXPERIMENTAL FARM, RIDGETOWN

The Western Ontario Agricultural School and Experimental Farm serves a dual purpose. The School serves as a centre for advanced agricultural education in southwestern Ontario. The Experimental Farm on which the School is located was established some years ago to conduct experimental and demonstration work in connection with the special crops and agricultural problems encountered in that section of Ontario.

INSTRUCTION: The School offers a two-year practical course in agriculture.

Farmers' Week is held in January each year, when the work of the farm is reviewed for the farmers of southwestern Ontario. Each winter a two-weeks' short course for Junior Farmers is conducted. Other special short courses are arranged as the need arises.

LIVE STOCK: Live stock are maintained at the farm for experimental and demonstration purposes, to demonstrate management and feeding methods in a cash crop area where there are a great many by-products

of cash crops available. An annual sale is held in order to distribute high quality purebred live stock among the farms of the district.

FIELD CROPS: Experimental work is conducted to determine the most productive varieties of hybrid corn, white beans, soybeans and other cash crops for the area.

Experimental plots of winter wheat varieties are grown to establish the relative values of the different varieties for that area of the Province.

Experiments are conducted to determine the relative value of different methods and frequencies of cultivation of row crops.

Tests are also made of different types of fertilizers, insecticides, fungicides and weed killers.

EXTENSION: One of the main extension activities is the supplying of seed for beans, soybeans, winter wheat, winter barley and oats. The supplying of swine for breeding purposes is also carried out, and cockerels and eggs for hatching of poultry are distributed.

Lectures, demonstrations and conferences are held at the farm, educational exhibits are provided for fairs in western Ontario, and staff members are available to address meetings. Some valuable extension work is done with groups of farmers who visit the farm, bringing their special problems to the staff for discussion.

ONTARIO DEMONSTRATION FARM, NEW LISKEARD

The Demonstration Farm, at New Liskeard, gives leadership to agricultural development in Northern Ontario.

Proper cultural methods for the district as well as testing varieties of field crops are demonstrated to determine those most suited to the district. In addition, the Farm serves as a medium for introducing good live stock as well as demonstrating the proper care and management of all types of live stock in that area. It provides, to a limited extent, a source of good breeding stock and seed for farmers in the district.

DEPARTMENT OF THE ATTORNEY-GENERAL

Attorney-General: THE HONOURABLE ARTHUR A. WISHART, Q.C.

The Attorney-General of Ontario is a Cabinet Minister in charge of the Department of the Attorney-General, the Ontario Provincial Police Force, the Office of the Superintendent of Insurance and Registrar of Loan and Trust Corporations and also he acts as the responsible minister for the activities and operations of the Ontario Police Commission. He directs the preparation and co-ordination of provincial legislation, the maintenance of law and order, the administration of justice, and the protection of individuals' civil rights and of the public interest in a wide variety of circumstances. In these many and varied activities the Attorney-General and his skilled and highly specialized staff serve the Legislature, the courts and the public.

The Attorney-General is assisted by the Deputy Attorney-General, the Commissioner of the Ontario Provincial Police Force, the Superintendent of Insurance and the Chairman of the Ontario Police Commission as permanent Heads of their respective Departments or Offices. These officials are members of the Ontario Public Service and supervise the day-to-day operations, recommend policies and generally ensure the continuity and uniformity of administration within their respective fields.

The functions and responsibilities of the Office of the Attorney-General can be grouped within seven main functional Divisions as follows: Legislation, Civil Law, Criminal Law, Public Safety, Public Protection, Administration of Justice and Internal General and Financial Administration.

LEGISLATION

In serving the Ontario Legislature, the Government departments and agencies, municipalities and the Ontario public in the field of legislation, the Ontario Department of the Attorney-General provides the following legal services:

LEGISLATIVE COUNSEL'S DIVISION

ROOM 328—PARLIAMENT BUILDINGS

The Legislative Counsel's Division, under the direction of a Senior Legislative Counsel, furnishes legal advice in the field of legislation to the Legislature and its individual members, Ministers of the Crown, municipalities and petitioners for Private Bills. This Division is responsible for the drafting, orderly planning and examination of all Public and Private Bills and Regulations and for the publication of all provincial enactments including their periodic consolidation.

ONTARIO LAW REFORM COMMISSION

ROOM 470—PARLIAMENT BUILDINGS

This Commission was established by The Ontario Law Reform Commission Act, 1964, to enquire into and consider any matter relating to reform of the law having regard to the Statute Law, the Common Law and judicial decisions; the administration of justice; Judicial and Quasi Judicial Procedures under any Act and any subject referred to it by the Attorney-General. This Commission, consisting of a full-time Chairman and four part-time Commissioners and assisted by one full-time Counsel and several prominent members of the legal profession of Ontario, is responsible for the continuing review and revision of the law of Ontario in its broadest definition.

CIVIL LAW DIVISION

ROOM 210—PARLIAMENT BUILDINGS

This Division provides counsel to represent the interest of the Crown in Right of Ontario before the courts of law in all civil and constitutional matters including the conduct of trials and appeals. It also assists all Government departments, boards, commissions and other agencies by providing legal opinions and advising on the constitutionality and legality of administrative acts.

CRIMINAL LAW

In order to protect individuals' civil rights and the public interest the Attorney-General is charged with the duty of ensuring the prosecution of wrongdoers and the enforcement of laws within the Province. The ensuing agencies of the Department provide this service:

DIRECTOR OF PUBLIC PROSECUTIONS

ROOM 211—PARLIAMENT BUILDINGS

This senior legal officer of the Department is directly responsible to the Deputy Attorney-General for the co-ordination and conduct of all prosecutions and appeals under the Criminal Code and the other Federal and provincial statutes within the Province. He supervises the work of Crown Attorneys and directs the activities of the Criminal Appeals and Special Prosecutions Branch of the Department.

CROWN ATTORNEYS

(Crown Prosecutors in Counties and Districts of the Province)

These officers are legal agents of the Attorney-General charged with the duty to conduct prosecutions on behalf of the Crown within individual Counties and Districts of the Province. They may also institute, conduct or defend criminal appeals upon the direction of the Director of Public Prosecutions.

CRIMINAL APPEALS AND SPECIAL PROSECUTIONS BRANCH
ROOM 430—PARLIAMENT BUILDINGS

This Branch conducts criminal appeals and prosecutions of special interest to the Crown under the Criminal Code and other Federal and provincial statutes. It also provides counsel to represent the Crown in Right of Ontario in conducting prosecutions under specific provincial legislation.

PUBLIC SAFETY

The following agencies are specifically concerned with the personal safety of all Ontario citizens and the protection of their property in times of peace and also in times of various emergencies:

THE ONTARIO POLICE COMMISSION
8TH FLOOR, 123 EDWARD STREET

The Commission has jurisdiction over matters relating to the organization and administration of the provincial and municipal police forces with wide powers of inquiry and appeal as circumstances warrant. The Commission operates the Ontario Police College at Aylmer which offers basic and specialized training for recruits and officers of Ontario police forces.

THE ONTARIO PROVINCIAL POLICE FORCE
HEADQUARTERS—121 LAKESHORE BLVD. EAST

This Force which, for administrative purposes, forms a separate Government department under the Commissioner of The Ontario Provincial Police Force, is primarily responsible for all law enforcement in parts of rural Ontario not policed by municipal police and has sole responsibility for traffic control on King's Highways. It co-operates closely with the Royal Canadian Mounted Police and all municipal police forces within the Province, providing the latter with extensive assistance in criminal investigations.

FIRE PROTECTION BRANCH
204 RICHMOND STREET WEST

This Branch, under the Ontario Fire Marshal, directs, co-ordinates and advises on all aspects of fire fighting and investigation within the Province. It provides also fire protection engineering and examination services, field fire training and specialized and advanced training at the Ontario Fire College at Gravenhurst, to all municipalities. This Branch conducts investigations of suspicious fires and provides public information and education services in fire prevention.

EMERGENCY MEASURES BRANCH
HEADQUARTERS—434 UNIVERSITY AVENUE

This Branch, under a Commissioner appointed under a special Act of the Legislature, is primarily involved in research and study of problems connected with the public survival and continuity of Government and other services in the event of large scale emergencies resulting from war or other disasters. The main functions of this Branch consist of the development of an overall Ontario plan for survival including rescue operations, maintenance of communications and preparation of alternate sitings to assure the continuity of civil government at all levels and the organization of defence against radiation.

ATTORNEY-GENERAL'S LABORATORY
8 JARVIS STREET

This Branch can be called the scientific arm of the Ontario Government for combating crime and performing analysis of various products including drugs used by Ontario hospitals and other Government institutions. It serves the courts and the police in scientific appraisal of evidence and crime detection and it assists other provincial bodies by laboratory analysis and findings.

SUPERVISING CORONER
897 BAY STREET

This Office, headed by a senior Medical Officer, is responsible for the establishment of standards and procedures for coroners in the investigation of deaths occurring suddenly or under unusual circumstances. The Supervising Coroner, as General Inspector of Anatomy, is also responsible for placement of unclaimed human bodies for study purposes by medical schools in Ontario.

PUBLIC PROTECTION

Public Protection embraces all aspects of law and law enforcement designed to safeguard the public against fraud and to ensure that reasonable information is given as to the risks involved in the field of investment, insurance, savings and consumer credit.

OFFICE OF THE SUPERINTENDENT OF INSURANCE
4TH FLOOR, 123 EDWARD STREET

This Office, under the Superintendent of Insurance and Registrar of Trust and Loan Companies, administers The Insurance Act, The Investment Contracts Act, The Pre-paid Hospital and Medical Services Act and The Loan and Trust Corporations Act. Operations of this Office include registration, licencing and establishment of standards with regard to insurance policies and financial security to meet the undertaken risks.

ONTARIO SECURITIES COMMISSION

7TH FLOOR, 123 EDWARD STREET

This Commission establishes standards and procedures with regard to transactions in securities within the Province of Ontario. It is also a semi-judicial tribunal which hears and disposes of appeals from the decisions of the Director of Securities. It has wide powers for investigating offences under The Ontario Securities Act.

ONTARIO SECURITIES BRANCH

6TH FLOOR, 123 EDWARD STREET

The Branch is responsible for the administration and enforcement of The Ontario Securities Act. It licenses and registers securities brokers, dealers and salesmen, examines prospectuses and audits transactions carried on by brokers, dealers and salesmen in securities. It also conducts investigations under the direction of the Attorney-General or the Commission.

INSURANCE BRANCH

(Department of Insurance)

145 Queen Street West

This Branch, under a Director reporting to the Superintendent of Insurance, administers The Insurance Act, The Investment Contracts Act, The Prepaid Hospital and Medical Services Act and The Loan and Trust Corporations Act. This administration includes registration, licencing and establishment of standards with regard to insurance policies and financial security to meet the undertaken risks.

REGISTRATION AND EXAMINATION BRANCH

5TH FLOOR, 123 EDWARD STREET

This Branch administers, at present, certain aspects of consumer credit under The Mortgage Brokers Registration Act, The Real Estate and Business Brokers Act, The Collection Agencies Act, The Bailiffs Act, The Credit Unions Act and The Used Car Dealers Act. For administrative purposes, the Head of this Branch is responsible through the Assistant Deputy Attorney-General (Public Safety) to the Deputy Attorney-General.

ADMINISTRATION OF JUSTICE

Under the provisions of Section 92 (14) of the British North America Act, the Province is responsible for the constitution, maintenance and organization of provincial courts, both civil and criminal jurisdiction, including the development of procedures in the civil matters of these courts.

ASSISTANT DEPUTY ATTORNEY-GENERAL
(Administration of Justice) AND INSPECTOR OF LEGAL OFFICES
ROOM 319—PARLIAMENT BUILDINGS

This senior legal officer of the Department is responsible for the co-ordination of justice administration within the Province and the supervision of all legal offices connected with the administration of justice at all levels including such special offices as Public Trustee's, Official Guardian's, Probation Services, and Registry and Land Titles Offices.

COURTS ADMINISTRATION AND LANDS REGISTRY BRANCH
ROOM 322—PARLIAMENT BUILDINGS

This Branch maintains a continuous study and research into all aspects of the administration of justice, the case load of various courts and public legal offices and inspects the courts and public legal offices within the Province with a view of improving the overall administration of justice. This Branch is also responsible for the efficient operation of all land titles and registry offices.

LAND TITLES BRANCH
NEW CITY HALL

This Branch administers The Land Titles Act, The Boundaries Act and The Certification of Titles Act.

PUBLIC TRUSTEE'S BRANCH
145 QUEEN STREET WEST

The Public Trustee is responsible for the care and management of various trusts including intestate estates, estates of patients in Ontario Hospitals, special trusts, cemetery trusts and company trusts. He is the representative before the Courts of charitable interests and is charged with the responsibility of ensuring that trustees for unnamed charities carry out their duties in accordance with the law. Further, he deals with all property which passes to the Crown by way of escheat.

OFFICIAL GUARDIAN'S BRANCH
145 QUEEN STREET WEST

The Official Guardian in a variety of matters coming before the Courts, including divorce matters, is Guardian *ad litem* of the rights of infants pursuant to various Statutes and the Rules of Court, his duty being somewhat akin to a Public Defender in these matters. He is the guardian of their estates not of their persons.

PROBATION SERVICES BRANCH

481 UNIVERSITY AVENUE

This Branch administers the activities of Probation Officers attached to the various courts of criminal jurisdiction in order to provide such courts with pre-sentence reports on the accused, supervise the behaviour of persons put on probation by the courts, and assist them to settle down within their communities as useful and law abiding citizens. This Branch co-operates also with the Federal Parole Board in its rehabilitation work.

INTERNAL GENERAL AND FINANCIAL ADMINISTRATION

The responsibility for the co-ordination of internal, personnel and financial management and modern and uniform organization methods and procedures rests with the Executive Director in charge of the Administration and Finance Division, who supervises the following three Branches:

ACCOUNTS BRANCH

4TH FLOOR, 145 QUEEN STREET WEST

This Branch provides accounting services for all departmental branches and agencies, prepares and controls the annual budget, performs audits of and exercises financial control over the revenue and expenditure of all legal offices within the Province.

OPERATIONS BRANCH

ROOM 451—PARLIAMENT BUILDINGS

This Branch provides all office services such as procurement of office accommodation and supplies, printing, mail distribution, transportation and communications, including central filing for departmental legal offices.

PERSONNEL BRANCH

4TH FLOOR, 145 QUEEN STREET WEST

This Branch is responsible for the efficient personnel management covering recruitment, class and salary administration, training and staff development, administration of fringe benefits and attendance.

DEPARTMENT OF ECONOMICS AND DEVELOPMENT

Minister: THE HONOURABLE STANLEY J. RANDALL

The Department of Economics and Development functions to promote trade and industrial expansion, increase the province's rate of economic growth and, as a service department to other departments in the government of Ontario, undertakes studies in the economic and fiscal fields.

ADMINISTRATIVE OFFICES

950 YONGE STREET

Minister	Room 1007
Deputy Minister	Room 1002
Director, Administration Branch	Room 307
Office of the Chief Economist	Room 906
Director, Trade and Industry Branch	Room 402
Chairman, Ontario Economic Council	Room 702

Chairman, Ontario Research Foundation.....	43 Queen's Park Crescent
Agent General, Ontario House	London, England

TRADE AND INDUSTRY BRANCH

One of the most active branches of the department is that dealing with industrial development and trade. The branch maintains offices in New York, Chicago, London, Dusseldorf and Milan. Through these offices, backed up by specialized services available from the head office in Toronto, statistical information and business contacts are furnished to interested companies throughout the world.

The branch is divided into six divisions:

- Marketing Division
- Branch Plants Division
- Industrial Research Division
- Manufacturing Arrangements Division
- Municipal Services Division
- Promotion Services Division

MARKETING

This division is designed to assist Ontario companies seeking to expand their export markets. Information on this subject is on file and the office offers assistance to manufacturers seeking direct sales or agency contacts throughout the markets of the world.

The Marketing Division organizes and sends sales missions throughout the world. It also flies in buyers and sponsors a manufacturers' co-operative agency plan, which assists in the selection of agents in foreign

countries to represent groups of Ontario manufacturers whose products or services are allied but not competitive.

The division organizes industrial and export forums to encourage local businessmen to seek new markets for their products and licensing and manufacturing arrangements with foreign producers.

BRANCH PLANTS

This division is charged with the responsibility of attracting new manufacturing industries to the province. It also provides a consultative service for existing industry contemplating expansion.

Information is supplied on markets, raw materials, labour, transportation and other factors pertaining to manufacturing in Ontario. Counselling by government officials is conducted on a strictly objective basis with each community receiving fair consideration.

INDUSTRIAL RESEARCH

Official statistics and economic reports for each division of the branch are prepared by this office. Industrial summaries, economic studies, regional surveys and market analyses are supplied on request. Statistical booklets and economic pamphlets are published for general circulation.

MANUFACTURING ARRANGEMENTS

Through the services of this division manufacturers from other countries are assisted in entering into production arrangements with Ontario companies. It acts as a liaison agency between the Ontario manufacturer and the producer abroad. Other Canadian companies are included in the service which gives interested firms information on the potential markets and the facilities Ontario industries have to manufacture their products.

The division has the responsibility of organizing and presenting the Manufacturing Opportunities Shows in various centres throughout the province. At these shows, Ontario manufacturers and suppliers meet to investigate the possibilities of producing economically in Ontario, component parts being made in other countries.

MUNICIPAL SERVICES

In order to assist the municipalities of Ontario in establishing and carrying out an industrial promotion programme, this division provides a complete service at no cost to communities. This includes the gathering of factual information and appraisal of vacant land for the purpose of locating industrial plants.

The office provides an educational and advisory field service to encourage and assist municipalities. Consultations, meetings and conferences are held and factual information is distributed.

PROMOTION SERVICES

This division co-ordinates all department conferences, exhibitions and trade shows held throughout the world to increase exports, encourage foreign plant investment in Ontario and establish manufacturing arrangements between foreign and Ontario companies.

INFORMATION SERVICES

This group works in close co-operation with all branches and sections of the department to provide information to the press and public on the government's industrial development and trade crusade programme. It is responsible for the preparation, printing and distribution of much of the department's literature, and produces all films for the department.

SPECIAL PROJECTS AND PLANNING

As its title implies, this group organizes special departmental events and conferences. It has the responsibility of planning the Province of Ontario pavilion for the 1967 World's Fair at Montreal.

OFFICE OF THE CHIEF ECONOMIST

The chief economist co-ordinates all economic research in the Ontario government and acts as advisor to the government on economic policy.

ECONOMICS BRANCH

The Economics Branch analyzes current economic conditions and trends in Ontario, prepares forecasts of economic activity, population and labour force in Ontario, and prepares statements, memoranda and reports on a wide variety of economic questions, including manufacturing, capital investment, population, immigration, employment and unemployment, automation, foreign trade, and the balance of payments situation. It distributes to the public the Ontario Economic Review, a monthly publication describing current economic conditions in the province with special articles on different sectors of the economy. The branch also provides information to the public on current and projected economic conditions and other subjects related to Ontario's economic development. Each year a review of Ontario economic statistics is published.

FINANCIAL RESEARCH BRANCH

The Financial Research Branch undertakes a wide range of research studies in respect of the financial position of provincial governments and carries out special technical analyses for various governmental departments, agencies, commissions and committees.

SPECIAL RESEARCH AND SURVEYS BRANCH

The Special Research and Surveys Branch undertakes analytical and economic feasibility research on an area or industry basis. The Branch prepares and publishes regional economic surveys. It prepares for other

government departments reports in such fields as energy, natural resources and the resource-based industries, conservation, and transportation.

STATISTICS BRANCH

The Statistics Branch assists the various branches and divisions of the department and other Ontario government departments in conducting economic and statistical research by the application of computer techniques and other quantitative analytical methods. It also provides mathematical and statistical analyses.

REGIONAL DEVELOPMENT

This group carries out the department's programme of regional development, which is a partnership comprised of the provincial government, the local municipalities and interested persons. The section supplies a liaison staff and up to \$15,000 a year to match the sums raised by each of the regional development associations, local governments, agencies and individuals. These grants are used by the associations to promote the balanced economic development of the province by co-ordinating the interests of municipalities and business organizations.

ONTARIO ECONOMIC COUNCIL

Comprised of knowledgeable citizens from the various sectors of the provincial economy, this organization reports to government through the minister of economics and development.

It initiates research projects through the universities and within government in areas in which potential growth can make a contribution to the economic health of the province. The Council has a small staff of economists and research consultants which assist in the preparation of reports for its monthly meetings. Sub-committees established in co-operation with various departments and agencies of government and with associated groups are active in the fields of industrial development and research, agriculture, forestry, northern resources, tourism, etc.

In the area of technological progress, the Council has been assigned by the prime minister the responsibility for initiating and coordinating governmental research projects. In this work close liaison is maintained with concerned departments and economic councils in other provinces and at Ottawa.

ONTARIO DEVELOPMENT AGENCY

This Agency provides financial assistance through guarantees and managerial and technical assistance to Ontario businesses which qualify for such assistance and demonstrate an ability to contribute significantly towards Ontario's economic growth.

WOMEN'S ADVISORY COMMITTEE

This group works in close co-operation with the women's organizations of the province and other interested groups and individuals at the consumer level. Besides sponsoring Canadian fashion shows and handicraft exhibits, the Committee holds "Shop Canadian" conferences throughout the province.

SHERIDAN PARK RESEARCH COMMUNITY

Sheridan Park Research Community is an advanced multi-million dollar scientific centre devoted exclusively to industrial research. Its 340 acres are located 17 miles west of Toronto.

In 1964 the Ontario government created the Sheridan Park Corporation to sell Sheridan Park lands on a non-profit basis.

Plans for Sheridan Park Research Community include an international conference centre, a computation and data complex, and a 10-storey commercial office tower for technical, administrative, and ancillary needs. The research centre will eventually boast formal gardens, fountains, a geological museum, and overall landscaping. Research sites are fully serviced underground.

The Ontario Research Foundation will become the nucleus of Sheridan Park Research Community. Companies located in the research centre will be able to draw on ORF's experienced scientists and information services, modern and costly equipment, and excellent technical library.

ONTARIO RESEARCH FOUNDATION

Since its inception in 1928, the Ontario Research Foundation has been actively interested in the expansion of research in Canadian industry. It has contributed significantly to industrial growth by carrying out both long- and short-term applied research projects sponsored by business and government, which are its major sources of revenue. It reports to the Legislature through the Department of Economics and Development.

The services available at the Ontario Research Foundation are provided by a staff of engineers and scientists with wide experience. Modern specialized equipment, an excellent technical library, and many other facilities necessary for effective scientific research are at their disposal. Field engineering and technical information designed to aid industry on plant problems are provided by the foundation's Field Service Section. Many companies, from the very small to the very large, are provided with research and development services of a broad scope, ranging from technical information, literature, surveys, feasibility studies and special testing. It undertakes special research projects for the Ontario government.

ONTARIO HOUSE

This Ontario government office in the United Kingdom is located in the heart of London, just south of Piccadilly Circus. Reconstructed and renovated in 1964, Ontario House has become the show window of the province, representing all phases of the economy.

The chief officer is the Agent General who supervises the various sections: trade and industry, immigration, agriculture and public relations.

Ontario House is essentially a business office. Its functions, although different to those of Canada House, are complementary. The office confines itself solely with affairs affecting the province as defined by the British North America Act. It serves as an information bureau for British people and as a reception centre for Ontario visitors.

Trade and Industry Section is the U.K. counterpart of the Trade and Industry Branch in Toronto. Its principal functions are to obtain new branch plants for the province and further the sale of Ontario goods in Europe. The office is the headquarters for all the province's sales missions to the U.K. and parts of Europe. It arranges individual appointments in advance for businessmen.

Immigration Section is important to Ontario's economy as nearly 65 per cent of all British immigrants choose Ontario as their destination. The office does not actively solicit mass migration but rather acts as counselling agent giving guidance to those contemplating emigration from Britain. It works on a policy of selection, trying to fill the employment needs of industry where these skills and crafts are not available in Ontario. A branch office was opened in Glasgow in 1965.

Agriculture Section was formed to further the sale of Ontario food stuffs in Britain. It is staffed by personnel from the Department of Agriculture. They exhibit and sell Ontario products to the principal fairs and exhibitions as well as make direct sales approaches to wholesalers and agents.

Public Relations Section is the information centre for Ontario House. It is responsible for the distribution of all Ontario booklets and press releases, as well as advising tourists on the holiday attractions in Ontario and assisting the Ontario visitor.

ONTARIO HOUSING CORPORATION

The Ontario Housing Corporation was established under the terms of the Ontario Housing Corporation Act, 1964. It reports to the Legislature through the Department of Economics and Development.

The Corporation's statutory powers permit it to construct or acquire

housing for rental or for sale, develop land for housing purposes, make loans or guarantee loans for the construction of a building development, make loans or guarantee loans to persons to acquire and rehabilitate dwellings, administer its own housing developments and, upon request of a municipality, undertake the management of any housing development in the municipality on a fee basis.

As to financing, the Ontario Housing Corporation borrows 90 per cent of the capital costs from Central Mortgage and Housing Corporation, and the Ontario government puts up the remaining 10 per cent. There is no municipal share of capital costs and neither the federal government nor the municipality play any part in the development operation. When the houses are complete and occupied, and only then, if there is an operating loss, does the municipality share in any cost. Even then it is a nominal $7\frac{1}{2}$ per cent of any losses incurred.

The important function of the municipality is to initiate development, and this is done by a simple request directed to the Ontario Housing Corporation. OHC itself determines the need for housing in the municipality, and if a need does exist it will go right in and develop by the quickest possible means.

DEPARTMENT OF EDUCATION

Minister: THE HONOURABLE WILLIAM G. DAVIS
Q.C., B.A., LL.D.

This Department will be undergoing changes of location and function during 1965-66. Listings which are not as described should be checked with the Information Branch, 44 Eglinton Ave. W., Room 218, 365-5429.

The Department of Education is responsible for the administration and enforcement of the statutes and regulations respecting all types of schools which are supported in whole or in part by public funds. The scope of its activities has widened to meet the cultural, economic and recreational needs of community life in the Province.

The Minister responsible for the Department is assisted by a Deputy Minister, who reports to him on all matters relating to education within the Province and who is the senior administrative official of the Department. The Deputy Minister is assisted by three Assistant Deputy Ministers under whose direction the various branches and divisions carry on the work of the Department.

ADMINISTRATIVE OFFICES

Located at 44 Eglinton Ave. West, Toronto 12

Director, Youth Branch (Located at 559 Jarvis Street, Toronto)	

BRANCHES

DEPARTMENTAL BUSINESS ADMINISTRATION BRANCH

Budget Officer: Analyses and prepares departmental estimates for the Treasury Board. Studies and reports on present and planned programme costs.

Internal Auditor: Audits departmental business operations and recommends modifications in systems and procedures methods.

Accounts Division: Checks accounts payable and submits requisitions to Treasury for payment; prepares staff payrolls; maintains control records; prepares claims under agreements with the Government of Canada; accounts for all revenues.

Grants Division: Calculates legislative grants to school boards, public libraries, Associations for Retarded Children, municipal councils for programmes of recreation, provincial organizations providing recreational activities and organizations operating non-profit programmes of camping.

Pupil-Accounting Section: Audits school board student attendance records.

Administrative Services Division: Operates departmental mail office and files all official correspondence. Operates central stores.

INFORMATION BRANCH

Disseminates information about departmental developments and activities to the public, trustees and teachers.

PERSONNEL BRANCH

Administers departmental personnel programmes, including position classification, recruitment, staff training and development, organizational studies, salaries, benefits and personnel records.

PROGRAMME BRANCH

REGISTRAR'S DIVISION

Examinations: Prepares departmental examination papers; establishes centres; conducts examinations; marks answer papers; records marks. Maintains liaison between Department and Revising Board which reviews marks and considers appeals. Issues diplomas and certificates.

Admission to Teachers' Colleges: In accordance with regulations, in consultation with Teacher Education Branch and in co-operation with Teachers' Colleges.

Certification of Teachers: Registers and issues all interim and permanent teaching certificates; evaluates the progress of elementary teachers towards higher certification; registers and issues Standard 1, Standard 2, Standard 3 and Standard 4 Certificates to elementary-school teachers who meet the requirements.

Teacher Exchange: Assists in arranging interchange of Ontario teachers with other provinces and with countries within the British Commonwealth.

Evaluation: Evaluates Canadian and foreign educational documents for certain purposes.

Regulations: Registrar is liaison officer with the Registrar for Regulations.

Summer Courses for Teachers: Provides information for applicants; receives applications; admits qualified candidates and issues certificates.

Transportation Assistance for Students in Territorial Districts: Provides assistance in payment of cost of transportation of students to universities and colleges in northern sections of the Province.

CURRICULUM DIVISION

Undertakes development of new courses of study and revision of existing courses with assistance of teachers, principals and others; prepares courses of study for experimental use; prepares pamphlets outlining programmes for use in the schools or for special occasions; co-operates with provincial and local groups in curriculum planning.

Consults with publishers and their authors, illustrators and editors about needs for new textbooks for courses of study in the elementary and secondary schools; gives guidance in the development of new texts; arranges for examination of textbooks submitted for approval for use in the schools; prepares list of textbooks to be considered for approval.

AUDIO-VISUAL SECTION

Supervises purchase of educational films for elementary and secondary schools. Demonstrates audio-visual techniques.

Film Library Service: Directs film library service for schools from a stock of over 1,100 film titles.

Radio Broadcasting: Acts as liaison between Department of Education and Canadian Broadcasting Corporation. Co-operates with other provinces in this service to present during school hours music programmes and dramatized stories as well as other topics related to the curriculum from Kindergarten to Grade 13.

SUPERVISION DIVISION

Administration: Co-ordinates and enforces statutes and regulations pertaining to elementary and secondary schools in the Province.

Supervision: Inspects all public and separate elementary schools, collegiate institutes, vocational schools, school officials and boards, special vocational schools, high and continuation schools. Assists in school administration and organization.

Formation of New Sections: Assists in forming new sections in territorial districts and on Crown lands.

Construction of Schools: Advises boards regarding construction of new buildings and additions to present buildings.

Co-operation with Teacher Education Branch: Co-operates with Teacher Education Branch in connection with training and certification of teachers.

Railway School Cars: Provides, in co-operation with Canadian National and Canadian Pacific Railways, education for children in certain isolated areas in territorial districts.

Larger School Areas: Assists municipal councils and schools boards in establishing larger units of administration for public schools, and establishes larger units of administration in unorganized territory. Assists county councils, municipal councils and school boards in establishing larger units of secondary-school administration.

Ontario Colleges of Education: Consults with the Deans of the Ontario Colleges of Education regarding the professional preparation of candidates for secondary-school teaching certificates.

Inspection of Private Schools: Inspects Grades 11 and 12 classes in private schools on request of school concerned and on payment of fee, according to a graded schedule.

Student-Aid Programme: Administers the award of Ontario scholarships and bursaries to students continuing education in Canadian universities, teacher-education institutions, the Ontario College of Art, the Osgoode Hall Law School, the Provincial Technical Institutes, Vocational Centres, and in the final year of the respective secondary-school courses. Bursaries are awarded on the basis of financial need, with due regard to a minimum academic standing.

Co-operation with Correspondence Courses Division: Assists in preparation of elementary and secondary-school courses.

SPECIAL EDUCATION

Supervision: Assists teachers of classes for exceptional children—physically, mentally, socially and academically retarded, and gifted. Assists in survey work, prepares informative booklets to help teachers understand and meet the needs of the physically handicapped, mentally handicapped and those requiring remedial help.

SCHOOL BUSINESS ADMINISTRATION BRANCH AND DATA CENTRE

This Branch is responsible for consultative and advisory services to the school boards in respect to their business, operational and maintenance functions. It approves transportation agreements for grant purposes, advises on school boundary problems and approves building proposals for grant purposes. In addition, it provides legal and data-processing services

to the Department and conducts extensive research into problems of school construction and equipment.

TECHNICAL ADVISER

Receives building proposals from school boards, assessing the need of accommodation and recommending the financial assistance to be provided by the Province. Reviews plans in terms of educational adequacy and economic design, and determines capital support to be provided.

STATISTICS AND DATA-PROCESSING CENTRE

Compiles and correlates information required for certain Department functions. Assembles information on enrolments, attendance, promotions, certificates, etc. Studies the relationships of the various types of data compiled and assembled.

SPECIAL SCHOOLS AND SERVICES BRANCH

SCHOOLS FOR THE BLIND, DEAF AND RETARDED CHILDREN DIVISION

Ontario School for the Blind, Brantford; Ontario School for the Deaf, Belleville; Ontario School for the Deaf, Milton: Residential schools for blind and deaf children of the Province. Instruction is based upon regular courses of study, including vocational training, and proceeds to the secondary-school level.

COMMUNITY PROGRAMMES DIVISION

Function: Through a field staff and a specialist staff, the Community Programmes Division assists municipalities and the private agencies in a community to provide better opportunities for people to use their leisure time enjoyably and constructively through recreation or adult education. The Division administers the provincial grants to those municipal councils and to provincial organizations that operate approved recreation programmes and services.

Leadership Training: Advises or assists community recreation or adult-education organizations to develop and maintain an effective leadership by providing assistance in leadership education, appropriate resource materials and information.

Recreation Workers: Issues certificates to professional workers in municipal recreation who have attained the required training and experience.

Loan Services: For the convenience of community groups, maintains loan services involving plays for drama groups, music for small choirs, instructional films and slides, and a small library of reference books on recreation and adult education.

Publications: Prepares and provides periodicals, bulletins, handbooks and instructional materials for community adult-education and recreation leaders.

Fitness and Amateur Sport: Advises and assists provincial and local organizations in sponsoring and encouraging training for leaders, instructors and coaches; provides undergraduate scholarships and bursaries to students enrolled in professional courses leading to a degree in physical education or recreation; co-ordinates and strengthens programme services; and encourages wide participation in a vigorous programme of fitness.

Summer Camps: Administers a leadership training programme for secondary-school boys and girls at the Ontario Athletic Leadership Camp at Longford Mills and a leadership training programme for camp counsellors in non-profit camping organization at the Ontario Camp Leadership Centre at Irondale. Visits non-profit camps during July and August. Assists camp directors and counsellors through organized conferences.

CORRESPONDENCE COURSES DIVISION

Conducts courses for persons in Ontario who are unable to attend school. These courses include academic subjects for Grades 1 to 13 (including bilingual courses for French-speaking pupils in Grades 1 to 8) and also a number of trade courses.

PROVINCIAL LIBRARY SERVICE DIVISION

Function: Seeks to raise the standards of public libraries and librarianship through: field visits, advice, meetings, training classes and establishment of new service; liaison with library associations and other educational groups; and development of regional library co-operatives.

Grants and Legislation: Recommends provincial grants for public library boards and advises regarding The Public Libraries Act and new legislation.

Library: Offers direct service through adult and juvenile library collections; provides a teachers' reference library and book shipments to small schools, communities and other agencies.

Publications: Edits the Ontario Library Review, and issues library statistics and other promotional material.

TEACHER EDUCATION BRANCH

Administration: Administers operation of Teachers' Colleges.

Supervision and Inspection: Directs allocation of students to various Teachers' Colleges; recommends regarding regulations and courses of study for Teachers' Colleges; supervises selection of public and separate schools for practice teaching; inspects Teachers' Colleges; consults with principals and staff regarding courses and methods.

Teachers' Colleges: Thirteen in number, located in Hamilton, Lakeshore (New Toronto), London, North Bay, Ottawa, Peterborough, Port Arthur (Lakehead), St. Catharines, Stratford, Sudbury, Toronto and Windsor. (The University of Ottawa Teachers' College and the Sudbury Teachers' College are for the preparation of teachers for elementary-school classrooms attended by French-speaking pupils where, with the approval of the Minister, English and French are used as languages in various subjects of the courses of study.)

Courses: A one-year course leading to an Interim Elementary School Teacher's Certificate, valid in the elementary schools of Ontario, is offered in the Teachers' Colleges. A Primary School Specialist course, leading to a teaching certificate valid in junior and senior kindergarten and in Grades 1 and 2, is also offered at the Toronto Teachers' College.

Admission Requirements: The academic requirement for admission is standing in eight Grade 13 papers, two of which shall be English Literature and English Composition.

Note: A three-hour language examination written in 1965 counts as two papers for Teachers' College entrance.

PROFESSIONAL DEVELOPMENT DIVISION

Summer Courses: Supervision and administration of various summer schools and courses operated for Ontario teachers.

In-Service Education Programmes: Assists local inspectors and teachers' groups to organize and conduct in-service activities designed for the professional improvement of teachers. Branch personnel participate as speakers, consultants and resource persons in such programmes.

TECHNOLOGICAL AND TRADES TRAINING BRANCH

PROVINCIAL INSTITUTES OF TRADES

The first Provincial Institute of Trades was established in 1951. There are now three in Toronto, namely, the Provincial Institute of Trades, the Provincial Institute of Automotive and Allied Trades and the Provincial Institute of Trades and Occupations.

The Institutes of Trades provide in-school training for the apprentices in trades designated under the Apprenticeship Act of the Department of Labour, the Province of Ontario. Courses in a wide variety of non-designated trades are also conducted in the three Institutes of Trades. Many of the students in the latter are unemployed persons, training under the Federal-Provincial Technical and Vocational Training Agreement, Programme 5.

ONTARIO VOCATIONAL CENTRES

Ontario Vocational Centres were established in London and Ottawa in 1964; another will be opened in Sault Ste. Marie in September, 1965.

In addition to courses provided for the training of apprentices, two-year post-secondary technician courses have been established in the Vocational Centres.

INSTITUTES OF TECHNOLOGY

Eastern Ontario Institute of Technology, Ottawa

This Institute was authorized by Order-in-Council dated March 28, 1957, and was established on September 1, 1957, to provide technological courses beyond the secondary-school level. The Institute now offers a three-year diploma course in Chemical Technology, Civil Technology, Electronic Technology, Mechanical Technology and Business Administration.

Hamilton Institute of Technology

The Provincial Institute of Textiles, Hamilton, was established in 1946 to offer a course in Textile Technology. Its name was changed in September, 1956, to The Hamilton Institute of Technology, and the scope was expanded to include the Engineering Technology courses. The Institute now offers the three-year diploma courses in Control Systems Technology, Electronic Technology, Industrial Management Technology, Mechanical Technology, Textile Technology, and Business Administration.

Western Ontario Institute of Technology, Windsor

This Institute was established on April 1, 1958, by Order-in-Council dated April 24, 1958, to provide technological courses beyond the secondary-school level. Three-year diploma courses in Chemical Technology, Electronic Technology, Mechanical Technology and in Business Administration are offered.

Provincial Institute of Mining, Haileybury

This Institute opened for courses in Mining in September, 1945. A three-year course in Mining Technology is provided for applicants with Grade 12 standing in English, History, Mathematics and Science.

Northern Ontario Institute of Technology, Kirkland Lake

The Northern Ontario Institute of Technology at Kirkland Lake was established by Order-in-Council in 1962. Diploma courses in Civil Technology, Electronic Technology, Mechanical Technology and Business Administration are offered.

YOUTH BRANCH

The primary objectives of the Youth Branch are to stimulate and co-ordinate research into the needs of youth in our society; to co-ordinate, wherever practicable, existing governmental, public and private programmes for youth; and to provide an information service for youth.

DEPARTMENT OF ENERGY AND RESOURCES MANAGEMENT

Minister: THE HONOURABLE J. R. SIMONETT

The Department of Energy and Resources Management is responsible for a resource management programme particularly in the field of oil and gas, water, and projects carried out within the Conservation Authorities.

The Department is comprised of two principal branches—the Energy Branch and the Conservation Authorities Branch. The Conservation Authorities Branch, which was formerly with the Department of Lands and Forests, was transferred to the Department on April 1, 1964, and simultaneously the name of the Department was changed from Energy Resources to Energy and Resources Management.

The Ontario Energy Board functions under The Ontario Energy Board Act, 1964, and reports to the Government through the Minister of Energy and Resources Management. The offices of the Ontario Energy Board are located at 790 Bay Street.

While not administratively responsible to the Department, the following Commissions report to the Minister of Energy and Resources Management: Ontario Water Resources Commission, Ontario Northland Transportation Commission, and the Hydro-Electric Power Commission of Ontario.

The offices of the Minister and Deputy Minister are located in the main Parliament Buildings. The Energy Branch is located at 42 Charles Street East, and the Conservation Authorities Branch at Downsview.

ENERGY BRANCH

The Energy Branch administers The Energy Act and its regulations, as well as The Gasoline Handling Act with its regulations.

UTILIZATION INSPECTION DIVISION

The function of this division is to ensure safety in the handling and use of natural gas, propane and petroleum products. This is done by the Utilization Inspection Division through:

- (a) Reviewing and checking the natural gas distributors' construction and inspection programme to be certain that their procedures are in accordance with the regulations.
- (b) Licensing petroleum product bulk storage plants, service stations, and liquid fuel tank trucks.
- (c) Conducting examinations for gas fitters, pipeline inspectors and oil burner mechanics and, where qualified, licensing them.

- (d) Inspecting pipelines and distribution systems of gas and fuel oil distributors.
- (e) Inspecting bulk plants of propane distributors.

DRILLING AND PRODUCTION DIVISION

The Drilling and Production Division is responsible for the administration of those sections of The Energy Act and its regulations which deal with the drilling for and production of oil and natural gas, and may be classified and described as follows:

- (a) Geophysical and Geochemical Exploration for Oil and Gas—controlled and regulated by licensing; reports are obtained and statistics are prepared and published.
- (b) Leasing Oil and Gas Rights—controlled and regulated by licensing; reports are obtained and statistics are prepared and published.
- (c) Drilling for Oil and Gas. Wells for oil and gas, etc., are drilled under permit, and the well-owner is required to post a bond. Equipment and techniques are supervised and spacing is regulated. Complete records are obtained and published; rock samples are taken, examined and stored; drilling machines are licensed.
- (d) Production of Oil and Gas. Producers are licensed, methods are regulated and supervised; reports are obtained and statistics are prepared and published.

CONSERVATION AUTHORITIES

Administers The Conservation Authorities Act (R.S.O. 1960); assists Conservation Authorities by carrying out surveys, recommending conservation programmes and providing technical assistance in carrying these out under the following headings:

Flood Control and Water Conservation: location and number of conservation reservoirs required, small dams, river channel improvements and related ground water studies.

Land Use: land use and soil erosion control, and recommendations for scheme for such work.

Forestry: examines forest conditions, delimits reforestation and natural water storage areas.

Wildlife: its economic value, conditions of streams and improvement where possible.

Recreation and Parks: a census of facilities and present and future needs in relation to rural and urban areas of the watershed.

The Branch also administers The Parks Assistance Act, 1960, providing grants to approved parks, with overnight camping and picnic facilities, established by municipalities.

ONTARIO ENERGY BOARD

The Ontario Energy Board, which is composed of a Chairman and four members, functions under the authority of The Ontario Energy Board Act, 1964, certain sections of The Municipal Franchises Act pertaining to approval of bylaw franchise agreements and granting certificates of public convenience and necessity in the distribution of natural gas, and one section of The Assessment Act.

One of the main functions of the Board is to fix and approve rates and charges for the sale of gas by transmission, distribution and gas storage companies in the Province by public hearings. Also, by public hearing, the Board grants leave to construct pipelines, authority to expropriate pipeline rights-of-way, and authority to store gas in designated areas.

In addition, the Board examines and reports on any matters related to energy which may be referred to it by the Lieutenant-Governor in Council or the Minister of Energy and Resources Management.

ONTARIO NORTHLAND TRANSPORTATION COMMISSION

This commission operates the Ontario Northland Railway, boat lines, transport facilities and a vast communications system, which have opened the north so that man may tap its riches. From the beginning of the railway some 60 years ago, now aptly called "Ontario's Development Road", the ONR has played a prominent part in stimulating the whole economy of Northern Ontario. Now completely dieselized, the provincially-owned railway provides cheap and efficient transportation over hundreds of thousands of square miles of rugged terrain. Passenger and freight service by bus, truck and boat make it easy to visit and do business even in many remote parts of the north. The communications system includes long-distance telephone, teletype and allied services. Modern long-distance telephone terminals are maintained for the major communities while a two-way radio telephone system links tiny settlements in the James and Hudson Bay hinterlands to the rest of the continent.

The long-term outlook for the railway and for Northern Ontario, with which its interests are so closely linked, is extremely bright. From its inception in 1902 when the first sod was turned, the railway has pioneered

the country in the sense that it penetrated ahead of development. Discovery of the vast mining fields of Cobalt, the Porcupine, Elk Lake and Kirkland Lake, followed railway construction. Great stands of forest and many hydro electric sites on northward flowing rivers were made accessible by the railway. On this foundation of raw materials and plentiful power, the north country's great pulp and paper industry was founded.

The northland region ships some \$200,000,000 in paper, gold, silver and other minerals each year, much of this going to Canada's export markets. Recent developments in the field of base metals hold great potential. A giant iron mine recently went into production near Kirkland Lake and development on another is underway near Temagami. Development is also going forward on the great copper-zinc find near Timmins. Recent geophysical surveys have outlined a hitherto unknown area some 5,000 square miles in extent which indicates possible mineral potential. This area is traversed by the railway between Cochrane and Moosonee. Exploration in this area is being pressed forward.

DEPARTMENT OF HEALTH

Minister: THE HON. MATTHEW B. DYMOND, M.D., C.M.

The Ontario Department of Health has over-all responsibility for public health in the Province. This responsibility derives from powers and functions assigned to the Minister of Health by The Public Health Act; however, the Act assigns a number of these powers and functions to local boards of health, especially in the areas of communicable disease and environmental sanitation.

Nevertheless major responsibilities remain with the Provincial Department, the most notable of these being the treatment and care of the mentally ill. In addition, the Ontario Department of Health assumes responsibility for the treatment of tuberculosis, provision of certain rehabilitation services, central and regional laboratory services as well as radiation laboratory and biological services, the maintenance of statistics and case registers and the administration of health grants and bursaries.

Consultative services are provided too especially for the benefit of the local boards of health. These include public health administration, epidemiology, maternal and child health, public health nursing, industrial hygiene, dental health, nutrition and health education. All the services referred to are to be found in the Departmental Branch Reports which follow. It should be noted that there is not always a clear dividing line between branches which provide direct or consultative service since both types may be provided by one or another of the branches.

It may be noted as well that there are major commissions, boards, and other agencies which report directly to the Minister of Health and which have no direct association with the Department. The best known of these are the Ontario Hospital Services Commission, the Ontario Cancer Treatment and Research Foundation, and the Alcoholism and Drug Addiction Research Foundation. Enquiries concerning the responsibilities and functions of these bodies are necessarily directed to them or to the Minister's office.

DENTAL HEALTH BRANCH

The Dental Branch of the Department of Health includes in its activities:

- Promotion of dental health education
- Direction and supervision of dental services in the Ontario (Mental) Hospitals and the Central Dental Laboratory
- Direction of the operation of dental railway cars which provide service for school children in certain areas of unorganized territory.
- Promotion of dental services for children in organized territory by grants-in-aid to local boards of health

Every Ontario (Mental) Hospital has a well equipped dental clinic (staffed by a dentist and an assistant). Patients admitted to the hospitals are given a careful dental examination, mouth conditions are charted and a radiographic check-up is made of all cases where possible. Needed treatment is provided.

A fully equipped Central Laboratory is maintained to provide service for the clinics of the Ontario (Mental) Hospitals. Two full-time technicians are kept busy constructing prosthetic appliances.

Large areas of Northern Ontario are without the services of a resident. To provide a service for pre-school age children and school age children, the Department of Health maintains two railway dental cars, staffed by full-time dentists and assistants. One car operates over the C.N.R. from the Quebec border to the Manitoba border. One car operates over the C.P.R. from Cartier to the Manitoba border. Both service the branch lines.

A school dental service is one means of promoting healthy mouths and good dental health habits. The Department of Health encourages the operation of school services by payment of grants-in-aid. The service may be a simple contract, with the resident dentist to supply the service in his office; or dental equipment may be installed in the schools. The grants-in-aid vary from 20% to 30% of the expenditure for any one municipality, with a maximum of \$2,000.00 in any one year. This is dependent upon the type of service rendered and the area served. There is no time limit to the payment of amounts up to and including the maximum.

Public dental health education and research in the field of the prevention and control of dental diseases offer the greatest promise of raising the dental health level of the public. The Department recognizes the value of research into these problems and has given grant assistance to several such studies.

ENVIRONMENTAL SANITATION BRANCH

The function of this branch is chiefly concerned with the provision of advisory and consultative assistance to local health agencies in connection with their programmes to prevent outbreaks of disease brought about by environmental factors. The branch also provides advice to the public upon request. Pamphlets on topical subjects, (home pasteurization of milk, water supply, sewage disposal, sanitation hints, rodent control) are prepared for public use.

ENGINEERING SECTION: This section is concerned with non-municipal water supply and sewage disposal, refuse disposal, swimming pool regula-

tions, summer camp regulations, school sanitation, the examination of subdivision proposals from the public health point of view, control of insects and rodents, and general sanitation.

COUNSELLING SERVICE: A consultative service is available on request to the local health agencies to advise them on possible improvements in their sanitation programmes.

CEMETERY SECTION: The function of this section is to administer The Cemeteries Act and its attendant Ontario Regulations. All cemeteries in the province are subject to these provisions, and crematoria, mausolea, and columbaria are included in this legislation.

New establishments and extensions to these facilities require the approval of the Department and alterations in rates, rules and plans of such establishments must be filed with the branch.

The section field staff are available to provide assistance and advice to cemetery, mausoleum, and crematorium operators, the general public, and municipal corporations, on request, and during field inspections.

TRAINING SECTION: This section provides instruction and liaison with the Ryerson Polytechnical Institute in connection with its training course for public health inspectors and, generally, concerns itself with other training and developmental programmes for public health officials.

MILK CONTROL SECTION: The function of this section is to administer the pasteurization plant regulations, the compulsory pasteurization area regulations, and provide a direct inspection of milk product plants and pasteurization plants where the latter are not under local full time health agencies.

EPIDEMIOLOGY BRANCH

This Branch is organized by section and is comprised of three which are the Communicable Disease Control Section, the Venereal Disease Control Section and the Food Control and Zoonoses Section. The principal legislation involved in the activities of these sections, respectively, are the Public Health Act and Regulations with respect to the control of communicable diseases, the Venereal Diseases Prevention Act and Regulations, and the Public Health Act and appropriate sets of regulations respecting various aspects of food and food processing apart from milk and milk products.

The chief function of the Branch is the provision of advisory, and consultative assistance to medical officers of health, local boards of health and private physicians concerning matters of interest to any one or all of the three sections. Field visits are made by members of the section's staff

when indicated and these supplement and complement the advisory services. These field trips are limited only by the availability of time and staff. In those areas of the Province without municipal organization which are not receiving service from a Health Unit the Branch assumes responsibility for the provision of basic services in the fields of interest for which the three sections of the Branch are responsible.

In addition, the Branch is also responsible for the purchase and distribution of biological products used in providing immunization against certain communicable diseases and occasionally in treatment of cases. These products are distributed free of charge to physicians and medical officers of health for this purpose. Insulin is also made available to those who require some measure of public assistance but here the municipality of residence shares a portion of the cost of the insulin provided.

COMMUNICABLE DISEASE CONTROL SECTION

The chief function of this section is the provision of advisory and consultative assistance in the interests of control of communicable diseases. This also involves field visits by members of the Branch staff. In addition, the section receives reportable communicable disease data from all municipalities and compiles and analyses this material for subsequent distribution to the Dominion Bureau of Statistics and to medical officers of health. The Branch responsibility for the purchase and distribution of biological products used in the provision of immunization against certain diseases is borne by this section. These products are distributed free of charge to physicians and medical officers of health for this purpose. Insulin is also made available for the management of diabetics who require some measure of public assistance. In this case the municipality of residence shares a portion of the cost of the insulin provided. The section exercises a measure of control over the issue and use of biological products for prevention and prophylaxis of disease to ensure that supplies are available and wisely used.

VENEREAL DISEASE CONTROL SECTION

The most important function of this section of the Branch is the initiation of follow-up procedures with reference to relevant contacts of cases of venereal disease based on information provided with the case notifications. Venereal diseases are reported directly to the Provincial Department of Health rather than to the local medical officer of health as is the case with other communicable diseases. Data with reference to cases and contacts of venereal disease are collected and studied to determine and define control problems in this field. Advisory and consultative services are provided to physicians and medical officers of health concerning the management of cases. Penicillin for treatment of cases and grants-in-aid

to venereal disease clinics are provided by the section. Information services to both professional and lay groups are provided by lecture, film loans, and distribution of literature.

FOOD CONTROL AND ZONOSSES SECTION

The activities and responsibilities of this section are related to the legislative authority under The Public Health Act respecting Slaughterhouses and Meat Processing Plants, Frosted Food Locker Plants, Eating Establishments, and Communicable Disease, more particularly disease arising from infected food and infected animals. The regulatory aspects of food hygiene provide a base of facts and data from which further investigative and epidemiological studies may be made. Consultations with plant operators and local health authorities constitute an important part of the programme in this Branch, the objectives being better operating standards and a more uniform and co-ordinated approach to existing deficiencies. To ensure greater effectiveness, close liaison is maintained with other official agencies such as the Food and Drug Directorate, Department of National Health and Welfare, the Health of Animals Branch, Canada Department of Agriculture, the Livestock Branch, Ontario Department of Agriculture, the Ontario Department of Lands and Forests, as well as other Branches of the Department.

The Branch is responsible for the maintenance and distribution of anti-rabies vaccine to physicians. In this regard, there have been numerous enquiries from and consultations with medical officers, physicians and concerned members of the public.

INDUSTRIAL HYGIENE BRANCH

The personnel of this Branch made up of physicians, physicists, chemists, engineers and technicians together with specialized laboratory facilities provide a public service for the recognition and control of health hazards arising from exposure to physical and chemical agents. This service, originally limited to industry, has now been expanded to include air pollution, pesticides, radioactivity and other areas where physical and chemical agents might affect the health of the population as a whole. Medical findings, field inspections and laboratory analyses are often combined to arrive at a suggested method of control. Although part of the work is associated, on a consulting basis, with other governmental jurisdictions the following legislation is enforced directly by this Branch:

Silicosis Act 1950 and Regulations require the examination and certification of employees in certain industries where a dust hazard may be present. Two mobile X-ray chest units with attending medical clinicians and technicians cover the Province every four months to carry out the required examinations for certification.

Pesticides Act 1960, Regulations and Amendments provide for the licencing of commercial pesticide control operators and the limitations in the use of certain pesticide chemicals.

The Stuffed Articles Regulations under The Public Health Act requires that all filling for stuffed articles in general public use such as mattresses, pillows, stuffed toys and children's padded clothing be of new material.

The Air Pollution Control Act 1958 and Amendments provide for the establishment of an Air Pollution Advisory Committee, for regulations to control industrial emissions and for the review of municipal by-laws by the Minister of Health before enactment. Technical assistance including laboratory facilities are part of the work of this Section of the Branch's activities.

In addition Civil Service Health Centres are operated to provide health services for civil servants. These services include first aid, treatment of minor health conditions, physical examinations, health advice and the referring of employees to their own physicians or other agencies for continued treatment.

INFORMATION AND PUBLICITY BRANCH

The function of the branch is to make the people of Ontario aware of the Health facilities available to them. This is accomplished through many avenues as indicated here.

PRESS RELATIONS: Close liaison is maintained with the news media.

PUBLICATIONS: The department has 46 books and booklets published on Health subjects and together with 110 Federal publications entrusted to Ontario's care we make public distribution of some 2,000,000 pieces of literature annually.

FILM LIBRARY: The department owns some sixty 16 m.m. movie films covering 25 health subjects. The branch maintains an active film library service and ships films free to interested groups in Ontario throughout the year.

PRESS CLIPPING: The branch catalogues all press clipping references to health and maintains 20 active books on the various branches of health.

EXHIBITION DISPLAYS: The branch is responsible for the design, annual re-design, maintenance and transportation of the department's many exhibition displays.

PHOTOGRAPH LIBRARY: Having photographic equipment and talents available the branch captures on film every phase of the department's

health programme. The files contain many thousand negatives catalogued for ready reference.

WEEKLY NEWSPAPER COLUMNS: Articles on varying health subjects are researched and prepared weekly. Distribution of these articles is now obtaining regular public service space in over 125 Ontario newspapers weekly.

TELEVISION AND RADIO: Coverage is readily obtained by this branch whenever required for major health news.

OFFICIAL FUNCTIONS: The branch is charged with the responsibility of arranging official openings of all new and renovated health facilities in the province. Hospital "Open House" days, Concerts, Boy Scouts, Carnivals and other events are also assisted.

PRINTING: The printed word is the main vehicle of information and the branch maintains multigraph and mimeograph equipment for the purpose of producing quickly, smaller printing jobs. In the course of a year some 5,000 small jobs are carried out and some 2,000,000 impressions are printed on the duplicating machines. All large printing jobs for the department are arranged by this branch through the Queen's Printer.

LABORATORY BRANCH

The Laboratory Branch conducts the Ontario Public Health Laboratory Service. It is concerned primarily with community health in sanitary bacteriology of water, milk and public eating places, performed for Medical Officers of Health. It is concerned also with health of the individual citizen in diagnostic bacteriology, virology, mycology, parasitology, biochemistry, haematology and histopathology performed for the practising physician. This is related not only to infectious diseases but to the out-of-hospital care of other conditions of ill health, physical and mental, functional, geriatric and malignant.

In Toronto the central reference laboratories include a mobile unit and a technician training unit. Twelve Regional Laboratories are located at Fort William, Kenora, Kingston, London, North Bay, Orillia, Ottawa, Peterborough, Sault Ste. Marie, Timmins, Windsor, Woodstock, and five Associated Hospital Laboratories are located at Cornwall, Kitchener, Sarnia, St. Catharines and Stratford. The aggregate of performance of the Laboratory Branch as a whole during 1964 was 11,296,448 Dominion Bureau of Statistics (DBS) "units" of work in examining 2,088,369 specimens of all types. Of total laboratory service micro-biology in all its aspects, including serodiagnosis and sanitary bacteriology, predominates by more than three-quarters of volume.

MATERNAL AND CHILD HEALTH BRANCH

The Maternal and Child Health Branch concerns itself essentially with matters affecting the health of the expectant mother as well as that of infants, preschool and school age children. The main objectives include reductions in maternal and infant mortality as well as means to improve the health of mothers and children.

The Branch provides consultative services to local health departments, hospitals and poison control centres; liaison between agencies interested in maternal and child health; promotes health education including post-graduate refresher courses for both public health and hospital nurses; promotes research in areas of maternal and child health as well as assessment of various types of health services.

Nursing consultants from this Branch, regularly, as well as by special request, visit nurseries, delivery rooms and formula-preparation rooms in all general hospitals to discuss problems, including infections, with nursing staffs in this area relating to the care of newborn infants. Hospital nurses have been encouraged to attend refresher courses in obstetrics and care of the newborn.

The school health programme is another continuing interest of the Maternal and Child Health Branch. It consults with local health and education officials on vision screening programmes, screening programmes for hearing defects, and immunization programmes. The Branch stresses the importance of routine medical examination of all entrants to Grade I by the family physician and encourages the establishment of referral programmes in secondary schools whereby the teacher co-operates with the public health nurse in referring health abnormalities in the classroom. The Maternal and Child Health Branch participates also in the planning of the health curriculum on behalf of the Department of Health for the Department of Education.

The Branch supervises the Thalidomide Programme in Ontario whereby children with deformities associated with the drug receive financial assistance for medical and surgical treatment.

It also administers the Phenylketonuria programme of supplying the "Lofenalac" diet to newborn infants with the disease. The Branch also encourages testing of newborn infants in Ontario for Phenylketonuria.

The prophylaxis of ophthalmia neonatorum for the prevention of blindness in newborn infants by the use of one per cent silver nitrate is mandatory in Ontario, and the observation of this preventive measure is the concern of the Maternal and Child Health Branch.

The payment of grants to the Ontario Society for Crippled Children by the Ontario Department of Health for the payment of prescribed drugs

and equipment for needy systic fibrotic children is made through this Branch.

Another responsibility of the Maternal and Child Health Branch has been the setting up of a system of poison control centres. Over thirty poison control centres have been established in strategic areas across Ontario. They are located in the following hospitals:

The Royal Victoria Hospital of Barrie, Barrie.
St. Joseph's Hospital, Brantford.
Joseph Brant Memorial Hospital, Burlington.
McKellar General Hospital, Fort William.
St. Joseph's Hospital, Guelph.
Misericordia Hospital, Haileybury.
Chedoke General and Children's Hospital, Hamilton.
Hamilton General Hospital, Hamilton.
Kingston General Hospital, Kingston.
Kirkland and District Hospital, Kirkland Lake.
Kitchener-Waterloo Hospital, Kitchener.
St. Mary's Hospital, Kitchener.
Victoria Hospital, London.
Ottawa General Hospital, Ottawa.
Ottawa Civic Hospital, Ottawa.
The Prince Edward County Hospital, Picton.
The General Hospital of Port Arthur, Port Arthur.
The St. Catharines General Hospital, St. Catharines.
Sarnia General Hospital, Sarnia.
St. Joseph's Hospital, Sarnia.
Plummer Memorial Public Hospital, Sault Ste. Marie.
Norfolk General Hospital, Simcoe.
St. Joseph's Hospital, Sudbury.
Sudbury General Hospital, Sudbury.
Hospital for Sick Children, Toronto.
Toronto East General and Orthopaedic Hospital, Toronto.
Sydenham District Hospital, Wallaceburg.
Hotel Dieu of St. Joseph, Windsor.

An important development of the programme of Poison Control Centres is the Accident Prevention Programme carried out by local health units. It involves follow-up home visits by public health nurses. In some units not only cases of accidental poisoning are visited but all cases of injury in children treated at the emergency departments of local hospitals.

MEDICAL STATISTICS BRANCH

The Branch is responsible for the annual review of the follow-up cards for all new patients admitted to each of the seven Ontario Cancer Clinics and the five Cancer Registries associated with Clinic hospitals. The information on the statistical cards is coded, punched and sorted and tabulations prepared. From these tabulations the Branch prepares three annual reports, one for inclusion in the annual report of The Ontario Cancer Treatment and Research Foundation. Special statistical reviews of cancer of particular sites are undertaken for the Foundation each year. Manuals of procedure have been prepared and necessary revisions based on experience are introduced from time to time.

The Branch is also responsible for the collection, tabulation and analysis of Ontario mental health and hospital statistics. Involved is the processing of statistical cards and the preparation of monthly and annual statistical reports related to admissions to and separations from Ontario Mental Hospitals and Hospital Schools, admissions to and separations from psychiatric units of public hospitals, admissions to and separations from residential units of Ontario Hospitals. An annual report relating to patients treated by the community mental health facilities is also prepared. Manuals of instruction to afford guidance to all reporting agencies have been developed and are revised as experience dictates.

With the idea of meeting a recognized consumer demand for health statistics, special material is collected and processed and reports are prepared for distribution to medical officers of health, other persons or agencies in the public health field, and to a selected number of daily and periodic newspapers and periodicals. A number of these reports are prepared on an annual basis while others are prepared when of current interest.

In addition to the above existing programme, numerous routine projects and special studies are continually under way. Statistical advice and consultation are provided in all Branches of the Department and many projects are undertaken jointly.

MENTAL HEALTH BRANCH

The Mental Health Branch of the Department of Health operates 12 regional hospitals for the mentally ill, 3 hospital schools and 2 hospitals for the mentally retarded, and 5 special hospitals—Woodstock, (tuberculous mentally ill and the epileptic), Penetanguishene (mentally ill criminal offenders), Toronto Psychiatric Hospital, Thistletown (emotionally disturbed children), and the Children's Psychiatric Research Institute, London (mentally retarded children).

Out-patient services are provided at the regional mental hospitals and at several of the other hospitals, as indicated below.

The Mental Health Branch provides assistance to local authorities to establish and operate mental health clinics and psychiatric units in general hospitals. In 1963, 23 mental health clinics and 21 psychiatric units were being operated by local authorities.

MENTAL HEALTH SERVICES PROVIDED BY PROVINCIAL DEPARTMENT OF HEALTH

HOSPITALS AND RELATED SERVICES

AURORA—Ontario Hospital

Hospital for retarded men and boys, serving the total province.

BROCKVILLE*—Ontario Hospital

Regional hospital for mentally ill, serving the counties of Dundas, Stormont, Carleton, Leeds, Glengarry, Prescott, Grenville and Russell.

In addition to the out-patient service located at the hospital, a travelling mental health clinic makes regular trips to Cornwall.

CEDAR SPRINGS—Ontario Hospital School

Hospital school for retarded children, serving the south-western portion of the province.

COBOURG*—Ontario Hospital

Hospital for retarded women, serving the total province.

The out-patient and day care service is located at 394 College Street, Cobourg.

GODERICH*—Ontario Hospital

Regional hospital for mentally ill, serving the counties of Bruce, Huron, Perth.

The out-patient service is located at the hospital.

HAMILTON*—Ontario Hospital

Regional hospital for mentally ill, serving the counties of Haldimand, Halton, Lincoln, Welland and Wentworth.

The out-patient service is located at the hospital.

*—Out-patient service.

KINGSTON*—Ontario Hospital

Regional hospital for mentally ill, serving the counties of Frontenac, Haliburton, Hastings, Lanark, Northumberland, Peterborough, Renfrew, Lennox and Addington, and Prince Edward.

In addition to the out-patient service located at the hospital, a traveling mental health clinic service is provided for Belleville and Pembroke.

LONDON*—Children's Psychiatric Research Institute

Specialized hospital for investigation and short-term care of mentally retarded children, serving south-western Ontario.

An out-patient service for retarded children is located at the hospital.

LONDON*—Ontario Hospital

Regional hospital for mentally ill, serving the counties of Huron, Middlesex, Perth, Waterloo and Wellington.

The out-patient service is located at 414 Dufferin Avenue.

NEW TORONTO*—Ontario Hospital

Regional hospital for mentally ill, serving the counties of Peel, Simcoe and York.

The out-patient and day care service is located at the hospital.

NORTH BAY*—Ontario Hospital

Regional hospital for mentally ill, serving the counties of Algoma, Cochrane, Muskoka, Nipissing, Parry Sound, Sudbury and Timiskaming.

The out-patient service is located at the hospital.

ORILLIA—Ontario Hospital School

Hospital school for retarded children, serving north-western and central Ontario.

OWEN SOUND*—Ontario Hospital

Regional hospital for mentally ill, serving the counties of Bruce, Dufferin and Grey.

The out-patient service is located at the hospital.

PENETANGUISHENE*—Ontario Hospital

Regional hospital for mentally ill.

Hospital for criminally insane, serving the total province.

The out-patient service is located at the hospital.

*—Out-patient service.

PORT ARTHUR*—Ontario Hospital

Regional hospital for mentally ill, serving the districts of Kenora, Rainy River and Thunder Bay.

The out-patient service is located at the hospital.

A diagnostic centre for retarded children is located at the hospital.

REXDALE—Thistletown Hospital

Specialized hospital for investigation, treatment and clinical research of mentally disturbed children between the ages of 6-12, serving the total province.

ST. THOMAS*—Ontario Hospital

Regional hospital for mentally ill, serving the counties of Brant, Elgin, Essex, Kent, Lambton, Norfolk, Oxford.

In addition to the out-patient service located at the hospital, a traveling mental health clinic service is provided for Simcoe.

SMITHS FALLS—Ontario Hospital School

Hospital school for retarded children, serving eastern and northern Ontario.

TORONTO*—Ontario Hospital

Regional hospital for mentally ill, serving the city of Toronto.

The out-patient service is located at the hospital.

TORONTO*—Toronto Psychiatric Hospital

Teaching and research centre identified with the University of Toronto, serving the city of Toronto.

The adult out-patient service is located at 241 Elizabeth Street.

The children's out-patient service, including the retarded children's unit, is located at 34 Grosvenor Street.

The day-care centre is located at 338 Elizabeth Street.

The forensic clinic is located at 863 Bay Street.

WHITBY*—Ontario Hospital

Regional hospital for mentally ill, serving the counties of Durham, Ontario, York and Victoria.

The out-patient service is located at the hospital.

WOODSTOCK*—Ontario Hospital

Chest diseases division, serving the total province.

Epileptic division, serving the total province.

The out-patient and day-care centre is located at the hospital.

*—Out-patient service.

INDEPENDENTLY LOCATED OUT-PATIENT SERVICES

TORONTO—East York - Leaside—Mental Health Clinic and Day-Care Centre, serving the Township of East York and the Town of Leaside, located at 833 Coxwell Avenue.

WINDSOR—Mental Health Clinic, located at 267 Bridge Avenue.

SERVICES PROVIDED BY LOCAL ADMINISTRATIVE AUTHORITY

PRIVATE MENTAL HOSPITALS AND SANATORIA

BRANTFORD—Brant Sanatorium
Unit for severely handicapped and retarded children.

GUELPH—Homewood Sanatorium
Hospital for mentally ill.

KINGSTON—Institute of Psychotherapy
Hospital for mentally ill.

PLAINFIELD—Ontario Homes for Mentally Retarded Infants
Home for mentally retarded infants and young children.

TORONTO—Dalmaney Hospital
Hospital for mentally ill.

TORONTO—Sunnyside Hospital
Hospital for mentally ill.

VINELAND—Bethesda Hospital
Hospital for mentally ill.

WATERLOO—Sunbeam Home
Home for retarded infants and young children.

WILLOWDALE—Willowdale Hospital
Hospital for alcoholism and drug addiction.

COMMUNITY PSYCHIATRIC HOSPITALS

OTTAWA*—Royal Ottawa Sanatorium, Carling Avenue
Community Psychiatric Hospital serving the Ottawa region.
The out-patient service and day-care centres for adults and children are located at the hospital.

*—Out-patient service.

SUDBURY*—Sudbury and Algoma Sanatorium
Community Psychiatric Hospital serving the District of Sudbury.
The out-patient and day-care centre is located at the hospital.

TORONTO*—Toronto Mental Health Clinic
Community Psychiatric Hospital providing out-patient and day-care
services for children and adolescents in the Toronto area.

WINDSOR*—Essex County Sanatorium, Prince Road
Community Psychiatric Hospital serving Windsor region.
The out-patient and day-care centre is located at the hospital.

PSYCHIATRIC SERVICES IN GENERAL HOSPITALS

BRAMPTON—Peel Memorial Hospital
Psychiatric unit.

BRANTFORD—Brantford General Hospital
Psychiatric unit.

CHATHAM*—Chatham General Hospital
Out-patient service.

HAMILTON—Hamilton General Hospital
Psychiatric unit.

KINGSTON*—Kingston General Hospital
Psychiatric unit.
Adult out-patient service.
Children's out-patient service.

KITCHENER*—Kitchener-Waterloo Hospital
Out-patient service

LONDON—St. Joseph's Hospital
Psychiatric unit.

LONDON*—Victoria Hospital
Psychiatric unit.
Adult out-patient service.
Children's out-patient service.

NEWMARKET*—York County Hospital
Psychiatric unit.
Out-patient service.

*—Out-patient service.

OTTAWA*—Ottawa Civic Hospital

Psychiatric unit.

Out-patient service.

OTTAWA*—Ottawa General Hospital

Psychiatric unit.

Adult out-patient service.

Children's out-patient service.

PETERBOROUGH*—Peterborough Civic Hospital

Psychiatric unit.

Out-patient service.

ST. CATHARINES*—St. Catharines General Hospital

Psychiatric unit.

Out-patient service.

SARNIA*—Sarnia General Hospital

Psychiatric unit.

Out-patient service.

SAULT STE. MARIE—General Hospital

Psychiatric unit.

SUDBURY*—Sudbury General Hospital

Psychiatric unit.

Out-patient service.

TORONTO*—Hospital for Sick Children

Out-patient service.

TORONTO*—New Mount Sinai Hospital

Out-patient service.

TORONTO—St. Joseph's Hospital

Psychiatric unit.

TORONTO—St. Michael's Hospital

Psychiatric unit.

TORONTO*—Toronto General Hospital

Out-patient service.

TORONTO—Wellesley Hospital

Psychiatric unit.

TORONTO—Western Hospital

Psychiatric unit.

*—Out-patient service.

TORONTO—Women's College Hospital
Psychiatric unit.

WELLAND*—Welland County General Hospital
Out-patient service located in Riverside Annex.

WINDSOR—Hotel Dieu Hospital
Psychiatric unit.

WINDSOR—Metropolitan General Hospital
Psychiatric unit.

*—Out-patient service.

PSYCHIATRIC OUT-PATIENT SERVICES

HAMILTON—Hamilton Mental Health Clinic, 74 Hughson St. South.
For children only.

OSHAWA—Oshawa Mental Health Clinic, 179 Simcoe St.

TORONTO—West End Crèche, 197 Euclid Avenue.
Day-care service for autistic children.

TORONTO—York Township Child and Adolescent Guidance Clinic,
2701 Eglinton Avenue West.
For children only.

TORONTO—Boys' Village Mental Health Clinic, 1651 Sheppard Ave.
(Downsview)

NURSING BRANCH

The responsibilities and functions of the Nursing Branch have changed during the past year. It no longer functions as the agent of the College of Nurses for carrying out responsibilities designated under The Nurses Act 1961-62. It has assumed a new function concerning the establishment of a consultative service in mental hospitals with special reference to training courses for auxiliary personnel.

The Branch conducts five departmental centres for training nursing assistants. These are located in Hamilton, Fort William, London, Sudbury, and in Toronto there are both day and evening courses offered. The academic requirement for these courses is Grade X.

The Nursing Branch administers the Bursary Programme for registered nurses enrolling in certificate and degree courses in nursing education.

PUBLIC HEALTH ADMINISTRATION BRANCH

HEALTH UNITS

In 1944, the Ontario Government made legislative provisions for the establishment of county health units — farsighted and progressive step which has proven its wisdom and worth. Provincial Department of Health assistance to health units includes information to interested groups and councils, help in organization and substantial financial aid.

A health unit is a union of urban and rural municipalities for the purpose of providing a more efficient sustained community health programme in the area. The programme is carried out by full-time qualified personnel. This union, by agreement between the interested participants, may consist of counties, districts, or groups of townships, together with their cities or separate towns. The Unit functions under the local authority of a Board of Health which appoints the Unit's personnel consisting of doctors, nurses, sanitary inspectors and clerical staff. Larger Units employ veterinarians, and some have consultants in public health education and public health dentists.

There are 37 Health Units in Ontario. Their services to the public include communicable disease control; tuberculosis and venereal disease prevention; maternal and infant hygiene; pre-school and school health services; sanitation, including the safeguarding of milk and water supplies, and the sanitary disposal of garbage and sewage; health education; mental health; and preventive dentistry.

NORTHERN ONTARIO PUBLIC HEALTH SERVICE

The Northern Ontario Public Health Service was established in 1962 to bring public health services to the many isolated communities and territorial districts which do not form part of a health unit. As in health units, our programmes are built mainly around general sanitation, immunization, and public health nursing.

Our inspectors enforce regulations under the Public Health Act relating to the environmental sanitation in the unorganized northern territory that is within our service area. They also have the added responsibility of the administration of the industrial camp regulations in unorganized territory, which are concerned with ensuring the provision of medical services for the workmen, as well as sanitation standards in the camps. Other activities include communicable disease investigation and monitoring of waters in the areas of uranium mines and nuclear power reactors, in co-operation with the Industrial Hygiene Branch.

At present, we have seven inspectors stationed throughout the north, one in each of the following places: Fort William, Geraldton, Kirkland Lake, North Bay, Sault Ste. Marie, Sudbury, Timmins, and the supervisor

in Toronto. We are fortunate to have a group of experienced inspectors who have well-established programmes, and who are able collectively to give complete geographical coverage to our entire service area.

Our Public Health Nursing programmes have continued to provide service to approximately 11,000 people in the unorganized areas surrounding North Bay and adjacent to Timmins. We are pleased to say that as of January 1st, 1965, nursing service has been started in our Sault Ste. Marie area, involving an additional 6,000 people.

Although the nursing activities are many and varied, most of their work revolves around the school, home visiting, and immunization clinics. The nursing aspect of our Northern Ontario Public Health Service is relatively new, and has evolved much more slowly than was hoped and anticipated, however, at the present time we have three full-time and one part-time Public Health Nurses serving approximately 17,000 people.

It is our ultimate goal to bring generalized public health services to those unorganized areas that cannot receive service from the existing health units. This has been attained in the field of sanitation, and we trust, in due course as staff becomes available to us, that the goal will be reached in respect to Public Health Nursing.

NUTRITION SERVICE

The nutrition consultation service of the Department of Health continues to be active in assisting local health agencies, education authorities and the general public in the many varied aspects of nutrition.

The preparation and revision of nutrition publications is a major part of the Service. These publications are distributed for professional and lay use and are available in adequate supply through the Department of Health or through the local official health agencies. The nutrition research programme carried out by this Service has expanded rapidly over the past few years and has assisted the local agencies in the carrying out of studies on food habits, particularly of the teenager, senior citizen and elementary school child.

PUBLIC HEALTH EDUCATION

The public health education section provides consultant services to health units and Branches of the Department. A qualified public health education specialist directs the activities of the section.

PUBLIC HEALTH NURSING BRANCH

Public Health nursing supervisors from the central office (Toronto) and the regional offices at London, North Bay and Ottawa make regular

visits to local health agencies for the purpose of discussing and assisting with the development of public health nursing programmes in relation to the needs of the people in each area. In addition visits are made in response to requests.

There were 1,254 qualified public health nurses employed by official health agencies in 1964.

To meet the greatly increased demand for public health services throughout the province in 1943-44 a bursary plan was set in motion to assist in the preparation of registered nurses for public health nursing, and the preparation of public health nurses who act in an administrative capacity. In any modern health service public health nurses form the largest professional group and many are needed if local health units are to be staffed. Nine hundred and thirty qualified members have been added to the group under the bursary plan.

Bulletins covering current matters of interest, new developments in public health and allied fields are prepared and distributed twice a year.

A major activity of the Branch is the continuous effort to help local agencies secure public health nurses whose qualifications meet the requirements of the regulations.

During the period since the Branch was established in 1944, 18 educational conferences, ranging from three days to two weeks in length, have been conducted under provincial leadership for the public health nurses of the province.

In co-operation with the six university schools of nursing in the province and local health agencies, field practice for students of Public Health is arranged each year.

The nursing service associated with the health examinations of applicants to the twelve teacher training colleges and summer schools is planned and supervised.

The expenditure for these services since the establishment of the Public Health Nursing Branch in 1944 has been \$1,029,804.00.

REHABILITATION BRANCH

The Rehabilitation Branch which was established in 1961 acts in a consultant capacity in all phases of social and vocational rehabilitation with official and voluntary agencies; provides direct services to patients and ex-patients of 11 tuberculosis sanatoria, 18 mental hospitals and 25 mental health clinics; maintains field service of 11 district rehabilitation offices; advises voluntary agencies in the organization and operation of rehabilitation councils at the community level.

The programme of this Branch has been designed to provide services at an in-hospital and post-hospital level in co-operation with various other professions involved in a total rehabilitation plan.

SOCIAL REHABILITATION:

Social Rehabilitation Services take the form of developing desirable social relationships at the community level. It also involves counselling of patients and ex-patients in every phase of their programme where it may be indicated that social problems are a deterring factor in the successful completion of an individual rehabilitation plan. Social assistance is also provided in the re-establishment to community living of patients of Residential Units located in ten Ontario Hospitals.

VOCATIONAL REHABILITATION:

Vocational Rehabilitation services involves assistance to the tuberculous and mentally ill through assessment; counselling; vocational training; developing sound work activities (including motivational projects in-hospital and other vocational rehabilitation activities initiated at a post hospital level in co-operation with service and voluntary associations); job selection (including employer education job placement and follow-up services over a three year period).

COMMUNITY REHABILITATION:

Rehabilitation Education:

A year-round programme of public education utilizing the various media of communications at the provincial and county level is conducted by this Branch. This programme is designed to foster and develop a greater understanding in the minds of the public and to impress upon the members of each community their responsibility in accepting and assisting the disabled.

Rehabilitation Councils:

This phase of this Branch's activities involves the co-ordination of agencies in the community presently providing rehabilitation assistance to the handicapped.

Assistance is provided to communities in organizing and developing Rehabilitation Councils and to date, six such co-ordinated groups have been established throughout Ontario.

INDUSTRIAL WORKSHOP PROGRAMME:

The Industrial Workshop Programme provides facilities at the hospital level in which patients are assessed and prepared on a social, vocational and employment basis for their return to community living. This programme incorporates many of the principles of a Sheltered Workshop and

also includes the main objective of a Half-way House facility, in that the overall purpose is to prepare a patient for gainful employment and to live outside the hospital with a minimum of supervision.

The "Pay Cheque Therapy" technique has been applied to this programme with considerable success. Sub-contracts are received from industries in the community and patients engaged in the workshop programme are paid for the work they complete.

All workshops are operated on a five hour day, five days a week, and in most cases accommodate from 30 to 50 patients.

To date, workshop programmes have been established in five Ontario Hospitals and plans are underway to develop additional units in the coming year.

FIELD SERVICES:

District Offices are located as follows:

- District No. 1 — 67 College St., Toronto, Ontario.
- District No. 2 — Ontario Hospital, Kingston, Ontario.
- District No. 3 — Beck Memorial Sanatorium, London, Ont.
- District No. 4 — Ontario Hospital, Port Arthur, Ontario.
- District No. 5 — Department of Health Building, Kitchener.
- District No. 6 — Ontario Hospital, Hamilton, Ontario.
- District No. 7 — Ontario Hospital, North Bay, Ontario.
- District No. 8 — Ontario Hospital, Whitby, Ontario.
- District No. 9 — Royal Ottawa Sanatorium, Ottawa, Ontario.
- District No. 10 — Sudbury-Algoma Sanatorium, Sudbury, Ont.
- District No. 11 — I.O.D.E. Community Psychiatric Hospital,
Windsor, Ontario.

TUBERCULOSIS PREVENTION BRANCH

Diagnostic Services

(a) District chest clinics are maintained in Belleville, Lindsay, North Bay, Ottawa and Timmins with sub offices in Sudbury, Sault Ste. Marie and Peterborough, the Branch also operates a stationary clinic at Kirkland Lake. The staff in each of these five district offices consists of a physician, x-ray technician and clerical help. They are supplied with a portable x-ray

machine and a station wagon. These units supervise clinics held in the local hospitals where no x-ray equipment is available and conduct clinics in other centres where no x-ray equipment exists.

(b) As indicated new clinics are organized by the central office to be served by the nearest district chest clinic.

(c) Public hospitals in the province through the efforts of the Branch carry out a programme of obtaining chest films on all patients admitted.

(d) Many of the larger cities have instituted a pre-employment chest x-ray programme largely through the efforts of the central office staff.

(e) Employees in certain occupations with a relatively high risk of exposure such as hospital employees are covered by Workmen's Compensation.

(f) In 1956 a programme whereby jail prisoners were x-rayed was instituted and is now in operation in 46 municipal, district and county jails in the province. 29 of the larger jails have been supplied with x-ray units and in the 17 smaller jails prisoners are tuberculin tested, positive reactors being taken to the nearest hospital for a chest x-ray. The 10 training schools are also covered. During 1963, 27,319 prisoners were x-rayed and 46 recommended for sanatorium. This represents 1 prisoner in 594 x-rayed.

(g) Arrangements have been made to take an x-ray film of the chest on residents of homes for the aged at the time of admission in all centres. Special tuberculosis case finding programmes also have developed for certain groups such as wards of children and aid societies and foster parents, recipients of public assistance, school board employees and food handlers.

(h) National Health Grant funds are used to provide a special x-ray service operated by Fort William Sanatorium for bush-camp workers in the district of Kenora, Rainy River and Thunder Bay. A similar service is provided in the districts of Nipissing, Algoma, Timiskaming and Cochrane, operated by the Branch Chest Clinic Unit in North Bay.

(i) A National Health Grant for Tuberculosis became available in 1948. The amount available for tuberculosis 1964-1965 was \$804,577.00. This fund will provide assistance for 28 projects, subdivided into 4 research projects, 11 sanatorium assistance projects and 13 public health projects related to tuberculosis control. Over 50% of the total grant is devoted to various tuberculosis case-finding activities.

Mass Surveys

The Branch operates five mobile and 1 portable x-ray unit capable of taking miniature films; these machines are kept constantly in operation

throughout the province. A tuberculin testing programme previously instituted in conjunction with mass x-ray surveys now forms an integral part of such surveys. This programme has served a useful function in pointing up areas where more intensive diagnostic programmes should be carried out.

Treatment

(a) The Provincial Department of Health pays 100% of the maintenance costs of those patients in sanatorium not paid for by the Workmen's Compensation Board, Indian Health Services, Department of Veterans' Affairs, or other agencies.

(b) The Branch has, through Federal Health Grants, distributed anti-tuberculosis drugs to sanatoria and chest clinics since 1948.

Post Sanatorium Care

This with few exceptions is now administered by the Department of Welfare.

Immunization and Tuberculin Skin Test

B.C.G. vaccine for immunization purposes and tuberculin solution used in testing for the presence or otherwise of tuberculous infection are made available to all physicians, hospitals and chest clinics in Ontario free of charge.

THE HOMES FOR SPECIAL CARE PROGRAMME

The Homes for Special Care Programme is now under way in Ontario. The object of the Programme is to relieve Ontario Hospitals of the large number of patients no longer requiring active psychiatric treatment, but who might be managed in the community in suitable accommodations.

The programme is being developed on a two-phase basis. Attention is being drawn in the first instance to the infirm, elderly type of patients who require some type of nursing care. The second phase involves the ambulatory, mentally handicapped person who can be managed in a suitable boarding home atmosphere.

Already a sizeable number of patients have been discharged from Ontario Hospitals and placed in suitable nursing homes. Over sixty private nursing homes already have been licensed according to the Tuberculosis Prevention Branch Director, under whose office the programme is being developed in its initial stages.

HOSPITAL SERVICES COMMISSION OF ONTARIO

The Ontario Hospital Services Commission was established in April 1956 by an Act of the Government of Ontario. The Commission is composed of from three to seven members, one of whom is designated Chairman. The Commission reports to the Legislature through the Minister of Health.

The Commission is responsible for administering the Ontario Hospital Services Commission Act, the Public Hospitals Act and the Private Hospitals Act.

Since January 1, 1959, the Commission has conducted a Hospital Insurance Plan for the residents of Ontario. It is also responsible for the development of a balanced and integrated system of hospitals and related health facilities across the Province. The Commission, however, does not build, own or operate hospitals.

The Hospital Insurance Plan currently provides insurance coverage for some 6.5 million residents of Ontario, or approximately 99% of the population of the Province. At December 31, 1964, the number of hospital beds approved for Insurance Plan purposes in the Province totalled 44,594. (This latter figure does not include beds available in tuberculosis sanatoria or hospitals or institutions for the mentally ill.) The cost of the Plan is met in part by the payment of premiums by insured residents, and the remainder from Federal and Provincial Government contributions. The Province and the Federal Government also make substantial financial grants towards the capital cost of hospital construction and renovation programmes upon suitable recommendation by the Commission. These programmes have shown an unprecedented expansion since the inception of the Plan.

ALCOHOLISM AND DRUG ADDICTION RESEARCH FOUNDATION OF ONTARIO

Established by an Act of the Government of Ontario in 1949, this official agency of the Province operates on an annual grant and reports to the Legislature through the Minister of Health.

The Foundation's purpose is to initiate, conduct, and promote programmes of research, treatment, rehabilitation, and education designed to reduce the prevalence of addiction problems in Ontario. During its first decade, these operations of the foundation were concentrated on the problem of alcohol addiction; but latterly they have been extended to embrace the broader field of addiction to various drugs, including narcotics, barbituates, etc.

A continuing research programme on addiction problems is carried on in various centres both by the Foundation's staff and by grantees in various universities and hospitals. The Foundation also conducts continuing programmes of public information designed to prevent addictions or to encourage recognition of such problems while they are still treatable. Training in treatment techniques is provided for medical and other professional persons potentially able to help alcoholics and other addicts.

These research and education activities as well as the Foundation's treatment services are carried on through a network of regional branches currently headquartered at Toronto, Hamilton, London, Windsor, Ottawa, Sudbury and the Lakehead. Treatment services include:

- i An in-patient hospital at Toronto;
- ii A specialized unit within a mental hospital at Kingston;
- iii Seven out-patient clinics, of which one, the Toronto Central out-patient clinic, includes specialized staff working with narcotic addiction patients; most other staff are primarily concerned with alcoholics.

DEPARTMENT OF HIGHWAYS

Minister: THE HONOURABLE CHARLES S. MACNAUGHTON

The Department of Highways is responsible for the planning, construction and maintenance of all King's Highways and secondary highways throughout the Province and for the enforcement and statutes and regulations with respect to them.

The Minister responsible for the Department is assisted by a Deputy Minister who acts as his adviser in matters of policy and administration. Under the Deputy Minister, an Assistant Deputy Minister for Engineering and an Assistant Deputy Minister for Administration co-ordinate the various engineering and administrative functions within the Department.

ADMINISTRATION OFFICES

All the Department of Highways administration offices are located adjacent to Highway 401 at Keele Street, Downsview.

The telephone number for the Downsview offices is 363-1211. In 1961, the latest innovation in telephone communication—the Direct-Inward-Dialing system—went into operation at the Administration Offices. Under this new system any branch of the Department's head office may be contacted directly by simply dialing the exchange code "248" and then the local number. As an example, the winter road reporting service local number is 3561; to dial direct from the outside for this office you would simply call 248-3561.

It is possible to make special arrangements for transportation from Queen's Park to Downsview for those persons with appointments from out of town. If this service is required, it is necessary to indicate the fact when making arrangements for an appointment.

The correct mailing address is: Department of Highways, Ontario, Downsview, Ontario.

OPERATIONS BRANCH

This Branch administers the construction and maintenance of King's Highways and Secondary Roads in Ontario through the Divisions listed below and through eighteen District Offices located throughout the Province.

I. Construction Division: Provide guidance and technical advice to District Engineers during construction. Investigates and tests soil conditions and material resources, and administers the information obtained.

Administers and checks all documents and field data for the calling of tenders, awarding of contracts, progress payments and completed contracts.

II. Maintenance Division: Provides technical guidance and advice to the Districts on regular summer and winter maintenance of all highways and on such specialized services as bridge inspection, landscaping, highway lighting, safety devices.

III. Municipal Roads Division: Administers the Highway Improvement Act with respect to county and township roads and urban municipalities. Supervises the construction and development of roads in sparsely settled areas.

PLANNING BRANCH

This branch provides long-term programming of future highway construction based on traffic and economic studies; the location of planned highways in the field and the maintenance of all plans and priorities.

DESIGN BRANCH

This branch designs all highways and structures according to needs and carries out the pre-engineering field work required.

RESEARCH BRANCH

This branch carries out research into highway engineering problems facing the Department of Highways and the Municipal authorities throughout the Province and administers the Ontario Joint Highway Research Programme.

SERVICES BRANCH

This Branch administers purchase, sale and rental of all Department properties; performs land surveys and prepares necessary plans for the acquisition or disposal of land, assumption, reversion, designation and closing of highways; administers the purchase of all Department materials and overall control of District stores of maintenance and construction materials; establishes practices in respect to purchase and maintenance of all Department vehicles and equipment; establishes practices for filing and mailing service in the Department; procures and distributes all office furniture, equipment and supplies, supervises the allocation of office space and building requirements of the Department; administers all tendering procedures within the Department.

FINANCIAL COMPTROLLER'S BRANCH

This Branch performs the service of processing payments to contractors, invoices, payrolls, etc., together with the necessary accounting.

The internal auditing of financial and non-engineering matters comes under this Branch's direction. From information submitted by all Branches, this Branch prepares and controls the Department's budget. Administers the qualification of contractors bidding on Department contracts. Studies existing office routines, developing and improving systems for other Branches. Provides financial and statistical information for other Branches and other Government Departments.

PERSONNEL BRANCH

This Branch administers the selection and engagement of personnel, staff movements, salaries and personnel records.

Provides guidance and advice on staff placement, performance, appraisals, training and organization.

LEGAL BRANCH

This branch is responsible for departmental legal matters with a legal director in charge. Attached to this branch is the Insurance and Claims Section.

DEPARTMENT OF LABOUR

Minister: THE HONOURABLE H. L. ROWNTREE, Q.C.

The Department of Labour is a service department of the Government of Ontario. Its chief duties are administration of statutes and regulations involving safety in industry, collective bargaining and generally such Acts as have been provided for the economic protection of workers.

The Minister responsible for the Department is assisted by a Deputy Minister and by an Assistant Deputy Minister.

MAIN OFFICE DIVISIONS

PERSONNEL

PERSONNEL: Responsible for selection, placement, and appointments of staff. Screens applications for employment and interviews applicants. Handles matters relating to classification and salaries of staff.

Maintains permanent departmental records on staff.

Acts as liaison officer with Department of Civil Service.

CHIEF ACCOUNTANT

BUDGETARY CONTROL: Prepares annual estimates of Department. Reviews expenditure requirements of each branch against estimates.

ACCOUNTING: Checks and prepares for payment by Treasury Department accounts payable. Verifies monthly with Treasury Department payment of accounts. Redeems vacation-with-pay credit stamps. Incorporates cashier's monthly totals into records. Prepares pay-rolls, calculating group insurance, income tax, superannuation, medical services, and attendance records, statements on finances of Department as required and claims under agreements made with Government of Canada.

CHIEF CASHIER

ACCOUNTING: Accounts for all revenue. Deposits with Treasury Department all money collected.

SUPERVISION: Supervises and records sale of vacation-with-pay stamp books, engineering text-books, and other publications. Records statements from Province of Ontario savings offices and chartered banks of vacation-with-pay credit stamps sold and not sold. Balances monthly with the office of the Provincial Auditor current stocks of stamps held by Treasury Department.

MAIL: Collects and sends outgoing mail. Distributes incoming mail. Supervises messenger service for Department.

SERVICE: Issues receipts to remitters of money by mail and over counter.

DIRECTOR OF SAFETY AND TECHNICAL SERVICES

SUPERVISION: Supervises the administration of the six technical branches of the Department to co-ordinate their activities. Directs and advises on matters relating to their operation and development.

INVESTIGATION: Investigates factors relating to technical legislation to raise standards of industrial safety, health and welfare. Confers with persons concerned with these matters.

RESEARCH BRANCH

Does Research to assist the Department in carrying on its current activities, formulating new programmes and legislation and supplying information to employers, employees and the public. Studies are concerned with questions in the areas of labour relations, industrial training, working conditions, and other matters having to do with manpower in the Province. In addition to its research programme, the Branch will assist in compiling statistics on the activities of the Department.

LIBRARY

CATALOGUING: Classifies, catalogues, and indexes newspapers, magazines, documents, records, and any other publication on labour legislation and related subjects received by Department.

SERVICE: Extends library service relative to labour publications to other government departments and to public. Compiles daily file on current labour situation outlined by press.

OFFICE, THE EMPLOYMENT AGENCIES ACT

LICENCES: Issues licences to persons to carry on employment agencies.

SUPERVISION: Regulates and controls the manner in which the business of employment agencies are carried on.

CONCILIATION SERVICES BRANCH

CONCILIATION AND MEDIATION: Conciliates and mediates all matters referred to the Department with respect to labour problems in industry within the control of the Ontario Legislature.

ARBITRATION: Arbitrates with the consent of the Minister matters in dispute between employers and employees as provided under union agreements.

INVESTIGATION: Investigates and reports on all labour matters coming within the scope of this division.

CONFERENCES: Conducts conferences under The Industrial Standards Act.

VOTES: Arranges votes and provides returning officers at the request of the parties concerned.

STOCKROOM

SUPPLIES: Liaison between Department and Queen's Printer Orders, records and distributes equipment, supplies, and printing, for all branches.

MAILING: Does all wrapping of vacation-with-pay stamp books and other material mailed from Department.

FORMS: Does all mimeograph work for Department.

BOARDS, BRANCHES AND COMMISSIONS

BOARD OF EXAMINERS OF OPERATING ENGINEERS

PERSONNEL: Composed of not less than three members appointed by the Lieutenant-Governor in Council, one of whom is designated as Chairman.

ADMINISTRATION: Administers The Operating Engineers Act and regulations.

EXAMINATIONS: Conducts examinations of applicants for certificates of qualification as operating engineers and operators. Recommends the issuance of certificates of qualification and provisional certificates of qualification.

CERTIFICATES OF QUALIFICATION: Fourteen classifications of certificates of qualification issued, renewable on January 1 of each year.

REGISTRATION OF PLANTS: Registers plants defined under the Act, and recommends the issuance of certificates of registration to the owners of plants.

INSPECTION: Inspects plants to ascertain compliance with the Act and regulations.

TEXT-BOOK: Edits and publishes for sale engineering text-books.

LABOUR STANDARDS BRANCH

PERSONNEL: Director and Industry and Labour Board.

ADMINISTRATION: Administers The Hours of Work and Vacations with Pay Act, The Industrial Standards Act, The Minimum Wage Act, and Fair Wage Schedule For Government Contracts.

THE HOURS OF WORK AND VACATIONS WITH PAY ACT

HOURS OF WORK: Provides working hours of an employee in any industrial undertaking not to exceed 48 hours a week. An employer may, with the approval of the Industry and Labour Board, provide for working hours of his employees in excess of 48 hours a week within specified limits.

VACATIONS WITH PAY: Provides every employee in an industrial undertaking to be given a vacation of at least one week with pay for each working year of his employment. An employee not completing a year of employment receives vacation-with-pay credit in the form of stamps equivalent in value to two per centum of his total earnings but, with the exception of an employee engaged in the construction industry, the employee resigning must complete 3 months of employment prior to resignation before being eligible for vacation-with-pay credit.

EXEMPTIONS: Exempts by regulations from provisions of Act and regulations certain persons engaged in specified trades and professions.

INSPECTION: Authorizes inspection and examination by the Board or any member thereof of books, pay-rolls, and any other records, of an employer where provisions of the Act are alleged to have been violated.

INQUIRIES: Provides for the Board to inquire into any partnership, association or scheme it is of the opinion is designed to defeat the purpose of the Act.

THE INDUSTRIAL STANDARDS ACT

CONFERENCES: Provides for conferences of employers and employees in any industry within a designated zone or zones to be convened by an Industrial Standards Officer to investigate and consider the conditions of labour and the practices prevailing in the industry. The conference may submit to the Minister of Labour in writing for his approval a schedule of wages and hours and days of labour for the industry affected. Upon the recommendation of the Minister, the Lieutenant-Governor in Council may declare the schedule to be in force during pleasure or for a period not exceeding 12 months.

INDUSTRIAL STANDARDS OFFICERS: Provides for appointment of Industrial Standards Officers to assist in carrying out the provisions of the Act, regulations, and schedules, and to conduct inquiries and investigations respecting matters coming within the scope of the Act and regulations.

ADVISORY COMMITTEES: Provides for establishment of an advisory committee for every zone or group of zones to which a schedule applies to assist in carrying out the provisions of the Act.

THE MINIMUM WAGE ACT

To guard Ontario wage earners against exploitation, a new Minimum Wage Programme, launched in 1963, sets a basic floor for wage rates.

FAIR WAGE SCHEDULES FOR GOVERNMENT CONTRACTS

This Act guarantees the payment of fair wages to persons employed by contractors in the construction of buildings and related projects for the Ontario Government in all parts of the province.

INDUSTRIAL TRAINING BRANCH

ADMINISTRATION: Gives assistance to Industry to provide on-the-job training programmes for the development of skilled workers.

Administers the Apprenticeship and Tradesmen's Qualification Act, 1964, which establishes Apprenticeship training programmes leading up to Certificates of Qualification in designated trades. Provides Apprenticeship programmes in most non-designated trades. Licenses trade schools concerned with training persons in Barbering and Hairdressing Trades.

ONTARIO HUMAN RIGHTS COMMISSION

PERSONNEL: Composed of three or more members appointed by the Lieutenant-Governor in Council, one of whom is designated as chairman. Director of the Commission appointed by the Lieutenant-Governor in Council.

FUNCTION: Administers The Ontario Human Rights Code, 1961-62 and (a) forwards the principle that every person is free and equal in dignity and rights without regard to race, creed, colour, nationality, ancestry or place of origin; (b) promotes an understanding of, acceptance of and compliance with the Code; (c) develops and conducts educational programmes designed to eliminate discriminatory practices related to race, creed, colour, nationality, ancestry or place of origin.

COMPLAINTS: Inquiries into complaints of discrimination against persons or classes of persons because of their race, creed, colour, nationality, ancestry or place of origin in respect of (a) the publication or display of notices, signs, etc.; (b) accommodation, services or facilities in public places; (c) occupancy in apartment buildings of more than three self-contained dwelling units; (d) employment practices, membership in trade unions and employment applications and advertisements. Inquiries into complaints of discrimination against female employees because of their sex in respect of their remuneration.

ONTARIO LABOUR RELATIONS BOARD

PERSONNEL: Consists of a chairman, vice-chairman, four deputy vice-chairmen, and eight other members who are equally representative of employers and employees.

ADMINISTRATION: Administers The Labour Relations Act with respect to (a) certification of bargaining agents, (b) termination of bargaining rights of bargaining agents, (c) granting of requests for conciliation services, (d) declarations as to successor status, (e) consent to prosecute for alleged violations of the Act, (f) declarations that strikes or lock-outs are unlawful, (g) trusteeship over local unions, (h) complaints of discrimination in employment because of union activity, (i) review of decisions of jurisdictional disputes commissions, and (j) complaints concerning failure of trade unions, upon request, to furnish to their members copies of financial statements, among other matters.

BOILER INSPECTION BRANCH

INSPECTORS: Appointment by the Lieutenant-Governor in Council of inspectors to inspect boilers, pressure vessels, and plants, under The Boilers and Pressure Vessels Act, one of whom is designated the Chief Inspector. An inspector holds a certificate of competency. The inspectors are appointed by the Lieutenant-Governor in Council to carry out inspections also under The Operating Engineers Act.

ADMINISTRATION: Administers The Boiler and Pressure Vessels Act and regulations.

INSPECTION: Inspects boilers and pressure vessels during their construction and installation, repair, and alteration. Inspection of used boilers and pressure vessels before they are put in operation. Inspection at least once annually of uninsured boilers and pressure vessels in operation, and inspection of the installation of plants.

Also inspects under The Operating Engineers Act with respect to plant registration and the certification of operating engineers and operators.

CONSTRUCTION SAFETY BRANCH

INSPECTORS: Appointment by The Lieutenant-Governor in Council of inspectors to make inspections for enforcing the provisions of The Construction Safety Act, 1961-62 and The Trench Excavators' Protection Act in territory without municipal organization.

ADMINISTRATION: Administers The Construction Safety Act, 1961-62 and The Trench Excavators' Protection Act.

INSPECTION: In territory without municipal organization, inspects buildings being constructed or demolished and investigates accidents on these buildings, and inspects trenches being excavated.

When requested, advises municipal officials in selection of suitable persons for appointment as municipal inspectors and instructs and advises municipal inspectors in carrying out their duties under the two Acts.

ELEVATOR INSPECTION BRANCH

INSPECTORS: Appointment by the Lieutenant-Governor in Council of a chief inspector and one or more inspectors to make inspections of elevators, dumb-waiters, escalators, manlifts, incline lifts, and construction hoists. An inspector appointed under The Elevators and Lifts Act holds a certificate of competency.

ADMINISTRATION: Administers The Elevators and Lifts Act and regulations and The Construction Hoists Act, 1960-61 and regulations.

INSPECTION: Elevators and lifts are inspected by an elevator inspector of the Department or by a representative of an insurer during construction, installation, or repair, and annually during service. Construction hoists are inspected after installation or repair, and semi-annually during operation.

Investigates accidents relating to elevators and lifts and construction hoists.

APPROVAL OF DRAWINGS AND SPECIFICATIONS: Drawings and specifications of proposed new installations or major alterations of elevators and lifts and of installations or major alterations of workmen's hoists are submitted for approval by an engineer of the Department.

LICENCES: Issues licences for the operation of elevators and lifts and construction hoists. Licences renewed annually.

REGISTRATION: Registers annually contractors concerned with elevators and lifts.

INDUSTRIAL SAFETY BRANCH

ENGINEERS: Appointment by the Lieutenant-Governor in Council of professional engineers and engineers' assistants.

BUILDINGS: Examines drawings and specifications of industrial or commercial buildings to be constructed, reconstructed, or altered. Inspects on request, premises to be occupied for industrial or commercial purposes, and advises of their suitability and safety for occupancy and of any alterations or installations required.

SERVICE: Prepares engineering data sheets on safety matters for guidance of departmental inspectors and other interested persons. Serves on committees formed to bring about improvements in safety standards prescribed for industry. Provides information on industrial and commercial building requirements. Investigates causes of major industrial accidents and explosions.

INSPECTORS: Appointment by the Lieutenant-Governor in Council of inspectors for enforcing the provisions of the Industrial Safety Act (1964).

ADMINISTRATION: Administers the Industrial Safety Act (1964). Enforces regulations respecting protection of persons working in industrial establishments.

INSPECTION: Inspects factories, shops, and office buildings in Ontario in respect to the safety, health and welfare of employees. Supplies inspection service to other branches of Department as required in respect of statutes under their jurisdiction.

INVESTIGATION: Investigates industrial accidents and occupational diseases and complaints of working conditions, sanitation, guarding of machinery, exits, etc. Analyzes causes of accidents and diseases for future prevention.

CLASSIFICATION OF INDUSTRY: Classifies industry under standard grouping and registers factories by Certificate.

OFFICE OF THE ATHLETICS COMMISSIONER

ATHLETICS COMMISSIONER: Is the executive officer.

SUPERVISION: Supervises amateur and professional boxing and wrestling.

LICENCES: Issues licences with respect to amateur and professional boxing and wrestling, including licences to boxers, managers, and seconds, wrestlers and referees, and for holding of amateur and professional boxing and wrestling contests and exhibitions.

LABOUR SAFETY COUNCIL OF ONTARIO

PERSONNEL: Consists of three or more persons as the Lieutenant-Governor in Council determines, one of whom is designated as chairman.

FUNCTION: Upon the request of the Minister of Labour, (a) inquires into and advises him upon any matter respecting the safety of workers; and (b) without restricting the generality of the foregoing, inquires into and advises him upon any of the laws respecting the safety of workers

with a view to the improvement, clarification or extension of the existing laws or the enactment of new laws, or inquires into and advises him upon any matter designed to co-ordinate the functions of all bodies concerned with the safety of workers.

WORKMEN'S COMPENSATION BOARD

PERSONNEL: Is an independent Board consisting of a Chairman and two members. The Board is manned by medical, rehabilitation, claims and financial specialists and their staffs.

ADMINISTRATION: All administrative departments are located at the Head Office, 90 Harbour Street, Toronto. The prime responsibility of the Board in administering the Act, is to fairly adjudicate all claims for work injuries that arise out of employment, providing that the injured person is employed in a business or industry within Schedules 1 or 2 of the Act. There is no recourse to the courts, however, appeals are handled through a fair and impartial system established by the Board.

ACTIVITIES: In every compensable claim the injured person receives the best medical and hospital services available. When entitled the workman is paid compensation, which within certain limitations, continues until he is physically capable of returning to employment. Pensions are awarded in the event of permanent disability or death.

The necessary funds for these benefits are received from the employers who are assessed through a collective liability system.

The Board operates a 525-bed Hospital and Rehabilitation Centre in suburban Toronto. Here a dedicated staff of treatment specialists assist the more seriously injured to return to employment and society in the shortest possible time with minimum permanent disability.

District Offices are established in strategic areas of the Province. The staff of these offices provide assistance to employers, trade unions and the treatment professions. There is constant teletype communications with Head Office.

To conform to the provisions of the Mining Act, the Board maintains Silicosis Examining Stations in Northern Ontario.

DEPARTMENT OF LANDS AND FORESTS

Minister: THE HONOURABLE A. KELSO ROBERTS, Q.C.

The Department of Lands and Forests is charged with the administration of the renewable natural resources of the province including Crown lands, forests, fish and wildlife and the enforcement of the various Acts and regulations in connection therewith.

The administrative offices of the various branches, with two exceptions, are located in the second and third floors of the East Block, Parliament Buildings, and are as follows:

Deputy Minister	Room 2311
Assistant Deputy Minister	Room 2310
Director, Parks and Recreation	454 University Ave.

BRANCHES

ACCOUNTS

ACCOUNTING: Maintains complete accounting system for each branch.

COLLECTIONS: Collects all revenue.

PAYMENTS: Pays all expenditures.

LAND TAX: Administers Provincial Land Tax Act.

GENERAL: Prepares budget estimates, financial reports, staff pay rolls, data for public accounts, etc.

CONTROL OFFICE: Responsible for accountable warrant funds; items held in safe keeping; collateral securities; field office accounting; budget for main and field offices; receipts and disbursements.

ACCOUNTS RECEIVABLE: Maintains accounts owing the Department for: timber dues; ground rent; fire tax; land sales; rentals for leases; fees for licence of occupation; water power leases; provincial land tax; permit operations; accountable advances; fish and wildlife licences.

ISSUE OF: Fish and Wildlife Licences.

FISH AND WILDLIFE

GENERAL: Responsible for fish and wildlife management throughout the Province.

FISHERIES SECTION: Supervision of fish hatcheries and distribution of stock; recommendations on season and other regulations; fish production statistics; fisheries surveys and management projects; issue of commercial fishing licences.

STUDIES: Provincial control and study of fish diseases and parasites biological investigation.

WILDLIFE AND ENFORCEMENT SECTION: Supervision over trapline management; inventories of game, game birds and fur-bearing animals; bird farms and distribution of stock; fur farmers and fur dealers; recommendations on seasons and bag limits; administration of the Game and Fishery Act and regulations, convictions, fines, recording and handling of seizures.

STUDIES: Prevention, control and study of animal disease; population studies; hunter success studies; studies conducted in co-operation with other agencies.

STATISTICS: Fur farm and fur dealer records; bounties; fish production statistics; game population survey records.

FOREST PROTECTION

PROTECTION SECTION

SUPERVISION: Responsible for forest fire protection; purchasing; maintenance and distribution of fire-fighting equipment and supplies; radio communication service; fire ranging staff; forest protection in relation to insect epidemics and fungus diseases.

CONTROL: Maintains records and plans of all improvements; fire statistics; townsite clearing and fire hazard disposal.

ADMINISTRATION: Classification and approval of forest protection accounts; compilation of district budgets; provision of fire-fighting personnel, equipment, supplies and transportation facilities including aircraft.

CO-OPERATION: Railway fire protection by arrangement with the Board of Transport Commissioners; forest insect and disease surveys in co-operation with Canada Department of Industry; co-operation fire prevention and suppression arrangements with organized municipalities, woods operators, tourist camp operators and other forest users.

AIR SERVICE SECTION

CONTROL: Responsible for purchase and improvement of suitable aircraft.

SUPERVISION: Responsible for supervision of pilots, engineers and maintenance staff to assure that all flying requisitions are met as flying conditions permit.

MAINTENANCE: Responsible for maintaining aircraft in airworthy condition.

FLYING: Takes care of all Departmental requirements; special flying requirements of other Provincial Departments; handles emergency flying such as mercy flights, as requisitioned by authorized officers of the Department.

LANDS AND SURVEYS

LANDS SECTION

Administration of the public lands. Disposition of land by sale, lease, licence of occupation or land use permit, for farming, private summer cottages, hunting and fishing camps, commercial summer resorts, private and commercial highway locations, private, commercial, industrial and municipal water lots.

SURVEYS SECTION

Instructions for Crown and Municipal Surveys; inspection and recording of Ontario Land Surveyor's returns for surveys of public lands. Surveys and descriptions of provincial boundaries and parks, lands for summer resort and recreational purposes, lands for acquisition or disposition by the Department. Retracement surveys and restoration of original Crown survey points, Base and Meridian lines.

Custody of original plans and field notes of Crown and Municipal surveys and sale of reproductions. Prepares, compiles, publishes and distributes copies of planimetric maps and plans. Authorizes geographical names in conjunction with the Canadian Permanent Committee on Geographical Names. Distributes copies of departmental publications, and lithographed map sheets of the National Topographic Series as published by the Federal Department of Mines and Technical Surveys.

ENGINEERING SECTION

Approval of dams. Licences of occupation for dams, flooding and diversions. Water resource management. Issuance and servicing of Water Power Lease Agreements. Prepares plans for buildings and hatcheries, renovation of plant and equipment. Engineering consultations. Access Roads.

LAND USE PLANNING SECTION

Supervision of the preparation of Land Use plans. Wilderness Areas. Advisory Committee on Land Use Planning. Private Lands Liaison Committee.

LAND ACQUISITION SECTION

Prepares recommendations and applications for purchase of private lands for water access, hunting, fishing, forestry, recreation and other public uses.

OPERATIONS

OFFICE MANAGEMENT: In charge of all phases of purchasing, maintenance of supply and equipment; inventory records; uniform demand and supply controls; central filing registry and microfilming of permanent records; leased premises and space allocation; messenger service.

CENTRAL SUPPLY WAREHOUSE: Responsible for receiving and storage of supplies, equipment and uniforms; delivery to offices in Toronto area; and shipping to field offices.

CONSERVATION INFORMATION: Departmental advertisements and public appeals in all media. Editing, designing and production of Department publications. Weekly news releases and special press releases. Signs and posters. Supply of information to correspondents and special material to outside agencies. Production and supply of photos, mats and cuts to outside agencies. Production of 35 mm. slides for use by staff lecturers, writing of articles for publication on request.

CONSERVATION EDUCATION: Preparation and control of all Departmental exhibits. Production of 16 mm. motion pictures. Supply of films and projection equipment to districts. Supervision of lectures by staff to schools, camps, clubs and other groups. Radio and television talks.

ACCIDENT CONTROL SECTION

Responsible for the administration of The Logger Safety Act; Hunter Safety Training Programme; Workmen's Compensation (for Lands and Forests); and Department and Provincial Parks safety programmes.

PARKS

Responsible for the provision, operation and maintenance of provincial parks as public recreation lands with facilities necessary for uses in keeping with the park environments. Included are the compilation of a long-term provincial parks plan, the investigation of all areas having potential provincial park value, the recommendation to the Ontario Parks Integration Board of the suitability of areas for acquisition as provincial parks, the examination and reservation of Crown Lands as future provincial parklands and the establishment and operation of interpretive programmes, park museums, and exhibit centres to highlight significant provincial park features.

RESEARCH

ASSESSMENT: Assesses research needs of the Department.

CO-OPERATION: Secures co-operation with other research agencies.

DEPARTMENTAL RESEARCH: Develops research programmes in: Forestry: Silviculture, Site (soil, climate, vegetation), Tree Breeding, Reforestation, Wood Quality.

Fisheries: Great Lakes, Game Fish, Selective Breeding, Limnology, Parasitology, Age Determination.

Wildlife: Big Game, Furbearers, Upland Game and Waterfowl, Predators, Diseases and Parasites.

Mechanical Improvements: Develops equipment, instruments and processes to meet the special needs of the Department.

Statistics and Mensuration: Provides proper initial design of experiments and correct analysis of resulting data; also conducts forest mensuration studies (volume tables, cruising methods, growth and yield).

TIMBER BRANCH

RESPONSIBILITIES OF TIMBER BRANCH

1. Timber sales and Licences, measuring of timber cut, preparation of accounts for collection of stumpage charges, compiling of statistics.

2. Production of planting stock at tree nurseries. This includes acquisition, treatment, storage, distributing seeds, the establishment of seed production plots, and the distribution of nursery stock for planting.
3. Management on a sustained yield basis of the Forests of the Province, the preparation of the forest inventory and its continuous up-dating.

Preparation and analysis of operating and management plans covering Crown and Company management units. Directing cutting methods to promote natural regeneration and release cutting for standard improvement.

4. Supervision of reforestation on Crown land by tree planting and direct seeding and other means.
5. Extension Forestry which assists organizations and individuals interested in reforestation. Woodlot management and conservation.
6. Management and reforestation of demonstration forests, County and Municipal forests, Conservation Authority forests under agreement for management.
7. Planning and supervision of the construction of forest access roads to open up wood producing areas.
8. Licensing of sawmills, pulp and paper mills.
9. Registration and licensing of scalers.

LAW

Responsible for the legal work of the Department. This includes the preparation and drafting of legislation, regulations, orders-in-Council, timber licences, and other legal documents; the arbitration of claims; giving legal opinions as to the position of the Department in its various dealings; consulting with and advising the Head Office Division and District offices in the legal aspects of matters arising in the course of administration, and attending upon the public, other Government departments, and Crown organizations, in matters of a legal nature concerning the administration of the Department. The establishment includes the Patents Office.

PERSONNEL

Responsible for selection and placement, appointments, classification and training of staff; investigations; accident prevention; attendance records; workmen's compensation.

DEPARTMENT OF MINES

Minister: THE HONOURABLE G. C. WARDROPE

The Department of Mines is responsible for the administration and enforcement of the following statutes and regulations thereunder:

The Mining Act
The Mining Tax Act
The Beach Protection Act
The Damage by Fumes Arbitration Act
The Canada Company's Lands Act

ADMINISTRATION OFFICES

Located in the East Block, Parliament Buildings

MINING LANDS BRANCH

Director	Room 1308
----------------	-----------

FUNCTIONS OF THE DEPARTMENT

MAIN OFFICE

OFFICE OF THE DEPUTY MINISTER

FUNCTIONS: Overall administration of all phases of the Department.

PUBLIC RELATIONS BRANCH

FUNCTIONS: To keep the general public, and the mining industry in particular, fully aware of the work of the Department and how it assists the industry in the development of mining in Ontario.

PERSONNEL BRANCH

FUNCTIONS: The conducting of preliminary interviews of all candidates for positions in the Department of Mines in Toronto, the establishing of an effective personnel programme within the Department, the making of recommendations on proposed organization structures and advising on the descriptions of positions. The Director of the Personnel Branch is also responsible for advising the Deputy Minister and branch heads on effective personnel matters and interpretations of The Public Service Act and regulations.

ADMINISTRATIVE SERVICES BRANCH

FUNCTIONS: The operation of those services required by various branches of the Department which can be met more efficiently and economically as a central unit. It includes the following sections: printing, central filing, publications distribution and the stockroom. Departmental purchasing is another responsibility of this Branch as well as liaison with the Department of Public Works regarding space requirements and leased accommodation.

FINANCIAL ADMINISTRATION

FUNCTIONS: The supervision of the financial affairs of the Department; preparation and control of the annual budget; processing of accounts for payment together with the necessary general accounting; receiving and recording of all revenue for the Department; maintenance of accounting systems for each branch.

MINE ASSESSOR

FUNCTIONS: Responsibility for the administration of The Mining Tax Act.

OFFICE OF THE MINING COMMISSIONER

FUNCTIONS: The Commissioner hears and adjudicates upon all disputes affecting mining claims; grants extensions of time for the performance of working conditions and other requirements of The Mining Act; has authority to grant easements and confer rights, where required, for the proper working of a mine, over lands not owned by the mine owner; including the opening of ditches, draining, damming, and diverting of water, rights-of-way for tramways, roads and other means of transportation, transmission of electricity, disposition of tailings, etc. The Commissioner may vest the interest of a co-owner of mining lands who has failed to pay his proportionate share of rentals or taxes in the other co-owner or co-owners, who have paid the same.

GEOLOGICAL BRANCH

FUNCTIONS: The Geological Branch of the Department of Mines is concerned with mapping the geology of the province and in providing prospectors and the mining industry with geological maps and reports as an aid in the search for, and development of, its mineral resources.

MINES INSPECTION BRANCH

FUNCTIONS: The main function of this branch is the regular examination of all operating mines, quarries, gravel pits and metallurgical works in the enforcement of the detailed rules contained in Part IX of The Mining Act designed for the health and safety of all workmen employed in the industry.

The supervision of mine rescue stations is also the responsibility of this branch of the Department.

All statutory tests as required under The Mining Act are conducted in the Cable Testing Laboratory. In addition, extensive research testing is carried out in studying such factors as safe working life of hoisting ropes and the effects of continued service throughout all parts of the rope. Determination of the ultimate strength of such ropes are made along with examination of the test pieces for corrosion, fatigue, degree of lubrication, etc.

LABORATORY BRANCH

FUNCTIONS: The providing of laboratory services to aid in the discovery of new mineral deposits, and in the development of mines and related industries. Facilities are available to the mining industry and public at large. It also serves as the laboratory arm of the Geological Branch.

TEMISKAMING TESTING LABORATORY COBALT, ONTARIO

FUNCTIONS: This laboratory was established and is maintained mainly to provide sampling and marketing service for the complex silver-cobalt ores of the Cobalt, South Lorrain and Gowganda areas, but its usefulness is by no means confined solely to ores of this character, and gold or other ores can be, and are, handled from time to time with equal satisfaction.

In conjunction with the bulk sampling plant, a fully equipped chemical and assay laboratory is maintained wherein all usual determinations on ores or metallurgical products are carried out.

Another function of the laboratory is the purchase of quantities of gold ore from small producers to make funds readily available to such producers as an assistance in the development of their properties. Such small lots are accumulated until shipment to a smelter in car load quantity is possible, at which time the laboratory is reimbursed for its outlay in the acquisition of the ores through such sale to the smelter.

SULPHUR FUMES ARBITRATOR

FUNCTIONS: Administration of The Damage by Fumes Arbitration Act. This Act facilitates the settlement of claims for damage to vegetation resulting from the emission of sulphur dioxide from smelting operations or from the treatment of sulphides for the production of sulphur or sulphuric acid.

MINING LANDS BRANCH

FUNCTIONS: General administration of mining lands and the laws governing prospecting; control of sand and gravel removals on Crown Lands and from the beds and beaches of lakes and rivers, including the inspection of shore erosion in relation to removals; supervision of oil and gas rights on Crown Lands and in Crown waters; the preparation of legislation; the preparation of patents and other instruments of title to mining lands; the preparation of claim maps; the examination and approval of claim surveys and the preparation of legal descriptions of land; the keeping of rolls of forfeitures of such lands for arrears. The legislation involved is The Mining Act (with the exception of Part IX), The Beach Protection Act, The Canada Company's Lands Act and Section 66 of The Public Lands Act.

DEPARTMENT OF MUNICIPAL AFFAIRS

Minister: THE HONOURABLE J. WILFRID SPOONER

The Department of Municipal Affairs, organized in 1934, functions primarily to administer the system of municipal institutions of Ontario.

The Minister presiding over the Department deals with matters of government and departmental policy. A Deputy Minister assists the Minister in matters of general administration.

BRANCHES

MUNICIPAL ORGANIZATION AND ADMINISTRATION

Municipal Administration: The Department has certain duties and responsibilities under The Department of Municipal Affairs Act in respect, particularly, to newly created municipalities known as Improvement Districts, and to municipalities which, for financial and other reasons, may be placed in the Department's charge.

The Branch, with the technical assistance of other Branches and Departments, aims at the establishment or restoration of sound municipal government.

Departmental Approvals: There are a number of activities of all municipal councils, local boards, etc., which, under various Acts of the Legislature, require Departmental approval. Submissions for approval in these matters are processed, in the main, by this Branch.

Municipalities which have been designated in the Regulations under The Assessment Act as "mining municipalities" are required to obtain the Department's approval to the annual estimates, tax levies, long-term borrowing, disposition of assets, licensing, etc.

The Branch processes these approvals as well as the Mining Revenue Payment for such municipalities.

Service: The Department of Municipal Affairs is entrusted with the administration of the majority of Provincial Statutes relating to municipal matters with the result that virtually every phase of municipal administration is referred to this Branch from time to time by both elected and appointed municipal officials for advice and guidance.

In addition, the Branch is engaged in the investigation, study and analysis of matters relating to municipal organizations, status, boundaries and functions.

MUNICIPAL FINANCE

This Branch undertakes studies of the trends of municipal debts, revenues and expenditures. Similar studies are made of the adequacy of

the provincial subsidy programme, the incidence of realty and business tax, and methods for debt control and financial planning. The results of these studies are used by the Government, the Department, the Ontario Municipal Board and the Municipalities and Local Boards of Ontario.

This Branch develops methods and procedures to be used in the preparation of current estimates, cash flow forecasts and capital budgets and co-operates with municipal officials in the development and presentation of these documents as tools for financial management.

The approval of pension plans for municipal employees under the Municipal Act and liaison with the Ontario Municipal Employees Retirement System are the responsibility of the Branch.

The statistical section of this Branch prepares a summary of the annual financial statements of the municipalities of Ontario, prepares a municipal directory and collects and compiles municipal financial statistics.

MUNICIPAL SUBSIDIES

The responsibility of the Municipal Subsidies Branch is to administer loan, shared cost and subsidy programmes which come under the jurisdiction of the Department of Municipal Affairs. These duties are as follows:

- representing the Department in dealing with the federal and provincial departments or agencies and officials of the municipalities in the province.
- preparing internal procedures, instructional material, forms and records in connection with the programmes.
- providing information and advice to federal, provincial and municipal officials on all aspects of the programmes available to the municipalities.

The programmes administered by this Branch are as follows:

- (i) Municipal Works Assistance Programme
- (ii) Centennial Grants Programme
- (iii) Winter Works Incentive Programme
- (iv) Payments under The Drainage Act
- (v) Payments under The Municipal Unconditional Grants Act:
 - a. Per Capita Grants
 - b. Grants for Indigent Hospitalization
 - c. Payments for Administration of Justice re Indian Reserves

- (vi) Payments under The Police Act
- (vii) Payments under The Fire Departments Act
- (viii) Payments in Lieu of Certain Municipal Taxes
- (ix) Redevelopment Grants
- (x) Fox Bounties
- (xi) Grants to Counties in respect of Assessors

MUNICIPAL ACCOUNTING

This Branch is responsible for promoting, prescribing and exercising leadership in the areas of municipal accounting, financial reporting, financial statement presentation and municipal auditing in Ontario.

Some of the specific projects and services of this Branch are as follows:

- promoting the use by municipalities of accepted principles of municipal accounting and advising and guiding municipal personnel in the improvement of accounting systems and in the discharge of their accounting duties;
- reviewing the annual audited financial statements of the municipalities and local boards in Ontario and discussing any illegalities, irregularities or unsatisfactory financial conditions with municipal officials and the auditor;
- prescribing the methods for reporting assets and liabilities and revenues and expenditures of municipalities;
- prescribing the methods and standards of municipal auditing for use by municipal auditors licensed by this Department and advising municipalities on the method of appointment of auditors;
- conducting special investigation from time to time into the financial affairs of municipalities.

MUNICIPAL ASSESSMENT

Service: The primary function of this Branch is to provide advice on assessment procedures to municipal councils and to local and county assessors where requested. Detailed instruction is given on the use of the Manual of Assessment Values compiled by the Department of Municipal Affairs.

This Branch provides a valuation of all government property on which grants are paid under The Municipal Tax Assistance Act. It also provides a valuation on Hydro-Electric Power Commission of Ontario property within the scope of The Power Commission Act. The Branch also processes all assessment notices and claims for payments on properties owned by the government and assessed by the municipalities under the provisions of Section 34 of The Assessment Act.

Equalization: Equalization of assessment between the municipalities in the districts of northern Ontario is carried out by personnel in this Branch for the purpose of apportioning Home for the Aged costs and to provide an equalization factor used in determining the amount of mining revenue payable to designated mining municipalities. In addition, the Branch determines equalization factors for all municipalities in Ontario, which factor is used in apportioning educational and other grants.

ACCOUNTS

Administers budget estimates, financial statements, staff payrolls and other allied departmental reports.

Collects all revenue for Department.

OPERATIONS

Administers all personnel functions.

Library—provides for reference to Department publications and books relating to municipal administration.

Co-ordinates all Department publications, Department attendance at Municipal Association conferences.

Responsible for selection, purchase and maintenance of supplies and equipment for Department.

LEGAL

This Branch provides legal assistance to all the other branches of the Department. This includes study of various suggestions for legislation and carrying a selection of these through the progressive stages of discussions and approvals leading to introduction in the Legislature as bills. Private bills, too, receive attention. Before their introduction these are scrutinized as to their legality and for submission to other branches for determination of the Department's attitude and subsequently the Branch attends at the Private Bills Committee and presents the Department's views.

The Branch also provides legal assistance to municipalities either through their elected or their appointed representatives, consistent with the amount of such assistance already available to them and without encroachment on the field of solicitors practising there. The Branch is often called upon to discuss with individuals, problems in which municipalities are involved.

ONTARIO MUNICIPAL BOARD

The Ontario Municipal Board operates entirely apart from the Department of Municipal Affairs. It does, however, report to the Legislature through the Minister of Municipal Affairs. The function of the Board is essentially judicial.

The Board's powers and duties extend to a greater variety of subjects and are contained in a large number of public, general and special Acts of the Legislature. The main function is to arbitrate between municipalities, and between municipalities and individuals, on matters submitted to the Board for arbitration. Another important function is the approval of the incurrence of debt by municipalities.

COMMUNITY PLANNING

This Branch assists and advises local communities in all phases of their physical planning—from the recognition of the need for planning through the development of planning organization and the carrying out of the planning programme to the implementation of the plan by the various means available. The objective of this activity is, of course, the creation of communities that are more attractive as places in which to live, more efficient, and more economical to operate.

These are some of the means through which the Community Planning Branch assists in the attaining of this objective:

- Conducting a programme of public education through publications, conferences, local planning workshops, frequent visits to local communities, and other means.
- Working closely with municipal councils and other local agencies in forming logical territorial units for planning and in creating effective planning organizations within these units.
- Offering guidance to communities, through the administration of The Planning Act, and through consultation with local planning officials, in respect of planning techniques, official plans of development, zoning, subdivision control, plans of subdivision, urban renewal (including redevelopment), building by-laws, and other aspects of planning and development.
- Co-ordinating local planning with the plans and policies of Provincial and Dominion Government Agencies.
- Conducting studies of areas of the Province such as the St. Lawrence Valley and the Niagara Peninsula, to provide information vital to effective planning programmes of the various local communities in these areas, to enable the Branch to carry out its administrative responsibilities on the basis of greater knowledge of the areas concerned, and to furnish useful information to other agencies of Government that are concerned with the physical and economic development of the Province.
- Planning and design of new townsites to meet the need for satisfactory urban accommodation in conjunction with the development of natural resources.

DEPARTMENT OF THE PROVINCIAL SECRETARY
AND CITIZENSHIP

Minister: THE HONOURABLE JOHN YAREMKO, Q.C.

The Department of the Provincial Secretary and Citizenship, as re-organized under The Department of the Provincial Secretary and Citizenship Act, 1960-61, is responsible for the administration of the following Statutes and Regulations thereunder:

The Department of the Provincial Secretary and Citizenship Act, 1960-61
The Corporations Act
The Corporations Information Act
The Corporations Securities Registration Act
The Commissioners for Taking Affidavits Act (in part)
The Credit Unions Act (in part)
The Justices of the Peace Act (in part)
The Marriage Act
The Mortmain and Charitable Uses Act
The Notaries Act (in part)
The Official Notices Publication Act
The Vital Statistics Act.

The Provincial Secretary and Minister of Citizenship, who is responsible for the Department, is assisted by the Deputy Provincial Secretary and Deputy Minister of Citizenship, who is his executive officer. Under their direction the various branches carry on the work of the Department.

DIVISIONS AND BRANCHES

ACCOUNTS

ACCOUNTING: Maintains and supervises a complete accounting system for each branch of the Department.

REVENUE: Receives all revenues and issues all official receipts.

EXPENDITURES: Checks all accounts payable and issues requisitions for payment of all departmental expenditures.

GENERAL: Prepares budget estimates, financial statements, statistical reports, and payrolls.

LEGISLATIVE ASSEMBLY: Responsible for maintaining Accounts pertaining to the Legislative Assembly and its Committees.

INCOMING MAIL for the Main Office is received and distributed.

PURCHASING AND STOCKROOM sections are under the control of the Chief Accountant, as are mechanical and photo-production services of the Main Office, Companies, and Citizenship branches.

SPECIAL SERVICES

Special Services Office is responsible for many unrelated matters which come under the jurisdiction of the Department. These include the preparation of Proclamations, Orders-in-Council, information about protocol, precedence, flags, etc., the processing of reports made to the Provincial Secretary by Government and other bodies, distribution of congratulatory scrolls, etc. Commissions of Appointment under the Great Seal of Ontario and the Privy Seal of the Lieutenant Governor are processed by this Office.

PERSONNEL OFFICE

Administers Departmental personnel programme including selection and placement, appointments, position classification, organizational studies, salaries, training courses, attendance and personnel records.

MARRIAGE OFFICE

The Marriage Office administers The Marriage Act and its duties include the registration of persons authorized to solemnize marriage in Ontario, supplying local issuers with marriage licences and clergy with bann forms, and issuing special authorizations to marry.

RECORDS

This office indexes and has custody of records of documents issued under the Great Seal of Ontario, the Privy Seal of the Lieutenant-Governor and the seal of the Provincial Secretary,

- (a) Letters Patent of Incorporation and Amalgamation, Supplementary Letters Patent, Licences in Mortmain, Extra-Provincial Licences, Surrenders and Cancellations.
- (b) Crown Land Patents and Leases, and Mining Patents and Leases.
- (c) Appointment of Queen's Counsels, Notaries Public, Justices of the Peace, and Commissioners for taking Affidavits.

The office prepares certified copies of such records and certificates of notarial authorization. It also prepares quarterly returns to Registrars of Deeds respecting Land Grants.

COMPANIES BRANCH

The Companies Office has the administration of The Corporations Act and other Acts relating to corporations. The work of the office includes not only the issue of letters patent of incorporation but also the issue of supplementary letters patent, orders accepting surrender of charter, licences in mortmain to hold land, extra-provincial licenses to carry on business in Ontario, filing, including annual returns and special resolutions, registrations of bond mortgages and many other matters pertaining to corporations.

CITIZENSHIP BRANCH

Section 4 (2) of The Department of the Provincial Secretary and Citizenship Act, 1960-61 states:

“(2) The Minister shall, on his own initiative and through co-operation with the ministers having charge of the departments of the public service of Ontario, with the ministers having charge of the departments of the public service of Canada, with municipal councils, with school boards and boards of education, with other organizations and otherwise, in the cause of human betterment, advance and encourage the concept and ideal of full and equal citizenship among the residents of Ontario in order that

all may exercise effectively the rights, powers and privileges and fulfil the obligations, duties and liabilities of citizens of Canada within the Province of Ontario.”

The Citizenship Branch has the responsibility of assisting in the successful integration of New Canadians into the social and economic structure of Ontario.

In addition to providing resource materials, advisory services and testing and certification to all language and citizenship classes throughout the Province, the Branch operates classes where the need is not being met by School Boards or other agencies, operates a teacher-training course in applied linguistics in co-operation with the Department of Education, organizes classes and tutorial instruction for institutionalized persons, provides information regarding Ontario Government services, and translates, free of charge, various documents for newcomers which are essential to their vocational or educational adjustment in Ontario.

The Branch co-operates with and gives advisory assistance to various voluntary agencies and community groups interested in problems of integration.

LEGISLATIVE LIBRARY

The Legislative Library is the library of the Legislative Assembly and is designed to assist Members of the Legislature. The Library also is used by the Civil Service, and by school and university teachers of the Province. It is not a public library but the general public may make use of its reference facilities.

CLERK OF THE LEGISLATIVE ASSEMBLY

The Clerk of the Legislative Assembly and the Clerk Assistant are the executive officers of the Assembly and through their hands all the work of the Assembly passes. Petitions, including petitions for Private Bills, are lodged with the Clerk and all Bills introduced for consideration by the Legislature are in the keeping of the Clerk and Clerk Assistant from their introduction until their final disposition. The Bills which become law are certified by the Clerk and are retained in his custody.

All records of the Assembly are the responsibility of the Clerk.

THE QUEEN'S PRINTER

The Queen's Printer purchases supplies of printing, binding, paper and stationery for the Departments of the Government of the Province of Ontario, and also publishes the *Ontario Gazette*.

REGISTRAR-GENERAL BRANCH

The Provincial Secretary and Minister of Citizenship is the Registrar-General and is responsible administratively for matters pertaining to the registration of births, marriages and deaths in accordance with the provisions of The Vital Statistics Act. The Minister is assisted by a Deputy Registrar-General. The office of the Registrar-General is located at 70 Lombard Street, Toronto.

All requests concerning certificates relating to births, marriages and deaths, or any other related information required concerning statistics, adoptions, legitimations, changes of names, corrections, or delayed registrations, should be referred to and addressed to the Deputy Registrar-General, 70 Lombard Street, Toronto. The telephone services of the Registrar-General's Branch may be reached through the regular switchboard in Queen's Park.

Re: Solemnization of Marriages, refer to Marriages (page 203).

LEGISLATIVE POST OFFICE

The Post Office serves all Government departments with both outgoing and incoming mail and, during Sessions of the Legislature, handles the distribution of *Hansard* and all Bills of the House, as well as the Members' mail.

OFFICE OF THE MINISTER AND DEPUTY MINISTER

The Main Office has responsibility for the total administration of the Department including:

- (a) The determination of administrative policies and organization structure. The development of legislation for the provision of welfare services.
- (b) The carrying out of various research studies and pilot projects on a continuing basis.
- (c) The Soldiers' Aid Commission reports to Main Office. This Commission renders financial assistance of a temporary nature to Veterans of the Canadian armed forces and members of their families.

BRANCHES

CHILD WELFARE BRANCH

The Child Welfare Branch supervises, advises and inspects 55 Children's Aid Societies under The Child Welfare Act; carries out similar functions in regard to 37 institutions for the residential care of children and unmarried mothers. The Branch also supervises a varying number of homes registered under The Children's Boarding Homes Act.

DAY NURSERIES BRANCH

The Day Nurseries Branch administers The Day Nurseries Act and is responsible for the licencing in Ontario of all Day Nurseries, Nursery Schools and Private Kindergartens not connected with the private elementary schools. The Branch also inspects the Nurseries and provides advice and information.

FIELD SERVICES BRANCH

This Branch supervises the field staff who take applications for seven welfare allowances programs who verify all required information and who provide counselling services to applicants and recipients. The Branch is also responsible for the examination and approval of provincial payment of all welfare subsidies by the Province to municipalities, except in relation to Child Welfare and Homes for the Aged.

In those areas of northern Ontario without municipal organization, the Branch also carries out the direct administration of welfare services normally performed by a municipality.

Further functions are the co-ordination of provincial rehabilitation services and the investigation of any matters relating to the general welfare of the population.

FINANCE AND ADMINISTRATION BRANCH

The Branch is responsible for financial matters relating to the several Branches of the Department, the general supervision over the Federal-Provincial Unemployment Assistance Agreement, the Vocational Rehabilitation of Disabled Persons Agreement, and the provision of administrative services to all Branches of the Department. Responsibility is also vested for a centralized audit unit.

The Branch is responsible for the following functions:

- (1) Accounting.
- (2) Centralized Audit.
- (3) Personnel Services.
- (4) Staff Training.
- (5) Co-ordination under Federal-Provincial Agreements.
- (6) Purchase of Office Supplies and Equipment.
- (7) Forms Control, Printing and Stock Room.
- (8) Library Services.

GENERAL WELFARE ASSISTANCE BRANCH

The general function is the supervision of municipal administration of the various types of public assistance established under The General Welfare Assistance Act for unemployable and employable persons in needy circumstances.

The Homemakers and Nurses Services Act by which municipalities supply these services in conjunction with the province and private agencies, is the second statute administered by the Branch.

The functions include assistance and guidance to municipal officials in matters of policy and methods of issuing aid; assistance and advice to the Regional Welfare Administrators who examine municipal claims for subsidy and the related case loads, and who directly administer welfare services in unorganized areas; also in the Metropolitan area, the examination of municipal claims and investigation of individual cases by Branch staff.

There is a separate unit specializing in locating deserting husbands and dealing with other cases which present extraordinary problems.

HOMES FOR THE AGED BRANCH

Four Acts of the Legislature are administered through this Branch, namely,

- (1) The Homes for the Aged Act.
- (2) The Charitable Institutions Act.
- (3) The Elderly Persons Housing Aid Act.
- (4) The Elderly Persons Social and Recreational Centres Act.

The Branch supervises and assists municipalities and private organizations in all aspects of constructing and operating Homes and Charitable Institutions for the Aged. It carries out similar functions in regard to Elderly Persons Housing projects and Social and Recreational Centres for the elderly.

Branch personnel inspect the facilities of the Homes and Institutions and verify claims for provincial subsidy in respect of capital, operating and maintenance costs.

Other functions, including training information and the operation of a Geriatrics Centre are undertaken by the Branch.

REHABILITATION SERVICES BRANCH

The Rehabilitation Services Branch is responsible for administering The Rehabilitation Services Act. The service is designed to restore, develop or improve the working ability of handicapped persons to the point where they can be satisfactorily employed or become self-supporting. This procedure includes assessment of ability, vocational counselling, remedial medical treatment, placement in technical or vocational training, granting of maintenance or other costs while training, and an employment placement service.

WELFARE ALLOWANCES BRANCH

The Welfare Allowances Branch is responsible for the administration of the following Acts and related programs:

- (1) The Blind Persons' Allowances Act.
- (2) The Disabled Persons' Allowances Act.
- (3) The Mothers' Allowances Act.
- (4) Assistance to Dependent Fathers.
- (5) The Old Age Assistance Act.
- (6) Assistance to Widows and Unmarried Women.
- (7) The Medical Welfare Plan and Hospital Care Insurance for Old Age Security Pensioners.

The Branch decides the eligibility for allowances and benefits and the amount of allowances under this legislation and authorizes payment.

DEPARTMENT OF PUBLIC WORKS

Minister: THE HONOURABLE T. RAY CONNELL

The Department of Public Works functions under the Public Works Act (R.S.O. 1960, Chapter 338), which places under the control of the Minister all public properties acquired, constructed, extended, enlarged, repaired, equipped or improved at the expense of the Province by sums voted specifically to Public Works by the Legislature, excluding Provincial Parks, Crown Lands and Highways.

The Department's Architectural Branch plans, designs and supervises the erection of all public buildings for the several Departments of the Provincial Government, including a number of the Boards and Commissions. This includes the design and specification of furniture, furnishings and equipment. In a number of cases, private firms of Architects are engaged to assist the Department when the volume of work is more than the Departmental staff can handle.

The Department employs a staff of skilled tradesmen largely engaged in maintenance repair, and renovations. The majority of new construction is carried out by contract on a public tender basis. The work of the Department is quite varied since it plans and constructs buildings and works to suit the particular specialized needs of the other departments. Engineering Divisions of the Department are responsible for the preparation of plans and specifications for the electrical, mechanical, civil, hydraulic and sanitary divisions of buildings and works and the maintenance thereof. The building and maintenance of locks, dams, and navigable channels in many inland waterways is also an engineering function.

The Department administers the large and complex telephone communications system centred at Queen's Park, and is responsible for the landscaping, caretaking and security of the Parliament Buildings and many other Government office buildings together with car-parking allocation and control.

The Property Branch buys land, or leases accommodation for most Departments including many of the Boards and Commissions of Government, and maintains a Property Management Section.

DEPARTMENT OF REFORM INSTITUTIONS

Minister — THE HONOURABLE ALLAN GROSSMAN

ADMINISTRATIVE OFFICES

Located: Ontario Government Building, 434 University Avenue

The Department of Reform Institutions has jurisdiction over adult male and female offenders sentenced to terms of less than two years, and juveniles committed to the training schools under the Training Schools Act.

TRAINING SCHOOLS PROGRAMME

The Training Schools programme in Ontario is provided by a total of 12 schools, operated under the jurisdiction of the Department of Reform Institutions. Five for boys and 4 for girls are the direct responsibility of the Department; and 2 for boys and 1 for girls are operated by Roman Catholic religious orders under a system of grants from the Department.

All children placed in the schools become wards of the schools. The "Training Schools Advisory Board" is appointed by the Lieutenant-Governor-in-Council and meets regularly to review the programme and progress of the schools. Progress and placement reports on individual children are reviewed and the Board recommends on transfer, placement, or termination of wardship.

All Roman Catholic children are committed to the appropriate school — St. Mary's at Downsview for girls; St. John's, Uxbridge, for boys from the western half of the Province; St. Joseph's at Alfred, near Ottawa, for boys from the eastern half. All other children are sent to the appropriate reception centre and remain wards until their 18th birthday or prior to termination by the Advisory Board.

THE RECEPTION CENTRE FOR BOYS, BOWMANVILLE, and THE RECEPTION AND DIAGNOSTIC CENTRE FOR GIRLS, GALT, provide settings where children are given psychological, aptitude and intelligence tests to determine the type of programme which best suits their needs. They are then sent to the training school which can provide the most suitable programme for each individual child.

THE ONTARIO TRAINING SCHOOL FOR GIRLS, GALT, can accommodate 120 girls. It takes girls who are not in need of intensive clinical attention but who require close supervision and control. The girls attend full-time school, and the emphasis is on vocational subjects.

THE ONTARIO TRAINING SCHOOL FOR GIRLS, LINDSAY, is designed for students who are sufficiently mature and responsible to par-

ticipate in a programme combining a greater degree of freedom with emphasis on academic training. There is accommodation for 120 girls.

THE ONTARIO TRAINING SCHOOL FOR GIRLS, PORT BOLSTER (TRELAWNEY HOUSE) has accommodation for 20 girls and a programme designed to provide group living in a home-like atmosphere. All girls attend full-time academic school, either at Trelawney House or, if they are above grade 8, at the local high school. They are strongly integrated into local community activities.

The Selection Committee at the RECEPTION CENTRE, BOWMANVILLE, has a choice of 5 institutions to which it can send a boy.

THE ONTARIO TRAINING SCHOOL FOR BOYS, COBOURG, consists of four large adjacent houses with extensive grounds. It has accommodation for 175 boys. The programme is designed to meet the needs of younger boys, and the full-time academic school covers grades 1 to 8. Special remedial and opportunity classes are provided. The School is divided into seven administrative houses, to allow boys to be accommodated with their own age group and size, and there is a wide selection of extra-curricular activities, sports and hobbies. The School has its own Cub and Scout Packs.

THE ONTARIO TRAINING SCHOOL FOR BOYS, BOWMANVILLE, has a normal capacity of 190 and accommodates older boys who are unable to benefit from the special, intensive training programmes provided at other schools. The students live in five houses. There is a large farm and a number of trade shops where the basic skills are taught. Bowmanville has a very extensive sports programme, a fine gymnasium and swimming pool, a Scout Troop, and a cadet band.

COLDSPRINGS FORESTRY CAMP is located in the Ganaraska Forest north-east of Bowmanville. It provides accommodation for 40 boys who receive part-time training in forestry from skilled instructors and part-time academic instruction. The boys are selected from the students at Bowmanville on the basis of their aptitude for this type of training.

THE ONTARIO TRAINING SCHOOL FOR BOYS, SIMCOE. This school accommodates 120 and is designed for older boys who can be stimulated into furthering their academic education. All boys attend full-time school which covers grades 8 to 10. The programme is geared to fit a boy back into the normal school programme in his appropriate grade when he leaves the training school. The heavy emphasis on academic education is supplemented by a wide range of recreational activity.

THE ONTARIO TRAINING SCHOOL FOR BOYS, HAGERSVILLE. This, the newest of the training schools, is being developed from an ex-R.C.A.F. station. The programme is designed to accommodate older boys

who are adaptable to intensive vocational training, as well as a separate unit of homes for small groups of young boys.

THE ONTARIO TRAINING SCHOOL FOR BOYS, GUELPH, accommodates 48 boys in individual rooms. This is a maximum security school for both Protestant and Roman Catholic boys, who have been completely unable to adjust to the open setting in the other training schools. The emphasis is on flexibility of programme to meet the individual needs and problems of each boy. Trade training is provided by three vocational shops, and there is an academic school to cater for the wide range of educational levels. There is a great variety of extra-curricular activity. Mental health services are provided by a psychiatrist, a psychologist and a social worker.

PLACEMENT

Boys and girls are placed back in the community under the guidance of rehabilitation officers. These officers interview the youths while they are in the Training Schools, obtain assessment of their interest and capabilities, investigate their home situations, and discuss with them where they will be most likely to succeed in making their adjustment to the everyday demands of society.

Officers keep in close contact, giving advice and assistance during the first few months after the youths leave the Training Schools, until they are satisfied that the adjustment has been successfully made and that we can release them from wardship.

ADULT FACILITIES

The Department has the responsibility for the administration of :

1. The Andrew Mercer Reformatory Act
2. The Jails Act
3. The Industrial Farms Act
4. The Parole Act
5. The Penal and Reform Institutions Inspection Act
6. The Reformatories Act

and has the following facilities:

- 4 Reformatories
- 5 Industrial Farms
- 2 Training Centres
- 4 Clinics

4 Forestry Camps

1 Guidance and 1 Treatment Centre for Women

8 District Jails

and has jurisdiction over:

2 City and 35 County Jails

Effective use of the programmes and facilities is made by detailed classification and segregation of offenders so that different groups of offenders may be kept apart, the younger offender from the older hardened criminal, and an inmate may in this way be dealt with in the particular programme best suited to aid in his rehabilitation.

SECURITY

Security in various institutions is at different levels so as to protect the public from those offenders needing high levels of security and to provide reduced security settings wherever it is possible, thus increasing the effectiveness of the treatment programmes.

PROGRAMMES

TREATMENT programmes at clinics and other institutions are designed to meet the needs of particular types of offenders.

The TRAINING programme includes academic, vocational, industrial and agricultural training with a view of assisting a man to take up useful employment on release.

RELIGIOUS training is provided by chaplains of different faiths in all institutions under a Director of Chaplaincy Services.

SERVICES

All institutions have available medical and dental services, with hospital accommodation.

The Library Services provide books for recreation and education.

A varied, balanced diet is provided in all institutions by a qualified staff of Chefs and Cooks, assisted by inmates. The highest degrees of cleanliness and quality are maintained.

All institutions carry out a physical training and recreational programme under the directions of trained instructors, which is geared to the age and type of inmate, to the type of institution, and to the season.

PAROLE AND REHABILITATION SERVICES

A recently re-organized service under the general direction of the Chairman of the Ontario Parole Board renders parole and rehabilitation services to inmates and their families both before and after release. Officers interview inmates, their families and prospective employers, giving assistance and advice to the inmate whilst in the institution on his plans for re-establishing himself in society. Advice on employment and, wherever possible, assistance in the obtaining of employment are regular features of the officers' work. All inmates granted Ontario parole are given assistance after release, and assistance is also given to any other inmate requesting it. They may be found accommodation, further employment, or be given financial assistance to help through a difficult period.

RESEARCH AND POST-GRADUATE TEACHING

In addition to helping support the Centre of Criminology in Toronto, the Department has recently appointed a Director of Research, who will work in close conjunction with the Universities of the Province and the Department's own Research Committee. Research, which has been carried out at the Neuro-Psychiatric, Drug Addiction and Alcoholic Clinics, the Training Centres and Treatment Centres, as well as other institutions, will be enlarged and co-ordinated.

STAFF TRAINING

THE STAFF TRAINING SCHOOL, situated on the grounds of the Ontario Reformatory, Guelph, provides for the training of functional groups at all levels within the Department. Student residence is provided. The faculty consists of experienced officials in the Department, augmented by visiting lecturers who are specialists in various fields.

The staff training programme is supplemented by in-service training courses at individual institutions, by the three-year extension course for the Certificate of Corrections provided at McMaster University, and by a growing number of lectures and courses in specialized aspects of this work at Ontario universities.

THE REFORMATORIES

THE ONTARIO REFORMATORY, GUELPH, takes all offenders between the ages of 16 and 19, and all male offenders over this age committed to Ontario Reformatories for the first time. The population of between 850 and 900 is accommodated approximately half in individual cells and half in dormitories.

All new arrivals under the age of 20 are held in reception and given a battery of psychological and aptitude tests prior to being interviewed by the Classification Committee. The Committee assesses the needs and potentialities of each man and makes a decision as to which of the available programmes will be most effective for his rehabilitation. He may go to one of the training centres, at Brampton or Burtch, to the forestry camp north of Barrie, or be placed into the Reformatory programme at Guelph. If he remains at Guelph, the Employment Committee will interview him and, in the light of test results and recommendations by professional staff, will assign him to a suitable work programme. This may include part-time academic classes, full-time vocational classes, and industrial training.

The academic school provides day and evening classes for grades up to 10, and other subjects and higher grades may be studied under the supervision of a teacher through courses provided by the Ontario Department of Education. The Library provides both study facilities and recreational reading.

Vocational trade training classes are established, under skilled instructors, in bricklaying, carpentry, motor mechanics, painting and decorating, plumbing, sheet metal, and upholstery.

Guelph is the Department's largest manufacturing centre and provides diversified training in the woollen mill, tailor shop, planing mill, machine shop and cannery. A new abattoir will be opened this year.

The farm covers approximately 1,000 acres of land and includes a dairy, piggery, horse barns, and vegetable gardens. Horticultural training is provided in two large greenhouses.

Located at Guelph are the Neuro-Psychiatric Clinic, the Staff Training School, and the TB Hospital.

THE ONTARIO REFORMATORY, MILLBROOK, officially opened June 1st, 1957, is a maximum custody institution located approximately 18 miles south-east of Peterborough, and has accommodation for 250 prisoners, extreme behaviour problems, and other groups needing maximum security.

Treatment services are provided by a clinical team of Psychiatrist, Psychologist, and Social Worker, who provide therapy, both individual and in groups, according to the inmate's needs.

Industries include a tailor shop, laundry, shoe repair and automobile licence plate manufacture. There is a Braille printing shop where books for blind school children are stereotyped and printed.

THE ONTARIO REFORMATORY, MIMICO, is located in Mimico, 11 miles west of Toronto, and accepts short-term repeaters over twenty

years of age, many of whom are alcoholics. The average population is just over 300. The Institution occupies 150 acres of land and the main industry is brick and tile making. Many inmates take part in the various stages from the drilling, blasting and loading of raw materials through the grinding, forming, drying and kiln burning to sorting and shipping. Mimico has its own farm and a herd of pedigree Holsteins. Poultry and hog raising are featured. A modern machine shop is connected with the mill and provides maintenance for the institution. Younger inmates are placed in this shop for training and the skill acquired enables them to follow this type of work when released. A shoe shop gives employment to from twenty to twenty-five, manufacturing slippers and repairing shoes.

THE ANDREW MERCER REFORMATORY FOR WOMEN is situated in Toronto and accepts all women with Reformatory sentences. The average population is just over 100. Opportunity for training is provided in the Sewing School, Laundry, Kitchen, Dining Room, in housework, hairdressing and gardening. The Sewing School and Laundry are equipped with up-to-date power machinery. Besides learning to operate sewing machines, button and button-hole machines and sergers, the inmates practise laying the patterns and cutting garments with an electric cutter. The Academic Department covers Grade I to X as necessary. In addition there are vocational classes covering shorthand and elementary bookkeeping. Mercer also has a modern and well-equipped Home Economics Unit. A house situated on the grounds is used in connection with milieu therapy programme.

GUIDANCE AND TREATMENT CENTRE FOR WOMEN

THE ONTARIO WOMEN'S GUIDANCE CENTRE, BRAMPTON (Ingleside), is an entirely open institution which houses about 24 young women. These women are screened and selected at the Mercer Reformatory for the specialized training which is available at this institution.

Academic courses are provided and are compulsory for all girls who do not have grade 10 education. Girls with grade 8, who have the ability, receive typing and business practice instruction. Instruction is also given in hairdressing and housekeeping duties, and classes are conducted in child care, personal hygiene, first aid, sewing, etc. Group therapy sessions are a regular part of the programme.

THE ONTARIO WOMEN'S TREATMENT CENTRE, BRAMPTON, located close to the Guidance Centre, is a small institution which was opened in August, 1963, to provide a homelike atmosphere for women who need specialized treatment with regard to personality problems.

The main purpose of this institution is to provide a therapeutic setting for concentrated psychiatric and psychological counselling. Work training in industrial sewing is given.

INDUSTRIAL FARMS

THE INDUSTRIAL FARM, BURWASH, has 35,000 acres and an average population of just over 700 prisoners in 3 separate camps, ranging from minimum to medium security.

Under the Classification Programme, Burwash receives long-term repeaters 20 years of age and over. Due to the age and type of most of the inmates, "on the job training" is emphasized in the work provided by the farm, the tailor shop, the laundry, and in construction work, painting, electrical work and the maintenance of the boiler house. Lumbering is the chief industry and a saw mill has been in operation for many years. About 5,000 acres are under cultivation and a dairy herd, beef herd and hogs are maintained.

Vocational trade training in machine shop practice, sheet metal work and bricklaying is taught in 3 well equipped shops. Inmates who wish to improve their academic standing are given the opportunity to apply for correspondence courses which are available from the Department of Education and the Department of Veterans' Affairs. One section of the library building is used in the evenings for a study room. Selected groups of inmates are trained and used to fight forest fires, in re-forestation, and in the establishment of forest camp sites.

THE INDUSTRIAL FARM, MONTEITH, is located about 40 miles east of Timmins and receives repeaters with definite sentences up to a year. The average population is about 130.

The main occupation of the inmates is general farming including hog raising, dairying and egg production. Selected groups are employed under the supervision of the Department of Lands and Forests in re-forestation, and Monteith inmates are also engaged in land conservation.

THE INDUSTRIAL FARM, RIDEAU, is situated at Burritt's Rapids about 40 miles from Ottawa and receives repeaters with definite sentences up to a year. The average population is about 120 inmates who are employed at farming, reclamation and re-forestation work, and in a tailor shop. The tailor shop manufactures clothing for the Department of Reform Institutions and the Department of Health.

THE INDUSTRIAL FARM, FORT WILLIAM, receives repeaters with definite sentences up to a year and the average population is about 65. This property was transferred to the Department of Reform Institutions from the Department of Health in 1955, and the principal employment is farming, including beef raising, poultry raising and sheep raising. Reclaiming land and bush work employs a number of inmates. A new Ontario Training Centre will be opened here in 1965.

THE INDUSTRIAL FARM, BURTCH, is located near Brantford and receives repeaters with definite sentences up to a year. The average population is about 170 inmates who are employed at farming, tailoring, the manufacture of snow fencing, and the canning of fruit and vegetables. The Ontario Training Centre, Burtch, is situated on this property.

TRAINING CENTRES

ONTARIO TRAINING CENTRE, BRAMPTON, is a minimum security institution providing accommodation for a selected group of offenders between the ages of 16 and 24 years inclusive. The normal capacity of the Centre is 200.

The programme is essentially training, academic, vocational, recreational, social and spiritual. The students spend one half of each day in a vocational shop and one half in the academic school. The grades range from 5 to 13 and, where possible, instruction is related to shop training. There are 11 trade training shops, each with a qualified instructor.

Emphasis is placed on physical education with a view to developing a strong, healthy body and a sense of team play. A resident psychologist and social worker assist the students with their personal problems.

The institution was opened on February 3rd, 1947, in a former army camp. There are no cells or bars. Custody is maintained by psychological rather than physical methods and escapes are rare.

ONTARIO TRAINING CENTRE, BURTCH, has an average population of 40 young men, of limited ability and aptitude, between the ages of 15 and 24 inclusive.

This Centre places special emphasis on improvement of educational standing and there are 3 vocational shops providing training at a semi-skilled level in sheet metal work, woodworking and bricklaying.

CLINICS

THE ALEX G. BROWN MEMORIAL CLINIC FOR ALCOHOLICS, MIMICO, is located in two buildings on the property of the Ontario Reformatory, Mimico. Two distinct classes of patients are accepted. One—Male adult alcoholics from all reform institutions who volunteer to serve the final 30 days of their sentence at this Clinic. These men are screened before being accepted for treatment to ensure that their motivation is such that they will benefit from the programme. The second group—is composed of male adult alcoholics who are sentenced directly to this Clinic by the Courts for treatment.

The treatment programme involves supplying the patient with an understanding of his alcoholic and personality problems and initiating the medical, psychological, social and spiritual help which is required for successful rehabilitation. The average number of patients undergoing treatment is about 70.

THE ALEX G. BROWN MEMORIAL CLINIC FOR DRUG ADDICTS, MIMICO. This Clinic was established in January, 1956, for the treatment of male narcotic addicts. For administrative purposes it is combined with the A.G.B. Memorial Clinic for Alcoholics.

The treatment programme, which is conducted by a clinical staff consisting of psychiatrists, psychologists and social workers, is a treatment-orientated programme. Information is given on the nature of narcotic addiction, and through individual counselling, group therapy, and the commencement of a rehabilitation programme, the patient is helped to see the nature of his problem, the way to control it, and is assisted in re-adjusting to society when he is released.

HOSPITAL—THE ONTARIO REFORMATORY, GUELPH

The two storey hospital, with accommodation for 60 patients, was opened in 1955. The first floor is for the treatment of routine medical and surgical cases. The second floor is set up as a neuro-psychiatric unit.

In 1962-63, an entire floor of the Tower building in the Reformatory was renovated into a modern TB hospital, containing sections for "active" and "inactive" patients. This hospital is the only one of its kind completely under the jurisdiction of a penal institution, and accommodation for 10 patients is provided.

THE NEURO-PSYCHIATRIC CLINIC, GUELPH, is located in the hospital building at Guelph and treats male prisoners from all the reformatories and industrial farms who are referred following medical and/or psychiatric examination. The purpose of the Clinic is for the investigation and treatment of functional and organic diseases and for research.

FORESTRY CAMPS

The Department operates four Forestry Camps, each with a capacity of about 40. These are minimum security units for selected inmates from various institutions.

Camp Hendrie is administered by the Ontario Reformatory, Guelph; Hillsdale by the Ontario Reformatory, Mimico; McCreight's Camp by the District Jail at Sault Ste. Marie; and Wendigo Lake by the District Jail at North Bay.

These low-cost camps, built by inmate labour, provide a meaningful programme of community work in rural localities and local county forests. The inmates are employed on conservation and re-forestation projects.

DISTRICT JAILS

Owing to the municipal organization of the district in Northern Ontario, the jails for these districts come under the direct administration of the Department of Reform Institutions. The Department is thus responsible for the district Jails at:

FORT FRANCES

HAILEYBURY

KENORA

NORTH BAY

PARRY SOUND

PORT ARTHUR

SAULT STE. MARIE

SUDBURY

CITY AND COUNTY JAILS

The Department also has jurisdiction over 2 City and 35 County Jails, and these are regularly inspected by officials from the Department.

DEPARTMENT OF TOURISM AND INFORMATION

Minister: THE HONOURABLE JAMES A. C. AULD

The Department of Tourism and Information is responsible for: developing the Tourist Industry in Ontario, by encouraging and promoting improvement in the standards of accommodation, facilities and services offered to tourists, and by undertaking the publicizing of the tourist industry and of the resources, attractions and advantages of Ontario:

The Minister, who is assisted by a Deputy Minister, has under his jurisdiction the following Statutes:

The Department of Tourism and Information Act

The Tourist Establishments Act

The Archaeological and Historic Sites Protection Act

The Archives Act

The Theatres Act

The St. Lawrence Parks Commission Act

ADMINISTRATIVE BRANCH

Under this Branch are grouped service functions for which there is a general overall requirement throughout the Department.

Accounting and budget control, purchasing, travel arrangements, mail handling, personnel administration, methods and procedures, inventory control, shipping and receiving, duplicating and addressograph services, central files and departmental library.

TOURIST PROMOTION AND INFORMATION BRANCH

This Branch provides tourist counselling and information services for the Department—i.e. mail requests, personal information requests through reception centres and branch offices. The supervision of exhibits and displays featuring tourist attractions of Ontario, at the C.N.E. and scheduled showings in the United States is another function of the Tourist Promotion and Information Branch.

PUBLICITY BRANCH

The major responsibility of the Publicity Branch is to prepare and carry out a programme of publicity to promote the tourist industry. This publicity is directed to the newspaper, magazine, radio and television media. Publicity counsel and guidance is provided to operators and tourist organizations. Films designed to encourage tourists to visit Ontario are produced for direct showing in Canada, United States and foreign countries. This Branch also provides a press photography service to the Department and the Government for the taking of newsworthy and documentary pictures. A library of up-to-date photographs in colour and black and white is maintained to serve the Department, other Government Departments and agencies, and the Tourist Industry generally.

TOURIST INDUSTRY DEVELOPMENT BRANCH

The major responsibility of this Branch is to provide guidance and advice to tourist operators and associations in all categories on resort management, sales promotion and advertising, arrangements and promotion of special events and development of tourist attractions. Other main functions of this Branch is to administer the provisions of the Tourist Establishments' Act and Regulations by issuing licences and permits to tourist operators, inspection of premises by field staff and investigation of complaints. The Branch also arranges for surveys to be conducted by community groups among tourists to establish total tourist expenditures in the community.

The Tourist Industry Development Branch administers grants paid to regional tourist associations for development and promotion of tourism in the regions, and a programme of formal instructions to operators and employees who serve tourists, to encourage the undertaking of such programmes by tourist industry groups.

ADVERTISING BRANCH

The Advertising Branch plans the advertising programme for the Department by deciding the degree to which each element of the programme needs to be emphasized, and co-ordinates general advertising of all government departments. This Branch also supervises the preparation of all printed materials issued by the Department including the writing of editorial content, layout, design, artwork, typography and printing.

DEPARTMENT OF PUBLIC RECORDS AND ARCHIVES

ARCHIVES BRANCH

ACQUISITION OF RECORDS: Acquires records of enduring value of the Legislative Assembly or any department, branch, or commission of the public service; and historical manuscripts, maps, newspapers, and pictures relating to the history of Ontario.

PRESERVATION OF RECORDS: Keeps records safely under proper physical conditions, and repairs and copies records as required.

SERVICE: Analyzes records and prepares finding aids so that their contents are available for administrative use and historical research. As requested, assists students, administrators and members of the public doing historical research.

HISTORICAL BRANCH

ERECTION OF PLAQUES: Commemorates important events, sites, persons and structures by the erection of historical plaques.

MUSEUMS: Administers government grants to municipally owned and operated historical museums. Provides technical advice and assistance to local museums throughout Ontario.

INFORMATION AND PUBLICATIONS: Answers inquiries regarding the Province's historical attractions, and compiles departmental publications and news releases relating to history.

PROTECTION OF SITES: Is responsible for administration relating to the protection of archaeological and historic sites as outlined in the Archaeological and Historic Sites Protection Act (1953).

ADVISORY BOARD: This branch provides administrative staff for the Archaeological and Historic Sites Advisory Board of Ontario. That Board, consisting of twelve private citizens, advises the Minister on matters relating to history, archaeology and museums. The Provincial Archivist acts as Secretary of the Board.

TRAVEL RESEARCH BRANCH

This branch is responsible for conducting economic and marketing studies in the general field of travel and tourism.

THE ST. LAWRENCE PARKS COMMISSION

MORRISBURG, ONTARIO

543-2951

The Ontario-St. Lawrence Development Commission was established in 1955 by an Act of the Ontario Legislature. Under this Act the Commission, as a branch of government, was created, with its primary function to plan, construct, manage, and operate parks and historic sites, particularly in the area affected by the Hydro and Seaway developments; the basic intent being that these lands were to be dedicated to the preservation of their historic past and to the educational and recreational enjoyment of present and future generations.

The name of the Commission was changed from The Ontario - St. Lawrence Development Commission to The St. Lawrence Parks Commission by an Act of the Legislature in March, 1964.

A parks system extending 170 miles from the Quebec border to west of Kingston, consisting of 6,000 acres, and divided into sixteen major operating sites, has been developed. The major development is seven miles east of Morrisburgh on Highway No. 2 at historic Chrysler Farm Battlefield Park, where one of the decisive battles of the War of 1812 was fought. In this 2,000-acre recreational and historic development is located pioneer Upper Canada Village, 1784-1867, the magnificent Battle Mound and Mall, and other interesting memorials. In this park, there is a modern marina with dockside facilities, a riding corral, and a nine-hole golf course. The main Information Centre is at the park entrance.

The parks system has some of the finest camping areas in Southern Ontario with modern facilities including fresh water, flush lavatories, picnic tables, and sandy beaches. Day-use areas have the same facilities as well as refreshment buildings and parking lots. All operating sites are supervised.

Old Fort Henry at Kingston, the citadel of Upper Canada, is one of the outstanding tourist attractions in North America, and the famed precision drill of 1867 by the Fort Henry Guard has been internationally acclaimed. Retreat ceremonies every Wednesday evening during July and August are a feature attraction.

The parks system and Upper Canada Village are open May 15 through October 17. Old Fort Henry is open May 15 through September 19.

DEPARTMENT OF TRANSPORT

Minister: THE HONOURABLE W. IRWIN HASKETT

The Department of Transport is responsible for administering all matters relating to motor vehicle traffic in the Province of Ontario. This involves King's highways as well as rural roads and municipal streets in accordance with The Highway Traffic Act, The Motor Vehicle Accident Claims Act, The Ontario Highway Transport Board Act, The Public Commercial Vehicles Act, The Public Vehicles Act and The Department of Transport Act. This Department is responsible for the licensing and control of all motor vehicles, and the development of a comprehensive highway safety programme in co-operation with the Departments of the Attorney-General, Highways and Education.

The development in the use of the motor vehicle, both as a private passenger vehicle and a commercial carrier, requires that the Department maintain up-to-date services and collect adequate revenues to ensure the construction and maintenance of streets and highways.

The Minister of Transport is assisted by a Deputy Minister and Registrar of Motor Vehicles with the following Branches:

MOTOR VEHICLE LICENCE BRANCH

This Branch is responsible for the issuing of motor vehicle permits, registration plates and drivers' licence and the maintaining of records of permits and licences issued for police and law enforcement agencies. Some 270 agency offices are located throughout the province for the convenience of the public. As a result of the volume of drivers' licences issued annually the Department placed, under this Branch, a programme of changeover from the former manual method of issuing drivers' licences to a fully mechanized punchcard system. The changeover was completed in 1964.

DRIVER CONTROL BRANCH

In recognition of the important part the driver has in any plan to prevent traffic accidents, the work of this Branch involves the improvement and control of drivers.

The Demerit Point System operates to supplement the improved driver examination programme. Individual driving records of convictions and accidents are maintained to permit identification and control of the motorist who refuses to accept his responsibilities. Through the use of the point schedule for violations—developed on the basis of their significance in contributing to accidents as well as on the basis of experience and knowledge gained during the first two years of operation of this system—these drivers are encouraged to improve their driving habits or—as a last resort—suspended.

The work of this Branch also involves the collection, tabulation and study of accidents statistics and records. The objectives of such study are to determine the factors that contribute to accidents, to detect accident trends and to provide information which will assist in preventing accidents and improve driving performance.

DRIVER EXAMINATION BRANCH

Driving examinations are carried out by trained civil service examiners. The test procedures include examination of licence applicant's vision, knowledge of traffic laws, signs and signals, as well as behind-the-wheel skills and mental and physical qualifications.

At the present time, the Department operates 49 driver examination centres throughout the province from which 102 travelling examination points are serviced.

HIGHWAY SAFETY BRANCH

This Branch is responsible for developing an action programme for highway safety for the province of Ontario. To this end, it co-ordinates and supports the efforts of all Government Departments interested in promoting highway safety.

It also works to enlist the co-operation of organized groups and to rouse the interest of the general public in the cause of preventing traffic accidents.

Accident Prevention Organizers in Northern, Western, Central and Eastern Ontario work directly with local organizations and educators to bring traffic safety to every school and community. They help safety councils become effective school safety patrols, and promote highway safety programmes.

A Woman's Activities Division is responsible for helping women's organizations become active in traffic accident prevention.

A Driver Instruction Division organizes and conducts High School driver instruction courses in co-operation with the Department of Education.

RESEARCH BRANCH

The Branch carries out two main functions—special studies concerning motor vehicle taxation and the provision of a statistical service as an aid to efficient administration.

VEHICLE INSPECTION BRANCH

Duties include the staffing of highway weighing stations for the checking of all commercial vehicles to see that they are within their proper load limits and are properly licensed for the goods they carry. School buses

are checked periodically for mechanical defects and compliance with mandatory equipment requirements.

In addition, officers of the Branch inspect garages, used car lots and wrecking yards to ensure they are properly licensed.

TRAFFIC ENGINEERING BRANCH

This Branch provides engineering advice and assistance throughout the province, particularly as it relates to municipal roads. This is of great assistance in the preparation of traffic control measures in a town, city, police village, township or county organization. In addition, this Branch provides close liaison with the Ontario Traffic Conference and other Departments in the matter of traffic engineering.

MOTOR VEHICLE ACCIDENT CLAIMS FUND

The Fund provides a means of compensating victims of accidents who suffer loss through negligence of a vehicle owner or driver who is not financially able to pay for the injury or damage caused, and persons injured in "hit and run" accidents. Amounts of up to \$35,000 for death or personal injury to two or more persons and up to \$5,000 for damage to property are payable out of the Fund.

Uninsured motor vehicle owners are required to pay a fee of \$20.00 into the Fund. It is an offence punishable by a heavy fine for an owner to operate a motor vehicle on the highway without liability insurance coverage or without having paid the uninsured motor vehicle fee.

TREASURY DEPARTMENT

Minister: THE HONOURABLE JAMES N. ALLAN

THE TREASURY BOARD SECRETARIAT

The Secretariat serves as the staff of the Treasury Board. The Treasury Board is, in effect, the finance committee of the Cabinet and is composed of the Treasurer, who is the chairman, and not fewer than four and not more than seven other members of the Executive Council.

The responsibilities assigned to the Treasury Board Secretariat reflect the functions of the Board on whose behalf it acts. As the administrative arm of the Treasury Board, the Secretary and his staff review and advise upon the expenditures proposed by all departments and certain crown agencies for incorporation in the Estimates to be presented to the Legislature. It is also concerned with the administrative policy of the public service, the staffing requirements of departments and the review of programmes involving expenditures.

The Organization and Methods Services Branch conducts surveys and makes recommendations with respect to organization analysis and administrative methods, systems and procedures. Surveys are undertaken as requested by departments and agencies, or as directed by Treasury Board.

The Staff Relations Branch carries out day-to-day negotiations with the Civil Service Association of Ontario on behalf of the management side of the Ontario Joint Council.

RESEARCH AND STATISTICS BRANCH

The Research and Statistics Branch undertakes special studies of a financial nature, which relate to the Government's fiscal policy with special emphasis on its revenue, expenditure and debt. From time to time, studies are also prepared on the fiscal relations between the three levels of government.

ACCOUNTS DIVISION

The Government Accounts Branch issues cheques in payment of accounts as requisitioned by departments and approved by the Provincial Auditor. Inquiries about Accounts Payable should be addressed to the department incurring the expenditure rather than to the Treasury.

Remittances to the Province should be drawn in favour of the Treasurer of Ontario but should be sent to the department concerned from which the official receipt will be issued.

Loans to municipal corporations under The Tile Drainage Act are handled by the Loan Accounting Branch. The Director of this Branch holds the statutory office of Commissioner of Agricultural Loans and as such, collects principal and interest on loans secured by mortgage under The Agricultural Development Act. No new loans have been made for a number of years. The Commissioner also administers The Farm Loans Act and is Commissioner of Settlers' Loans under The Northern Development Act.

The Loan Accounting Branch also administers the affairs of Housing Corporation Limited, a crown corporation established by letters patent in 1948 for the purpose of lending money upon second mortgages to aid in the construction of new houses. The making of such loans has since been discontinued and the corporation now functions only in the collection of repayments and interest on its existent loans.

The Securities Branch looks after the issue and redemption of debentures and other provincial securities, the payment of interest and registration of ownership. This branch also holds for safekeeping on behalf of other departments any bonds or other valuable papers that may be deposited as security by persons doing business with such departments.

The Pensions Funds Branch is responsible for the administration of The Public Service Superannuation Act and The Legislative Assembly Retirement Allowances Act.

REVENUE DIVISION

The principal taxing statutes are administered by the Comptroller of Revenue. These include The Corporations Tax Act, The Gasoline Tax Act, The Motor Vehicle Fuel Tax Act, The Hospitals Tax Act, The Income Tax Act, The Land Transfer Tax Act, The Logging Tax Act, The Race Tracks Tax Act, The Security Transfer Tax Act, The Succession Duty Act and The Retail Sales Tax Act.

SAVINGS OFFICE

The Agricultural Development Finance Act authorizes the Treasurer to accept deposits of money and operate savings accounts. Withdrawals

may be made by cheque. This service is operated by the Province of Ontario Savings office, which has twenty-one branches, as follows:

Aylmer	Pembroke
Brantford	Seaforth
Guelph	St. Catharines
Hamilton	St. Marys
Hamilton, East End	Walkerton
London	Windsor
Ottawa	Woodstock
Owen Sound	

Toronto Branches: Bay and Adelaide Streets
Danforth and Fenwick Avenues
Danforth and Woodbine Avenues
Parliament Buildings
University Avenue and Dundas Street
1556 Yonge Street

The Savings Offices also act as agencies of the Department of Labour in the sale and redemption of Vacation-pay Stamps under The Hours-of-work and Vacations-with-Pay Act.

PUBLIC SERVICE SUPERANNUATION BOARD

The Board is composed of four members, one of whom is the representative of the Civil Service Association of Ontario. The Chairman of the Civil Service Commission is a member *ex-offio*.

It is the function of the Board to make recommendations to the Treasurer with respect to matters under The Public Service Superannuation Act and the amounts of allowances and annuities to which persons are entitled under the Act. Administration is the responsibility of the Pension Funds Branch.

THE ONTARIO MUNICIPAL IMPROVEMENT CORPORATION

This Corporation makes loans to municipalities, improvement districts and school boards under The Ontario Municipal Improvement Corporation Act.

THE ONTARIO UNIVERSITIES CAPITAL AID CORPORATION

This Corporation purchases bonds and debentures issued by universities.

DEPARTMENT OF CIVIL SERVICE

The Civil Service Commission consists of a Chairman and two part-time Commissioners who are senior Government officials namely: the Chairman of the Public Service Superannuation Board and the Secretary of the Treasury Board. The Civil Service Commissioners are responsible for the determination of personnel policies in accordance with the statutory authorities in The Public Service Act. These primarily concern policies in regard to recruitment, classification, salary determination, perquisite charges, conditions and terms of employment including arrangements for leave and staff development programmes.

The administration of the policies determined by the Civil Service Commission and by the Government through regulations is the responsibility of the Department of Civil Service, the Deputy Minister of this Department serving as Chairman of the Civil Service Commission. The Department is organizationally divided under the Executive Director, Personnel Administration and the Executive Director, Recruitment and Research. The Pay Research Branch reports directly to the Chairman.

The Civil Service Commission appoints civil servants by a Minute of the Commission. The Department of Civil Service is responsible for the administration of all staffing procedures. The personnel matters that are the responsibility of the Commission and the Department include hours of work, attendance, leave of absence, discipline, appeal rights, holidays, competitions and generally acting as central agency authority for personnel procedures carried out in the departments.

CIVIL SERVICE APPEALS

Comprehensive regulations under The Public Service Act provide public servants with the right to seek redress of grievances against discharge, working conditions, terms of employment and classification.

Appeals progress through several stages within a department before reaching arbitration. In the case of classification grievances, the final decision is made by the Classification Rating Committee. For all other grievances, the last level is the Public Service Grievance Board.

The Chairman and Vice-Chairman of both the Grievance Board and the Classification Rating Committee are appointed by Order-in-Council from outside the provincial service. The third member of the Board is chosen from a panel of three senior civil servants. The third member of the Rating Committee is chosen from a panel, the members of which usually have had extensive personnel experience.

ONTARIO JOINT COUNCIL

The Ontario Joint Council, established in 1963 under The Public Service Act, consists of eight members and a non-voting Chairman. The Council meets at least four times a year and provides an opportunity for employees and management in the Public Service to meet on matters of common interest regarding terms of employment. The Council discusses such things as remuneration, leaves, working conditions, hours of work and any other matter referred to the Council.

All members are appointed by the Lieutenant-Governor in Council. There are four representatives from the employees Association, The Civil Service Association of Ontario; and four are management representatives.

CIVIL SERVICE ARBITRATION BOARD

By an amendment to the Public Service Act in 1963, provision was made to appoint a three-member Civil Service Arbitration Board. The Chairman is appointed for a term of two years. One of the two members is appointed on a recommendation by the employee representatives of the Joint Council and the other by the management representatives of the Joint Council.

Decisions of the Civil Service Arbitration Board are to be implemented.

PERSONNEL COUNCIL

The Personnel Council, authorized by Order-in-Council under the Public Service Act, functions as an advisory body to the Civil Service Commission and the Department of Civil Service. This Council is a sounding board for personnel management in the Public Service. Members are engaged in personnel work in line operating departments. They meet to discuss matters of common interest and regularly meet with the Civil Service Commission. Recommendations are submitted by the Council to the Civil Service Commission on practices and procedures in the Ontario Public Service.

ONTARIO WATER RESOURCES COMMISSION

In 1955, the Ontario Government, recognizing the increasing problems surrounding the availability of adequate and safe water supply for all residents of the Province, set up a committee to investigate water supply and sewage disposal. This was followed in 1956 by the creation of the Ontario Water Resources Commission.

At the 1957 session of the Legislature the scope of the Commission was widened considerably, and it began functioning with a program designed to deal effectively with water supplies and wastes disposal. There were further strengthening amendments in subsequent years.

To carry out its program the Commission employs a technical staff qualified to attend to all details concerning water and water pollution, sewage and its proper disposal, construction of water and sewage systems, availability and quality of ground waters and disposal of industrial wastes. In addition there is a laboratory staff of technicians engaged in water testing and examination of sewage and industrial wastes.

The Commission's objectives are designed to ensure maintenance of adequate public water supplies in a safe condition for domestic consumption and other uses, and to make sure that all wastes, domestic and industrial, are properly treated before being discharged into streams and lakes. These are the keystones of a forceful anti-pollution policy.

Further, the Commission is empowered to assist in the construction and financing of water and sewage works which any municipality may not wish to undertake alone. Even those works projected by municipalities on their own financial responsibility must receive Commission approval.

The taking of water from any source of supply, in certain instances, and the use of chemicals to eliminate aquatic nuisances are regulated by the Commission through permit systems.

In 1964 the Commission embarked upon a new phase of activity, under the authorization of the Ontario Government by entering the field of water pipeline construction. Under this scheme the capital cost of the pipeline and of the necessary pumping stations is financed entirely by provincial funds, with the Commission handling all other aspects such as construction, operation and the sale of water at cost to consumer municipalities along the pipeline route. As a result of Hearings held in various sections of the Province, where there have been water supply difficulties, this regional concept of supplying water is being further developed.

NIAGARA PARKS COMMISSION

NIAGARA FALLS

PERSONNEL: A corporation constituted under The Queen Victoria Niagara Falls Park Act, 1887, and taking its present name under The Niagara Parks Act, 1927, is composed of not more than eleven members appointed by the Lieutenant-Governor in Council, one of whom is designated as Chairman. There are eight regular appointments and three annual appointments—from the County of Lincoln, the County of Welland and the City of Niagara Falls.

OBJECT: To manage, control, and develop the Parks named in The Niagara Parks Act.

SCHOOL OF HORTICULTURE: The Commission operates a school for the teaching of gardening and general horticulture; a three-year course open to Canadians, with eight students entered each year.

SIGHT-SEEING FACILITIES: Empowered—(a) to acquire and operate buses and other vehicles and boats for use in connection with the Parks, and (b) to construct and operate incline railways, aerial cars, lifts and works to assist the public in reaching and viewing the points of interest in the Parks.

BUILDINGS: Constructs and operates restaurants, refreshment booths and stands for the sale of souvenirs and other wares.

DEVELOPMENT OF PARKS: Lays out, plants, and encloses the Parks.

SERVICES: Constructs and maintains facilities for the convenience of the public. Makes agreements with persons with respect to the establishment or operation by them of any works or services in connection with the Parks.

ONTARIO RACING COMMISSION

The Commission is charged with the duty of governing, directing, controlling and regulating horse racing in Ontario in all its forms.

The Commission makes an annual report to the Provincial Treasurer and a copy of this report will be mailed on request to anyone interested in the activities of the Commission.

DEPARTMENT OF UNIVERSITY AFFAIRS

Minister: THE HONOURABLE WILLIAM G. DAVIS
Q.C., B.A., LL.D.

The Department of University Affairs, established by Act of the Ontario Legislature on May 8, 1964, has responsibility for the administration of government policies in respect to the expansion of and assistance to the universities of the Province.

The Minister is responsible for the Department and is advised and assisted by a Deputy Minister.

ACCOUNTS BRANCH

This branch provides the financial controls for the Department. In addition to this financial function it is responsible for the purchase of supplies and equipment and the administration of office services. It also preforms the personnel services of the Department.

ARCHITECTURAL SERVICES BRANCH

This branch is responsible for receiving proposals for new capital projects and for giving consideration to the amount of financial assistance to be provided by the Province. Plans are submitted by the universities for purposes of assessing the extent of the capital support to be provided.

FINANCE BRANCH

This branch is responsible for working with university officials in studies of their financial requirements. These studies include cost studies, analysis of data and submissions made by the universities, and payment of capital funds provided through the Ontario Universities Capital Aid Corporation.

RESEARCH BRANCH

This branch is responsible for carrying out studies of trends in this Province, in the rest of Canada and in other countries, which may have implications for the development and expansion of higher education in Ontario. These studies include population growth in particular areas, need for professional personnel to meet the requirements of our expanding economy, the proportion of students proceeding to higher education, the accommodation to be provided, and the like. All this is done in collaboration with the many agencies now operating independently so that a co-ordinated plan of the requirements can be made available to assist in the development of institutions and programmes to meet the needs.

STUDENT AID

This branch administers the various assistance programmes provided through the Department including the Ontario Graduate Fellowship Programme, the Queen Elizabeth II Scholarships, and the Canada Student Loans Plan. It is also responsible for the allocation of funds from the Scholarship, Bursary and Loan Assistance Fund. The branch works in close co-operation with officials in the universities who administer the student aid within the institutions. At the same time, liaison is maintained with organizations such as the Canada Council, the National Research Council and the Woodrow Wilson Foundation which have programmes of scholarships and fellowships to assist students to continue their education.

COMMITTEE ON UNIVERSITY AFFAIRS

Chairman: THE HONOURABLE DANA PORTER

The Committee on University Affairs is charged with responsibility for studying matters concerning the establishment, development, operation, expansion and financing of universities of Ontario and making recommendations thereon to the Minister of University Affairs for the information and advice of the Government.

Publications

- * When copies of more than six different acts or publications are requested, a reasonable explanation as to use should be given.
- * When a request is made for more than one copy of an act or publication, an explanation should be given as to the specific use because of possible short supply and in the interests of economy.
- * Remittances made payable to the Provincial Treasurer of Ontario should accompany requests for publications for which there is a charge as noted.

ONTARIO DEPARTMENT OF AGRICULTURE

This list can only be up-to-date at the time it is printed. Immediately thereafter there will be deletions due to unexpected demands and additions as new supplies are acquired throughout the year.

HOW TO OBTAIN ONTARIO DEPARTMENT OF AGRICULTURE PUBLICATIONS

This list gives the titles, classified by subject, of publications of the Ontario Department of Agriculture. To avoid waste of expensive printed matter, only publications actually needed and useful to you should be requested.

ONTARIO RESIDENTS may order single copies of up to ten separate publications. Publications are sent only to persons who individually request them.

RESIDENTS OF OTHER PROVINCES are urged to contact their Provincial Department of Agriculture, as they are more likely to have similar publications containing information more applicable to local conditions. The Information Division, Canada Department of Agriculture, Ottawa, also has publications available.

TEACHERS may obtain copies of publications for classroom or library use. These copies become the property of the school or its library. The number of copies of publications printed does not permit the supplying of school children with free individual copies for their own personal use.

LIBRARIES will be sent single copies of any number of publications, upon request. Additional copies in limited numbers can usually be sent if needed.

COMMERCIAL FIRMS AND ORGANIZATIONS may obtain up to five copies of any one publication free. If available, additional copies may be purchased. All purchase requests must be directed to the Director, Information Branch, Ontario Department of Agriculture, Parliament Buildings, Toronto 2, Ontario. Money orders or cheques must be made payable to the Treasurer of Ontario. Postage stamps are not accepted as payment.

PUBLICATIONS LIST. A general mailing list is maintained, not for distributing publications but for distributing the list of publications as revised periodically.

Publications marked FOR SALE ONLY can be purchased by sending a cheque or money order, made payable to the Treasurer of Ontario, together with the order, to the Information Branch at the address listed below.

Commercial firms and organizations may purchase bulk quantities if available. All purchase requests should be directed to the Director, Information Branch, Ontario Department of Agriculture, Parliament Buildings, Toronto 2, Ontario, to find out if quantities are available and the cost per copy. Money orders (as above) are to accompany orders.

ORDERING PUBLICATIONS

Publications may be obtained from the:

*Information Branch,
Ontario Department of Agriculture,
Parliament Buildings,
Toronto 2, Ontario*

or your local Agricultural Representative. (See pages 251 and 252.)

Please do not use this list as a check sheet. Your request for publications should be made on a postcard or letter.

APICULTURE

SOIL SURVEYS OF ONTARIO

Requests for information on Soil Surveys should be directed to Department of Soil Science, Ontario Agricultural College, Guelph, Ontario.

Soil Surveys have been conducted by the Ontario Agricultural College, in co-operation with the Research Branch, Canada Department of Agriculture, Ottawa, in forty-three counties in Southern Ontario. Surveys have also been conducted in parts of Northern and Northwestern Ontario. Soil maps have been prepared for each of these areas, but many of them are not yet available for general distribution. The following maps and reports have been published and are available, except those listed as out-of-print. Consult your local office of the Ontario Department of Agriculture if you wish to see copies of out-of-print reports and maps.

SOIL MAP WITH LEGEND

- 1 Norfolk
- 2 Elgin
- 3 Kent (black and white)
- 4 Haldimand
- 5 Welland
- 6 Middlesex

SOIL SURVEY REPORT AND MAP

- 7 *Carleton
- 8 Northwestern Ontario, including Rainy River Clay Plain, and Dryden Area and Thunder Bay Area
- 9 Durham
- 10 Prince Edward
- 11 *Essex
- 12 Grenville
- 13 Huron
- 14 Dundas
- 15 Perth
- 16 Bruce
- 17 Grey
- 18 Peel
- 19 York
- 20 Stormont
- 21 New Liskeard-Englehart Area
- 22 Lambton
- 23 Ontario
- 24 Glengarry
- 25 Victoria
- 26 Manitoulin
- 27 Hastings
- 28 Oxford
- 29 Simcoe
- 30 Soil Associations of Southern Ontario
- 31 Parry Sound
- 33 Prescott and Russell
- 34 Lincoln
- 35 Wellington
- 36 Lennox and Addington
- 37 Renfrew
- 38 Dufferin

** Out-of-print*

In addition to the above published maps and reports, photostatic copies have been made of the following county maps and are available in black and white for

very limited distribution at a cost of \$1.00 per copy.

- 1 Brant
- 2 Peterborough South
- 3 Waterloo
- 4 Halton
- 5 Northumberland
- 6 Wentworth

- 1941. HARRY ROBSON, V.C.
- 1947. BENJAMIN HANDLEY GEARY, V.C.

CONSTITUTION AND GOVERNMENT

LEGISLATIVE POWERS

The corner-stone of the Canadian constitution is the British North America Act of 1867, to which must be added its many amendments, the Statute of Westminster, 1931, and the many rules of British constitutional usage, except in so far as they have been modified by statute in Canada. These rules are known as the conventions of the constitution. With the exception of the rights of disallowance, rarely exercised by the Dominion government, it may be said that the Legislative Assembly of Ontario acting within its legislative field is a sovereign power with absolute authority over its territory and the people and property within it.

Under the British North America Act all subject-matters of legislation are apportioned between the Dominion Parliament and the provincial legislatures. To the provinces are allocated sixteen subjects: The amendment of the constitution of the province; direct taxation within the province (for provincial revenue purposes); the borrowing of money on the sole credit of the province (for provincial revenue purposes); the establishment and tenure of provincial offices and the appointment and payment of provincial officers; the management and sale of the public lands belonging to the province; the establishment, maintenance and management of hospitals, asylums, charities and eleemosynary institutions; municipal institutions; shop, saloon, tavern, auctioneer and other licences (to raise a revenue for provincial, local or municipal purposes); local works and undertakings; the incorporation of companies with provincial objects; the solemnization of marriage; property and civil rights; the administration of justice; the imposition of punishment by fine, penalty or imprisonment for enforcing any law of the province made in relation to any matter coming within any of the classes of subjects enumerated in this section; generally all matters of a merely local or private nature in the province. In addition the provinces are given exclusive power over education while certain subject matters, such as agriculture and immigration, may be dealt with concurrently by the Dominion and the provinces.

The Federal Parliament possesses the general residuum of powers and in order to make that residuary aspect clearer but not to restrict its general nature, Parliament is given power over thirty enumerated subjects "notwithstanding anything in the (B.N.A.) Act."

The division of legislative powers has been the subject of a great deal of litigation in the provincial courts, the Supreme Court of Canada and the Judicial Committee of the Privy Council. The resulting judgments form a large part of the constitutional law of Canada and no study of legislative powers can be made without recourse to them.

LEGISLATIVE ASSEMBLY

The Legislative Assembly of Ontario is uni-cameral, consisting at the present time of 108 members elected by popular vote, with full authority to make such laws as it sees fit with respect to its rights and privileges and to legislate within its jurisdiction as fully as can the Imperial Parliament itself.

The rules and practice of procedure in the Legislative Assembly are based upon and follow closely the rules evolved during the course of centuries by the House of Commons of the United Kingdom.

GOVERNMENT

Executive authority in Ontario is vested in the Crown represented by the Lieutenant-Governor, who is appointed by the Governor-General in Council and who exercises all functions of the Crown necessary for carrying on the Provincial government.

The Lieutenant-Governor, together with a cabinet of ministers elected from the political party in power, and appointed by him on the recommendation of the Prime Minister, form the government of the Province which functions in accordance with British precedent. While the Lieutenant-Governor is the formal and legal executive authority of the Crown, he must act on the advice of his ministers in accordance with the conventions of the constitution.

It is the cabinet or Executive Council that really carries on the government and it remains in power as long as it retains the confidence of the Legislature.

The business of the Province is carried on by a number of government departments, each of which is headed by a cabinet minister, who is responsible to the Legislature.

See page 299, Composition of Government

COURTS

The Province has power to constitute, organize and maintain courts of both civil and criminal jurisdiction but can regulate the procedure in civil matters only. All aspects of criminal law are retained by the Dominion. The Governor-General in Council has exclusive authority to appoint judges in the Superior, County and District Courts, while minor judicial appointments such as magistrates, justices of the peace, sheriffs, clerks of the peace, crown attorneys and coroners lie within provincial jurisdiction. The salaries of the former group are paid by the Dominion and they hold office during good behaviour. The salaries of the latter are

paid by the Province or the municipalities in which they act and hold office during pleasure, except that magistrates after two years' tenure hold office during good behaviour and capacity.

DIVISION COURTS

The Division Courts are presided over by County Court Judges and have a civil jurisdiction: Money claims on contracts up to \$400 where the amount in question is ascertained; \$200 in unascertained claims; and \$200 in personal actions which may be increased to \$400 where the parties consent. In cases involving more than \$100 an appeal lies to the Court of Appeal for Ontario. These courts are located in both small and large centres throughout Ontario and the procedure therein is designed to adjudicate matters quickly and with a minimum of expense.

COUNTY AND DISTRICT COURTS

The County Courts have a civil jurisdiction in contracts up to \$1,200 and in other actions, with some few exceptions, up to \$1,000. Sittings, either with or without jury, are held at least semi-annually in each county and district town.

SURROGATE COURTS

County Court Judges are invariably named by the Lieutenant-Governor in Council as Judges of the Surrogate Courts. They are located in county and district towns and have a wide jurisdiction with respect to the granting and revoking of letters, probate of wills and letters of administration of the property of deceased persons.

SUPREME COURT OF ONTARIO

This is the highest Provincial court. It consists of two branches, the High Court of Justice and the Court of Appeal. The High Court has, apart from the Division and County Court fields, original jurisdiction in both civil and criminal matters. Its Judges, with headquarters at Osgoode Hall, Toronto, travel on circuit throughout Ontario holding assizes for criminal matters and both jury and non-jury sittings in civil cases. The Court of Appeal which sits permanently at Osgoode Hall, hears appeals in civil matters from Division Courts, the County Courts and the High Court of Justice and also various types of appeals in criminal cases.

CRIMINAL COURTS

Here may be mentioned the Magistrates' Courts, the County Judges' Criminal Courts, the General Sessions of the Peace, the Supreme Court

of Ontario and the Supreme Court of Canada, all of which exercise original or appellate jurisdiction in criminal matters. Although most criminal charges are tried by a magistrate or judge without a jury, the right of the accused to elect to be tried by a jury in all important cases is a right that is carefully preserved, and even when the accused has elected to be tried without a jury every opportunity is given him to re-elect if he so desires.

FURTHER APPEALS

While the Provincial judicial system ends in the Court of Appeal, it is to be noted that a further appeal may lie to the Supreme Court of Canada in both Civil and criminal cases, under statutory regulation of the Dominion Parliament, with which the Province cannot interfere.

—“A Conspectus of the Province of Ontario”

A POLITICAL HISTORY OF ONTARIO FROM CONFEDERATION

Upon the passing the British North America Act, March 29, 1867, and the formation of the Dominion of Canada, the Province of Canada was divided into the Province of Ontario and the Province of Quebec. At Confederation, July 1, 1867, the four original provinces were Ontario and Quebec with the Maritime Provinces of Nova Scotia and New Brunswick.

During the political vicissitudes of those strenuous years which eventually led up to the passing of the British North America Act in 1867 and the formation of the Union, the Hon. John Sandfield Macdonald had taken part largely in the public life of the country, from the time he entered the Parliament of Old Canada in 1841. A reformer of marked independence, he had opposed a federal union of the provinces, when leading men of both parties were struggling toward that end, but being sponsored by Sir John A. Macdonald, the first Prime Minister of the Dominion and the acknowledged leader of that great movement, he had accepted the task of the formation of the first government of the new province of Ontario. It was a coalition government.

MacDONALD MINISTRY, 1867-1871

In order to foster and encourage the building of railroads in the Province, the government passed an act in 1871, 34 Vic., Cap 2, whereby \$1,500,000 was set apart for this purpose.

Although law stamps had been in use formerly, this Act authorized

the first issue of Province of Ontario law stamps which are issued by the Treasury Department upon purchase by the authorized law stamp distributors.

The Ontario Drainage Act was passed by 32 Vic., Cap 28, in 1868, followed by 33 Vic., Cap. 2, in 1869, the Province being authorized to advance public monies, not to exceed \$200,000, to be expended on drainage.

BLAKE MINISTRY, 1871-1872

The passing of the John Sandfield Macdonald government was followed by Hon. Edward Blake as Premier, with Hon. Alex Mackenzie as Provincial Treasurer. All railway grants were to be ratified by the Legislature. Dual representation was done away with during the Blake administration. Several members of the provincial government left to enter the Dominion Government.

MOWAT MINISTRY, 1872-1896

The Blake Ministry was of short duration, however, as both Blake and Mackenzie, in those days of dual representation, became largely identified with the Dominion Government opposition and there was a reconstruction in the Cabinet, the Hon. Oliver Mowat succeeding as Premier and the Hon. Adam Crooks as Provincial Treasurer in 1872.

OLD PARLIAMENT BUILDINGS, FRONT STREET

The old buildings occupied by the Legislature and government department had long been antiquated and inadequate.

They were located on Front Street West, Toronto, overlooking the Bay, and the Treasury Department occupied a portion of the lower floor of the east wing. This building, a long low red-brick structure, standing in a block of land of some nine or ten acres, bounded by Front, John, Wellington and Simcoe Streets, had been erected as Parliament Buildings in 1832, at a cost of some £10,000.

NEW LEGISLATIVE BUILDINGS

In 1880, an Act was passed which provided for the erection of new legislative buildings. A sum of \$500,000 was appropriated and the money received from the sale of the old site and a property of eighty acres were to form a building fund. By 48 Vic., Cap. 6, the appropriation was increased to \$750,000 in 1885, and to \$1,050,000 in 1887 by 50 Vic., Cap. 3, and to \$1,250,000 in 1891 by 54 Vic., Cap. 4. Beyond some

preliminary work, nothing was done until 1887, when the first large expenditure began. Work continued in 1888 to 1893 when the building was finally completed; the government and departments moved to the new buildings in that year (1893).

Up to December 31, 1893, the cost of the new legislative buildings for construction was \$1,300,017.17, and the interior fittings, elevators, walks, etc., cost \$162,730.56. The total cost of the new legislative buildings is given as \$1,501,446.68 in the "Report of the Royal Commission on the Financial Position of the Province of Ontario."

The site for the new buildings in Queen's Park was obtained from the City of Toronto, in an agreement made with the government, February 18, 1880. Thirty thousand dollars was paid for the purchase of the old asylum premises, which occupied a portion of the site, to the University of Toronto, 1888.

GRANT TO UNIVERSITY OF TORONTO, 1890

A grant of \$160,000 was authorized by 54 Vic., Cap 73, assented to April 7, 1890, to the University of Toronto, to aid in the reconstruction of the building, which had been partially destroyed by fire.

SUCCESSION DUTIES ACT, 1892

The Succession Duties Act was passed by 56 Vic., Cap. 6, assented to April 14, 1892, the duties to become due within eighteen months from July 1, 1892. The receipts under this Act were by the Act itself allocated to the support of hospitals and asylums. The Act has been amended, since its inception, by various governments and, although a resource that may not well be estimated for any one year, large revenues are received annually.

HARDY MINISTRY, 1896-1899

A number of important changes occurred in the year 1896. Sir Oliver Mowat, who had been Premier of Ontario since 1872, resigned in July, 1896, to become Minister of Justice in the Dominion Cabinet and in 1897 was appointed Lieutenant-Governor of Ontario. He was succeeded by Hon. A. S. Hardy, who had long been identified with the government, having held Cabinet positions since 1877 as Provincial Secretary and later as Minister of Crown Lands.

ACT TO SUPPLEMENT THE REVENUES OF THE CROWN, 1899

An Act to supplement the revenues of the Crown, in the Province of Ontario, was passed by 62 Vic., Cap. 8, assented to April 1, 1899, under

Premier Hardy. This was to come into force immediately upon the passing thereof. This was an Act imposing a tax upon banks, insurance companies, loan and trust companies, railways, gas and electric companies, etc.

ROSS MINISTRY, 1899-1904

On account of failing health, after a long and severe illness, the Hon. A. S. Hardy retired in 1899. He was appointed Clerk of Process and Surrogate Clerk at Osgoode Hall, October 17, 1899. He held these positions until the year 1901.

In the reconstruction of the Cabinet, the Hon. G. W. Ross, who had been Minister of Education since 1883, became Premier and Provincial Treasurer, being sworn in October 21, 1899. The holder of this latter portfolio, the Hon. Richard Harcourt, assumed the portfolio of Minister of Education.

ROYAL COMMISSION ON FINANCE, 1899

The question of the finances of the Province, including the existence of a much-discussed surplus, had become a very sorely disputed topic by this time and, in 1899, a Royal Commission on the financial position of the Province was appointed.

PROVINCIAL DRAINAGE ACT

An Act called the "Provincial Drainage Act," 63 Vic., Cap. 6, was assented to April 30, 1900. The subject of the Act was to supplement the drainage of low-lying lands, by constructing work such as outlets, main channels, trunk-sewers, etc., and to further aid the municipalities which had expended large sums by the issue of debentures.

SUGAR BEET INDUSTRY GRANT

A special fund was set apart in 1901, by 1 Edwd. VII, Cap. 11, for the purpose of encouraging the growth of sugar beets and the establishment of factories in the Province for the manufacture of refined sugar therefrom. In 1904, by Edwd. VII, Cap. 9, the bounty of \$75,000 per annum was extended for two years more, making \$375,000 in all, and the payments to producers was made to read "annually during the first five years' operations of such factory, at the rate of one-half per cent per pound for the product of such factory."

ELECTIONS, MAY 29, 1902

The elections of 1902 were exceedingly close and different figures were given as the result. The published report named 51 Liberals and 44 Conservatives, but there were contested seats and by-elections and great uncertainty existed during the remaining sessions, the political atmosphere was most tense, with constant conflict in the House. The government, however, remained in power, though each session was a battle, with slender majorities.

TAX ON AUTOMOBILES, 1903

A tax was imposed on automobiles in 1903, 3 Edwd. VII, Cap. 27, the licence fee being \$2. This revenue was received through the Provincial Secretary's Department. This Act has been amended from time to time and the revenue, which is very large from this source, is collected by the Department of Transport.

MUNICIPAL POWER COMMISSION, 1903

Such legislation was passed, by 3 Edwd. VII, Cap. 25, in 1903, and Adam Beck was included in such Commission of the Municipalities to investigate all such matters.

T. & N.O. RAILWAY ACT, 1902-1903

An Act was passed March 17, 1902, by 2 Edwd. VII, Cap. 9, amended by 3 Edwd. VII, Cap. 4, authorizing the construction of the T. & N.O. Railway, the appointment of a Board of Commissioners, and the issue of bonds to raise the money for such purposes. The road was to be constructed from North Bay to Lake Temiskaming, construction having been started in 1902. A bond issue was attempted, but the offers were unsatisfactory to the government and this was withdrawn. The banks advanced money to the Commission. Up to November 30, 1904, the banks had advanced \$2,295,000 in this way and the government had advanced \$1,693,000 from the Consolidated Revenue Fund. The government then arranged a sale of treasury bills, in London, England, for £1,200,000.

The advances made by the Province and the banks were then paid off, with interest, and there remained the sum of \$1,354,686.02 available for further construction of the railway.

WHITNEY MINISTRY, 1905-1914

ELECTIONS, JANUARY 25, 1905

The election of 1905 resulted in the complete overthrow of the Liberal

administration, which had been in power for thirty-two years. The return showed: Conservatives, 69, and Liberals, 29.

The Hon. James Pliny Whitney (Sir James in 1908), who had been leader of the Conservative Party in Ontario since 1896, was called upon to form his Cabinet.

HYDRO-ELECTRIC POWER COMMISSION APPOINTED, 1906

The great project of supplying light and power through public ownership had its inception in 1906, by the Act assented to May 14, 6 Edwd. VII, Cap. 15, which was superseded by 7 Edwd. VII, Cap. 19, in 1907.

ELECTIONS, JUNE 8, 1908

The elections of 1908 resulted in the return of 89 Conservatives, 16 Liberals and 1 Independent, being by far the largest majority in the history of the Province up to this period.

FISCAL YEAR TO END OCTOBER THE THIRTY-FIRST

This change was made in 1909 under authority of Edwd. VII, Cap. 77, assented to March 29, the Public Accounts of 1909 were for ten months only, January 1, 1909 to October 31, 1909.

NEW NORTH WING OF LEGISLATIVE BUILDINGS, 1909

By 1909, the demand for increased space was becoming urgent and the government decided to enlarge the buildings by the addition of a north wing suitable for a new library and two departmental flats.

FIRE IN WEST WING OF BUILDING, 1909

On September 1, 1909, a fire took place in the west wing of the Legislative Building. All the upper floors, including the Library, were destroyed.

WORKMEN'S COMPENSATION ACT, 1914

The Workmen's Compensation Act, 4 Geo. V, Cap 25, was passed in 1914. A board was established to assess and levy upon employers sums sufficient to pay compensation in cases of accident. The fund has proven of inestimable value to the great body of working men, their families and dependents, throughout the Province.

DEATH OF PRIME MINISTER WHITNEY, 1914

The Honourable Sir James Pliny Whitney, K.C., who had been in failing health for some time, died on September 25, 1914.

HEARST MINISTRY, 1914-1919

A reconstruction of the Cabinet followed after the death of Sir James Whitney, and Hon. W. H. Hearst (later Sir William), who had been Minister of Lands, Forest and Mines, succeeded as Prime Minister of the Province.

DEPARTMENT OF PUBLIC HIGHWAYS CREATED IN 1915

In 1915, under an Act, 5 Geo. V, Cap. 17, a Department of Public Highways was created. This was under the Minister of Public Works, and provision was made for the appointment of a Deputy Minister of Highways.

The Provincial Highways Act came into force in 1917.

ONTARIO TEMPERANCE ACT, 1916

The Ontario Temperance Act was assented to, April 27, 1916, by 6 George V, Cap. 50, to come into force at seven o'clock in the afternoon of Saturday, September 16, 1916. This Act removed all liquor licences in Ontario.

AMUSEMENT TAX ACT, 1916

Provincial Treasurer McGarry brought in a Bill, which was assented to April 27, 1916, 6 Geo. V, Cap. 9, wherein a tax was imposed upon patrons of amusements, in theatres, moving picture houses, ball parks, etc., the rates and regulations to be arranged by Council.

PURCHASE OF WATER POWER COMPANIES

A very important act of legislation was passed in 1916, by 6 Geo. V, Cap. 18, whereby the government acquired the assets and undertaking of twenty-two power companies from the Electric Power Company, who had control of the shares and capital stock of these corporations.

TEACHERS' AND INSPECTORS' SUPERANNUATION FUND, 1917

In 1917, the Teachers' and Inspectors' Superannuation Act was passed by 7 Geo. V, Cap. 58. The object of the Act was to establish a fund

which was to consist of contributions and payments by school teachers and inspectors throughout Ontario supplemented by an annual grant from the Province.

EXTENSION OF THE DURATION OF THE LEGISLATIVE ASSEMBLY, 1918

An Act was passed by 8 Geo. V, Cap. 4, assented to March 25, 1918, extending the duration of the Legislature and making it unnecessary to hold any general election until after the close of the War, the return of the Canadian forces, and until one year had elapsed and a session of the Legislature held after a date certified by the Minister of Militia and Defence, to be the date of the return of the last of such forces. This Act was passed with unanimous approval of the whole House.

NORTHERN AND NORTH-WESTERN ONTARIO DEVELOPMENT ACT, 1918

The further sum of \$6,000,000 was set apart, in addition to the same amount in 1912, for Northern and North-Western Ontario development, by 8 Geo. V, Cap. 8.

VOTES EXTENDED TO WOMEN, 1918

An Act was passed, March 26, 1918, by 8 Geo. V, Cap. 8, extending the franchise at general provincial elections to women.

ONTARIO TEMPERANCE ACT AMENDED, 1919

By 9 Geo. V, Cap. 60, assented to April 24, 1919, the Licence Board was empowered to establish and maintain a head office in Toronto and appoint sales agencies in the Province, and provision was made for a central warehouse for the receipt and distribution of liquor, which might under the Act be issued.

The administration of the Ontario Temperance Act, which was passed in 1916, was under the Provincial Secretary until it was afterwards placed under the jurisdiction of the Attorney-General, Hon. W. R. Raney, in 1921, during the U.F.O. regime.

DRURY MINISTRY, 1919-1923

The elections of October 20, 1919, resulted in a complete surprise. While the United Farmers' movement was known to have a considerable following, it was not thought to be of great strength as compared with the two old parties, who had, up to this time, been in control of affairs in the Province. The Hon. E. C. Drury, upon forming his Cabinet, made

a considerable number of changes. The Department of Lands, Forests and Mines was divided and a separate Department of Mines constituted, 10-11 Geo. V, Cap. 12.

The Labour Party, in the House, was recognized by the formation of a Department of Labour and Health, this work having been carried on under the Public Works Department and the Provincial Secretary's Department, respectively. Provision had been made for a Minister of Labour and a Department of Labour, during the Hearst Ministry.

MOTHERS' ALLOWANCE ACT, 1920

The previous government under Sir William Hearst had procured the information upon which a Mothers' Allowance Act was based and had made preparations to submit this at the following session of the Legislature, but the change of government occurred and the Act was finally passed by 10-11 Geo. V, Cap. 89, assented to June 4, 1920.

FERGUSON MINISTRY, 1923-1930

ELECTIONS, JUNE 25, 1923.

The elections of June 25, 1923, had three parties in the field and resulted in the overthrow of the U.F.O. government and the return to power of the Conservative Party, with a very large majority.

Hon. G. Howard Ferguson, who had been a member of the Legislature for a number of years, Minister of Lands, Forests and Mines during the Hearst regime, and leader of the Conservative Party in Ontario for the four preceding years, was called on to form his Cabinet.

DEPARTMENT OF HEALTH ESTABLISHED, 1924

In 1924, by 14 Geo. V, Cap. 69, the Department of Labour and Health was divided and a separate Department of Health established, to be presided over by the Minister of Health.

RESEARCH FOUNDATION, 1928

An Act of far-reaching importance was passed in 1928, 18 Geo. V, Cap. 57, whereby a corporation was established to be known as the Ontario Research Foundation. The objects were to be the carrying out of research work and investigations into the discovery and improvement of the industries, natural resources, processes, etc., for the general welfare of the Province.

OLD AGE PENSIONS, 1929

In the year 1929 an Act was passed which was of vital importance to a poor and deserving portion of the community of Ontario. This was cited as "The Old Age Pensions Act, 1929," 19 Geo. V, Cap. 73, and was pursuant to an Act of Parliament of Canada in which an option was given to the Province that, upon entering a general scheme of Old Age Pensions, the Dominion government would be liable for payment of one-half of the expenditure.

GENERAL ELECTION, OCTOBER 30, 1929

The result of the general election, 1929, was the return of the Ferguson Administration by the largest majority in the history of the Province. The only comparable instance was the return of the late Prime Minister Whitney, in 1908. The returns showed: Conservatives, 92; Liberals, 13; Progressives, 3; U.F.O., 1, and Labour, 1.

LEGISLATIVE ASSEMBLY ACT, 1930

By 20 Geo. V, Cap. 4, in 1930, the duration of the Legislative Assembly was extended from four to five years.

NEW DEPARTMENT OF PUBLIC WELFARE CREATED, 1930

The work in the Provincial Secretary's Department was relieved by the transfer of certain services to the Department of Health and by the creation of a new department to be known as the Department of Public Welfare.

HENRY MINISTRY, 1930-1934

The Hon. G. Howard Ferguson, Prime Minister of Ontario, resigned from the government on December 15, 1930, having been appointed High Commissioner for Canada in London, England.

The Hon. Geo. S. Henry, who had been a member of the Legislature for over seventeen consecutive years and had Cabinet rank for many years, was sworn in at Government House as Prime Minister, to succeed Hon. G. Howard Ferguson, on December 16, 1930.

HEPBURN MINISTRY, 1934-1943

The provincial election of June 19, 1934, resulted in the election of the Liberal Party of Ontario to power, under the leadership of Honourable Mitchell F. Hepburn. The results were as follows: Liberals, 71; Conservatives, 17, and Independents, 2.

The Department of Municipal Affairs was established in September of 1934.

One of the most constructive acts of the new government was to change the period of the fiscal year from November 1 – October 31, to April 1 – March 31.

DOMINION-PROVINCIAL CONFERENCE

The Dominion Government called a conference of all the provinces to meet at Ottawa, December 9, 1935. Six sub-committees were formed to discuss the following agenda: B.N.A. amendments; financial relationships, including taxation; unemployment and relief including co-ordination of social services; mining development and taxation; agriculture and marketing and tourist trade promotion.

NEW PERSONAL INCOME TAX

The municipalities lost the right to levy income tax. The provincial Act was modelled after that of the Dominion and Ontario rates were one-half of those levied by the Dominion. Ontario allowed as a deduction the tax payable to the Dominion before computing the Ontario tax. An Act to reimburse municipalities in respect to income tax was passed to reimburse them for the loss of revenue incidental to the taking over of the income tax by the Province.

OLD AGE PENSIONS AND MOTHERS' ALLOWANCES

Effective April 1, 1937, the government relieved the municipalities of their ten per cent share of the cost of Old Age Pensions and also the fifty per cent cost to Mothers' Allowances.

PENSIONS FOR THE BLIND, 1936

Concurrent legislation was entered into with the Dominion government granting pensions to the blind. This was to become effective as soon as possible.

ELECTION, OCTOBER 12, 1937

The Liberal Party was returned to power. Results: Liberals, 66; Conservatives, 23, and Independents, 1.

DURATION OF LEGISLATURE, 1942

At the 1942 session of the Legislature, a bill was passed extending the duration of the Legislative Assembly until October 19, 1943. The bill was given Royal Assent on April 15, 1942.

DREW MINISTRY, 1943-1948

At the elections for the Provincial Legislature held on August 4, 1943, the Progressive Conservative Party assumed power with 39 out of 90 seats. (C.C.F., 34; Liberal, 14; Labour, 2; Independent Liberal, 1).

DEPARTMENT OF PLANNING AND DEVELOPMENT, 1944

Its function was to collaborate with the other government departments, in Ontario, the Dominion, the other provinces, municipal councils and public and private enterprise, with a view to formulating plans to create, assist, develop and maintain productive employment and to develop the human and material resources of the Province.

EDUCATION

Provincial grants were increased, which resulted in lower costs for the municipalities and the extension of education.

ELECTION, JUNE 4, 1945

The Progressive Conservatives obtained 66 seats, giving a larger working majority in the Legislature.

TRAVEL AND PUBLICITY, 1946

This Department was created in recognition of the importance of the tourist trade to the Province and to the Dominion.

DOMINION-PROVINCIAL RELATIONS

Interest has been shown in the Dominion-Provincial Conferences, in the meetings of the Co-ordinating Committee and plenary sessions.

MUNICIPAL SUBSIDIES

By amendments to the Highways Improvement Act, it was proposed to pay subsidies to cities, towns and villages, to reimburse them in part, for their expenditure on municipal roads.

REFORM INSTITUTIONS, 1946

An Act respecting the Department of Reform Institutions came into force April 1, 1946. A department was set up to deal with certain institutions which before came under the administration of the Provincial

Secretary. Reform rather than punitive methods is to be stressed in these institutions.

LANDS AND FORESTS, 1947

By an Act amending the Game and Fisheries Act, assented to on April 3, 1947, the administration of the Act is to be under the Department of Lands and Forests.

ELECTION, JUNE 7, 1948

The Progressive Conservatives were returned to power with 53 seats; the C.C.F., 21; Liberals, 14; Labour Progressives, 2. Later, the Progressive Conservative member for Parry Sound, died; a by-election was held December 9 in which the Progressive Conservative was returned. The Progressive Conservative member for Cochrane North died after the general election as a result of injuries in an accident; the standing in February, 1949, being: Progressive Conservatives, 52; C.C.F., 21; Liberals, 14; Labour Progressives, 2; Vacant (Cochrane North) 1.

The programme of Immigration of residents of Britain, commenced in August, 1947, brought 10,000 Britishers to the province up until the programme was concluded in the fall of 1948. Capital grants were made to hospitals aiding in construction of additional hospital beds; grants to school boards were \$34,250,000, which aided construction of new schools; new pulp towns were established in Northern Ontario, a forestry inventory was underway; the Cabinet Office was established within the Provincial Secretary's Department.

KENNEDY MINISTRY, 1948-9

Hon. George A. Drew resigned as Prime Minister on October 19, 1948, to assume his new duties as leader of the Dominion Progressive Conservative Party.

Hon. Thomas L. Kennedy, Minister of Agriculture, a member of the Legislature for many years, was sworn in as Prime Minister on the same day by His Honour, Lieutenant-Governor Ray Lawson.

FROST MINISTRY, 1949-1961

Hon. Leslie M. Frost, Provincial Treasurer and Minister of Mines, who had been chosen Leader of the Progressive Conservative party in Ontario at a convention, held in April, was sworn in as Prime Minister and Treasurer on May 4, 1949. Hon. Thomas L. Kennedy, who had resigned as Prime Minister, continued with the portfolio of Minister of

Agriculture. Hon. Welland S. Gemmell was sworn in as Minister of Mines.

A by-election was held in the riding of Cochrane North on June 8, 1949, in which Marcel Leger, Progressive Conservative, was returned as member.

On July 15, 1949, Hon. William E. Hamilton was sworn in as Minister of Reform Institutions. Hon. George H. Dunbar, who had been Minister of Reform Institutions, continued as Minister of Municipal Affairs.

A by-election was held in the riding of Leeds on October 31, 1949, in which Hugh A. Reynolds, Progressive Conservative, was returned as member.

On August 8, 1950, Hon. Russell T. Kelley, Minister of Health, resigned due to ill-health. On the same day, Dr. Mackinnon Phillips, member for Grey North, was sworn in as Minister of Health by Hon. Ray Lawson, Lieutenant-Governor. Hon. Mr. Kelley remained as a member of the Executive Council as Minister without portfolio, and also continued as member in the Legislature for Hamilton-Wentworth.

On November 16, 1950, Hon. William E. Hamilton, Minister of Reform Institutions, resigned, necessitated by his appointment to the vice-presidency and Canadian general managership of the Paul Revere Life Insurance Co., of Worcester, Mass. Rev. Major John W. Foote, V.C., member for Durham, was sworn in as Minister of Reform Institutions on the same day before Hon. Ray Lawson, Lieutenant-Governor. Mr. Hamilton continued as member for Wellington East and also as Minister-without-portfolio. Premier Frost said that Hon. Mr. Foote had retired as deputy chief commissioner of the Liquor Control Board but would continue to do the important work in which he is engaged relating to the cure and rehabilitation of alcoholics.

On Tuesday, October 2, 1951, Premier Leslie M. Frost announced the appointment of Dr. William James Dunlop as Minister of Education, and of Fletcher Stewart Thomas, member for Elgin, as Minister of Public Works. Hon. Dana Porter, Q.C., who had been Minister of Education and Attorney-General, continued in the latter portfolio and Hon. George H. Doucett, who had been Minister of Highways and Public Works, continued to direct the former portfolio. Hon. Mr. Doucett was also named chairman of the Treasury Board, along with Mr. Porter and Mr. William E. Hamilton, Minister without portfolio. The new Ministers were sworn into office before Hon. Ray Lawson, Lieutenant-Governor, on the same day.

ELECTION, NOVEMBER 22, 1951

In the general election held Thursday, November 22, 1951, the Progressive Conservative party was returned to power with one of the

largest majorities on record in the Province's history. The result by party was (the number of seats by parties prior to the election being shown in parenthesis): Progressive Conservative 79 (53); Liberal 7 (13); C.C.F. 2 (21); Liberal-Labour 1 (1); Labour Progressive 1 (2).

On June 3, 1952, the resignation of Hon. Harold R. Scott, Minister of Lands and Forests, was accepted, Prime Minister Leslie M. Frost announced. Hon. Welland S. Gemmell, Minister of Mines, assumed the portfolio of Minister of Lands and Forests, and Mr. Philip T. Kelly, member for Cochrane North, was sworn in as Minister of Mines before Lieutenant-Governor Louis O. Breithaupt. Mr. Scott continued in the Cabinet as Minister without portfolio.

CABINET CHANGES, 1953

On Tuesday, January 20, 1953, Premier Leslie M. Frost announced the acceptance of the resignation of Hon. Thomas L. Kennedy as Minister of Agriculture. Mr. Kennedy would remain as member for Peel in the Legislature.

Hon. Fletcher S. Thomas, Minister of Public Works, was appointed Minister of Agriculture; Hon. William Griesinger, Minister of Planning and Development, was appointed Minister of Public Works, and Hon. William K. Warrender (Hamilton Centre) Minister of Planning and Development. All took the oaths of office before Hon. Louis O. Breithaupt, Lieutenant-Governor.

BY-ELECTION, 1953

In a by-election held on October 26, 1953, in the riding of Niagara Falls, Mr. Arthur Jolley, Progressive Conservative candidate, was elected with 10,338 votes; Grant Donald, Liberal, 7,205; Pat Spain, C.C.F., 2,768; Mary Price, Lab.-Prog., 286. The by-election was called due to resignation of William L. Houck, Liberal, who had resigned to contest the riding of Niagara Falls in the Federal election. The victory gave the Progressive Conservatives a total of 80 Legislature seats.

BY-ELECTION, FEBRUARY, 1954

On February 8, 1954, a by-election was held in the riding of Simcoe East, due to the death of Dr. John D. McPhee, Progressive Conservative, who had represented the riding for some years. The riding was retained by the Progressive Conservatives with the result being: Lloyd Letherby, Progressive Conservative, 7,715; William Moore, Liberal, 4,929; Wilfred Hoult, C.C.F., 1,444.

CABINET CHANGE, 1954

Due to the death of Hon. Welland S. Gemmell, member for Sudbury and Minister of Lands and Forests, Mr. Clare Mapledoram, member for Fort William, was sworn in as Minister of Lands and Forests before Lieutenant-Governor Louis O. Breithaupt on Wednesday, July 7, 1954.

BY-ELECTIONS, SEPTEMBER, 1954

On September 16, 1954, by-elections were held in the ridings of Leeds, Nipissing and Russell due to the deaths of Chas. G. MacOdrum, Wm. B. Harvey and J. Daniel Nault, all Progressive Conservatives, who represented these ridings in the Legislature. All three ridings were retained by the Progressive Conservative party as follows: James C. Auld, Leeds; John M. Chaput, Nipissing, and Gordon Lavergne, Russell.

CABINET CHANGES, JANUARY, 1955

On January 5, 1955, Premier Leslie M. Frost announced acceptance of the resignation of Hon. George H. Doucett as Minister of Highways and James N. Allan, member for Haldimand-Norfolk was sworn in before Lieutenant-Governor Breithaupt as Minister of Highways. Mr. Doucett retained his seat in the Legislature as member for Lanark.

On January 20, 1955, Premier Leslie M. Frost announced the resignation of Hon. Arthur Welsh as Provincial Secretary and chairman of the Liquor Control Board. Mr. William M. Nickle, M.B.S., M.C., Q.C., member for Kingston, was sworn in before Lieutenant-Governor Breithaupt as Provincial Secretary and William H. Collings, member for Beaches-Toronto, as chairman of the Liquor Control Board. Mr. Robert Herbert, member for Timiskaming, was also sworn in as vice-chairman of the Ontario Northland Railway Commission, succeeding the late William B. Harvey. Col. Welsh was sworn in as sheriff of Ontario County, resigning his seat as member for Muskoka-Ontario later.

On January 24, 1955, Premier Leslie M. Frost announced the appointment of Dr. Richard L. Hearn as chairman of the Hydro-Electric Power Commission of Ontario, succeeding the late Robert H. Saunders, C.B.E., Q.C., who had died earlier from injuries sustained in an airplane crash near London, Ont.

REDISTRIBUTION, MAY 22, 1955

Redistribution approved by the Legislature in 1954 became effective as of the above date. Eight seats were added making a total of 98 seats.

GENERAL ELECTION, JUNE 9, 1955

At the general election held June 9, the Progressive Conservative party, headed by Premier Leslie M. Frost, was returned to power with an increased majority. The returns showed the following: Progressive Conservatives, 83; Liberals, 11; C.C.F., 3; Independent Progressive Conservative, 1.

CABINET CHANGES, AUGUST, 1955

On Wednesday, August 17, 1955, Premier Leslie M. Frost announced he was giving up the Treasury portfolio which he had held since 1943. Hon. Dana Porter, Attorney-General, became the new Provincial Treasurer. Succeeding him as Attorney-General was A. Kelso Roberts, Q.C., member for Toronto-St. Patrick. Provincial Secretary William M. Nickle became Minister of Planning and Development, succeeding Hon. William K. Warrender appointed Minister without portfolio and 1st Vice-Chairman of the Hydro-Electric Power Commission of Ontario, replacing Hon. William E. Hamilton who had resigned. Municipal Affairs Minister Geo. H. Dunbar became the new Provincial Secretary, being replaced in the Municipal Affairs Department by Public Welfare Minister William A. Goodfellow. The Public Welfare portfolio was assigned to Travel and Publicity Minister Louis P. Cecile, and the new Minister of Travel and Publicity was Bryan L. Cathcart, member for Lambton West. The new Ministers were sworn into office on the same day before Hon. Louis O. Breithaupt, Lieutenant-Governor.

BY-ELECTION, JANUARY, 1956

On January 12, 1956, a by-election was held in the riding of Renfrew South, following the death of James S. Dempsey, Independent Progressive Conservative representative of this riding. The Progressive Conservative candidate, James A. Maloney, Q.C., was elected with the vote being: James A. Maloney, Progressive Conservative, 8,444; Nathaniel E. Lindsay, Liberal, 5,994.

CABINET CHANGES, AUGUST, 1956

On August 1, 1956, Premier Leslie M. Frost announced that Hon. William A. Goodfellow, Minister of Municipal Affairs, had been transferred to the post of Minister of Agriculture and sworn in before Lieutenant-Governor Louis O. Breithaupt, succeeding Hon. Fletcher S. Thomas who retired because of ill health but retained his seat in the Legislature for Elgin. Hon. William K. Warrender, Q.C., vice-chairman of the Hydro-Electric Power Commission, was appointed Acting Minister of Municipal Affairs.

BY-ELECTION, OCTOBER, 1956

On October 18, 1956, a by-election was held in the riding of York West to fill the vacancy caused by the death of the riding's representative, W. Elmer Brandon, Progressive Conservative. The riding was retained by the Progressive Conservatives with the vote count being as follows: H. Leslie Rowntree, Progressive Conservative, 11,089; Lynn R. Williams, C.C.F., 6,115; Arthur L. Nagels, Liberal, 4,461.

CABINET CHANGES, OCTOBER, 1956

On October 31, 1956, Premier Leslie M. Frost announced the appointment of Hon. William K. Warrender, Q.C., Minister without portfolio and vice-chairman of Hydro, as Minister of Municipal Affairs; Mr. Warrender had been acting Minister for this Department since August 1. Succeeding him as Minister without portfolio and to serve as second vice-chairman of Hydro, was Mr. Ray Connell, member for Hamilton-Wentworth. Mr. Frost also announced the appointment of Mr. James S. Duncan, former president and chairman of the board of Massey-Harris-Ferguson, as new chairman of Hydro to succeed Dr. Richard L. Hearn, who had retired as chairman but continued as consultant. Mr. W. Ross Strike, Hydro Commissioner, was appointed first vice-chairman of the Commission; Mr. David P. Cliff, secretary of the Ontario Municipal Electric Association, became non-executive commissioner of Hydro. The new appointees were sworn in the following day, November 1, by Lieutenant-Governor Louis O. Breithaupt.

CABINET CHANGES, JULY, 1957

On July 17, 1957, Premier Leslie M. Frost announced the appointment of two new cabinet members, following the resignation of Reform Institutions Minister John W. Foote, and Mines Minister Philip T. Kelly on the same day. Dr. Matthew B. Dymond, member for Ontario, was named to succeed Major Foote, as Minister of Reform Institutions. Mr. J. Wilfrid Spooner, member for Cochrane South, became Minister of Mines. Both Major Foote and Mr. Kelly retained their seats in the Legislature, respectively Durham and Cochrane North. The new cabinet members were sworn in by Lieutenant-Governor Louis O. Breithaupt on the following day, July 18.

BY-ELECTIONS, SEPTEMBER, 1957

On September 5, 1957, by-elections were held in the ridings of Glengarry and Middlesex North. The vacancy in Glengarry was due to the resignation of its member, Osie F. Villeneuve, to contest a seat in the

June federal election. In Middlesex North, the seat had become vacant when Thomas L. Patrick, its representative, had died. Both seats had been held by the Progressive Conservatives and were retained by them, Mr. Fernand Guindon being elected in Glengarry and Mr. William A. Stewart winning in Middlesex North. The vote was as follows in Glengarry: Fernand Guindon, Progressive Conservative, 5,006; John McLennan, Liberal, 2,921. In Middlesex North, the result was: William A. Stewart, Progressive Conservative, 6,023; A. E. Smith, Liberal, 2,907.

BY-ELECTION, OCTOBER, 1957

A by-election was held in the riding of Lanark on October 24, 1957, to fill the vacancy caused by the resignation of the Provincial member, Mr. George H. Doucett, former Minister of Highways, who had resigned to take a seat in the House of Commons. The seat was retained by the Progressive Conservatives, with Dr. J. A. McCue winning over Liberal candidate E. S. Burchell. The vote was as follows: McCue, 9,212; Burchell, 2,453.

HON. JOHN KEILLER MACKAY, LIEUTENANT-GOVERNOR

On November 29, 1957, Prime Minister John Diefenbaker announced the appointment of Ontario Supreme Court Judge John Keiller Mackay as Lieutenant-Governor of Ontario to succeed Hon. Louis O. Breithaupt whose term of office ended on December 31. The new Lieutenant-Governor was sworn in on December 30 and assumed his functions on January 1, 1958.

BY-ELECTION, JANUARY, 1958

On January 30, 1958, a by-election was held in the riding of Elgin to fill the vacancy caused by the death of F. S. Thomas, Progressive Conservative, former Cabinet Minister. The seat was retained by the Progressive Conservatives with the vote being as follows: Ronald McNeil, Progressive Conservative, 8,728; Ralph Auckland, Liberal, 5,486; David A. Monteith, Independent Progressive Conservative, 1,836; and Lyal Tait, C.C.F., 1,304.

CABINET CHANGES, FEBRUARY, 1958

On January 30, 1958, Provincial Treasurer and Economics Minister Dana Porter resigned his Cabinet portfolios and his Toronto-St. George seat in the Legislature. On February 1, his appointment to the post of Chief Justice of the Ontario Appeal Court was announced by the Federal Government. On February 3, Premier Leslie M. Frost re-assumed the Treasury portfolio which he had held between 1943 and 1955.

CABINET CHANGES, APRIL, 1958

Cabinet changes were announced by Premier Leslie M. Frost on April 24, 1958. The Premier relinquished the post of Treasurer, appointing Hon. James N. Allan to succeed him. Mr. Allan, who was Minister of Highways and of Transport, was succeeded in the Highways Department by Mr. Fred M. Cass, MPP for Grenville-Dundas; his successor as Minister of Transport was Hon. Matthew B. Dymond, previously Minister of Reform Institutions. The new Minister of Reform Institutions was Hon. T. Ray Connell, who had been Minister without portfolio and second vice-chairman of Hydro. Also brought into the Cabinet were Mr. John Yaremko, MPP for Bellwoods (Toronto), and Mr. Robert Macaulay, MPP for Riverdale (Toronto); Mr. Yaremko as Minister without portfolio; Mr. Macaulay also as Minister without portfolio and succeeding Hon. Mr. Connell as second vice-chairman of Hydro. Premier Frost also announced that Minister without portfolio Harold R. Scott had resigned from the Cabinet.

BY-ELECTIONS, MAY, 1958

By-elections were held in four ridings on May 12, and Progressive Conservatives were victorious in all four: Rene Brunelle in Cochrane North; Maurice Hamilton in Renfrew North; Allan Lawrence in Toronto-St. George; and Charles MacNaughton in Huron. The vacancy in Huron had been caused by the death of the previous incumbent, Thomas Pryde. The vacancies in Cochrane North and Renfrew North had resulted from the previous incumbents resigning to enter federal politics; Philip T. Kelly in Cochrane North and Stanley J. Hunt in Renfrew North, Toronto-St. George had become vacant on January 30 when Hon. Dana Porter had resigned to become Chief Justice of the Ontario Appeal Court.

CABINET CHANGE, MAY, 1958

Following the resignation of Hon. William Griesinger from the Cabinet, Premier Leslie M. Frost announced on May 14 that Hon. James N. Allan was assuming the portfolio of Minister of Public Works along with that of Provincial Treasurer.

CABINET CHANGE, JULY, 1958

Following the resignation of Lands and Forests Minister Clare E. Mapledoram from the Cabinet, Premier Leslie M. Frost announced on July 23 that Hon. J. W. Spooner was assuming the duties of Minister of Lands and Forests along with those of Minister of Mines.

BY-ELECTIONS, AUGUST, 1958

Two new members of the Legislature were elected by acclamation on August 28, 1958. They were Lloyd H. Price for Hastings East and George E. Gomme for Lanark, both Progressive Conservatives. The vacancy in Lanark had been caused by the death of Dr. J. A. McCue, P.C. In Hastings East, the vacancy had resulted when Mr. Roscoe Robson, P.C., resigned.

CABINET CHANGES, DECEMBER, 1958

On December 22, 1958, Premier Leslie M. Frost announced cabinet changes, involving the retirement of one minister, some portfolio changes and the elevation of four members of the Legislature to the Executive Council. Provincial Secretary George H. Dunbar retired from the Cabinet to become a member of the Ontario-St. Lawrence Development Commission. His successor as Provincial Secretary was Hon. Mackinnon Phillips who had held the Health portfolio. Transferring from Transport to the Health Department was Hon. M. B. Dymond. The new Minister of Transport was Hon. John Yaremko, previously Minister without portfolio. Hon. Ray Connell transferred from Reform Institutions to Public Works, a department which had been headed by Hon. James N. Allan jointly with the Provincial Treasury. The new Minister of Reform Institutions was George C. Wardrope, member for Port Arthur. James A. Maloney, member for Renfrew South, was given the portfolio of Mines which had been held by Hon. J. W. Spooner, jointly with that of Lands and Forests. New Ministers without portfolio were John P. Robarts, member for London North, and John H. Root, member for Wellington-Dufferin. The new ministers were sworn into office before Hon. J. Keiller Mackay, Lieutenant-Governor, on the same day.

GENERAL ELECTION, JUNE 11, 1959

A general election was held on June 11, 1959, and the Progressive Conservative party headed by Premier Leslie M. Frost was returned to power. The result was as follows: Progressive Conservatives, 71; Liberals, 21; C.C.F., 5; and Liberal Labour 1.

NEW DEPARTMENT, SEPTEMBER 1, 1959

On May 5, 1959, R. W. Macaulay, Q.C., Toronto-Riverdale, was sworn in before Lieutenant-Governor Keiller Mackay as Minister of Energy Resources, a new portfolio. Mr. Macaulay was also appointed second Vice-Chairman of The Hydro-Electric Power Commission of Ontario on May 26, 1958. The Department of Energy Resources commenced operations on September 1, 1959.

CABINET CHANGE, DECEMBER, 1959

On December 16, Premier Leslie M. Frost announced the resignation of Hon. Dr. W. J. Dunlop as Minister of Education due to ill health, and that he would remain in the Cabinet as Minister without portfolio. Dr. Dunlop would also serve on the University Co-ordinating Committee under the chairmanship of the Director of Education, Dr. C. F. Cannon. On December 17 Premier Leslie M. Frost announced the appointment of Hon. John P. Robarts as Minister of Education.

DEPARTMENTAL CHANGES, JANUARY 21, 1960

On January 21, 1960, Premier Leslie M. Frost announced that Hon. the Rev. A. W. Downer, Speaker of the Legislature, member for Dufferin-Simcoe, was appointed a member of the Liquor Control Board.

A revamping of the Department of Municipal Affairs was announced in which Lorne R. Cumming, chairman of the Ontario Municipal Board, became Deputy Minister, and Charles Yates, now vice-chairman of the Board, became general counsel and executive assistant to Mr. Cumming. J. A. Kennedy, vice-chairman of the Board became chairman. The Department continued under Hon. W. K. Warrender, with the Community Planning Branch of the Department of Planning and Development transferred to the Department of Municipal Affairs.

It was also announced that Hon. John Robarts, Minister of Education resigned from the Water Resources Commission and was replaced by C. S. MacNaughton, member for Huron.

The Ontario Water Resources Commission was transferred to the Department of Municipal Affairs and the Ontario Northland Commission was transferred to the Department of Planning and Development for administrative purposes.

CABINET CHANGE, MAY, 1960

On Thursday, May 26, 1960, Hon. John Yaremko was sworn in as Provincial Secretary and Registrar General, succeeding Dr. Mackinnon Phillips who had resigned on May 12. Mr. Yaremko, while assuming this new portfolio, was retaining the Department of Transport portfolio.

BY-ELECTIONS, SEPTEMBER, 1960

By-elections were held in two ridings on Thursday, September 29, with Progressive Conservative candidates winning in both instances. In Simcoe Centre, the victorious candidate was Mr. Arthur Evans; in Timiskaming, the choice of the electors was Mr. Philip Hoffman. The by-elections had

been made necessary by the deaths of MPPs George G. Johnston for Simcoe Centre, and A. Robert Herbert for Timiskaming, both Progressive Conservatives.

CABINET CHANGES, NOVEMBER, 1960

Cabinet changes were announced by Premier Leslie M. Frost on Friday, November 18, and on Monday, November 21. On the Friday, Mr. Frost announced the resignation of Dr. William J. Dunlop, Minister without portfolio, and his replacement by Mr. Allan Grossman, MPP for Toronto's St. Andrew riding. On the Monday, the Premier announced the appointment of Mr. H. Leslie Rowntree, MPP for York West, as Minister of Transport, succeeding Hon. John Yaremko who held that portfolio as well as being Provincial Secretary and Registrar. Mr. Yaremko retained the portfolio of the Provincial Secretary's Department. A new Minister without portfolio was also added to the Cabinet in the person of Mr. William A. Stewart, MPP for Middlesex North. The new Cabinet ministers were sworn into office on November 21 before Hon. J. Keiller Mackay, Lieutenant-Governor.

DEPARTMENTAL CHANGES, JANUARY, 1961

On Friday, January 27, 1961, Lieutenant-Governor J. Keiller Mackay gave Royal assent to three bills changing the names of three Government departments, to conform with a shift in duties or jurisdictions for these departments. The Provincial Secretary's Department was renamed Department of the Provincial Secretary and Citizenship. Planning and Development was changed to Commerce and Development. And the Economics Department became the Department of Economics and Federal and Provincial Relations.

CHANGE IN LEADERSHIP, OCTOBER, 1961

Hon. Leslie M. Frost, having previously announced his intention to resign as leader of the Progressive Conservative party, a Provincial convention was held by the party at the University of Toronto's Arena October 23-25. Hon. John P. Robarts, Q.C., Minister of Education, was chosen as the new leader.

ROBARTS MINISTRY, 1961

On Wednesday, November 8, Hon. Leslie M. Frost formally presented his resignation as Prime Minister, together with those of his entire Cabinet, to Lieutenant-Governor Keiller Mackay, and Hon. John P. Robarts was

asked to form a Government. Mr. Robarts presented the list of his Ministers and appointments. The swearing-in ceremony of the new Prime Minister and his Ministers followed.

The Robarts Cabinet: Hon. John P. Robarts, Prime Minister, President of the Council and Minister of Education; Hon. Charles Daley, Minister without Portfolio; Hon. William A. Goodfellow, Minister of Highways; Hon. Louis P. Cecile, Minister of Public Welfare; Hon. William K. Warrender, Minister of Labour; Hon. James N. Allan, Provincial Treasurer; Hon. William Nickle, Minister without Portfolio; Hon. A. Kelso Roberts, Attorney-General; Hon. Bryan L. Cathcart, Minister of Travel and Publicity; Hon. Ray Connell, Minister of Public Works; Hon. M. B. Dymond, Minister of Health; Hon. J. Wilfrid Spooner, Minister of Lands and Forests; Hon. Fred M. Cass, Minister of Municipal Affairs; Hon. John Yaremko, Provincial Secretary and Minister of Citizenship; Hon. Robert Macaulay, Minister of Commerce and Development, Economics and Energy Resources; Hon. George C. Wardrope, Minister of Mines; Hon. H. Leslie Rowntree, Minister of Transport; Hon. Allan Grossman, Minister without Portfolio and Chief Commissioner, Liquor Control Board of Ontario; Hon. William A. Stewart, Minister of Agriculture; Hon. Charles S. MacNaughton, Minister without portfolio; Hon. Irwin Haskett, Minister of Reform Institutions.

DEPARTMENTAL CHANGES, DECEMBER, 1961

On Friday, December 15, 1961, Lieutenant-Governor J. Keiller Mackay gave Royal assent to bill No. 5, amalgamating the Department of Economics and Federal and Provincial Relations and the Department of Commerce and Development, to be known as the Department of Economics and Development.

BY-ELECTIONS, JANUARY, 1962

By-elections were held in five ridings January 18. Progressive Conservatives were elected in two: Jack Harris in Toronto Beaches; and Leonard Reilly in Toronto Eglinton. Liberals were elected in two: Robert Nixon in Brant; and Leonard Quilty in Renfrew South. Liberal Labour was elected in one: Robert Gibson in Kenora. The vacancies in the five ridings had been caused by the deaths of previous incumbents.

BY-ELECTION, OCTOBER, 1962

Murray Gaunt, Wingham, was elected as the Liberal member for Huron-Bruce in a by-election held October 4. The seat was made vacant by the death in March of Mr. John W. Hanna, who held the seat for the Progressive Conservatives from the time of his first election in 1943.

CABINET CHANGES, OCTOBER, 1962

On Thursday, October 25, Premier John P. Robarts announced Cabinet changes at swearing-in ceremonies presided over by the Honourable J. Keiller Mackay, Lieutenant-Governor. The new Cabinet was as follows: Hon. John P. Robarts, Prime Minister and President of the Council; Hon. A. Kelso Roberts, Minister of Lands and Forests; Hon. W. A. Goodfellow, Minister without Portfolio; Hon. Louis P. Cecile, Minister of Public Welfare; Hon. James N. Allan, Provincial Treasurer; Hon. Bryan L. Cathcart, Minister of Travel and Publicity; Hon. Ray Connell, Minister of Public Works; Hon. Matthew B. Dymond, Minister of Health; Hon. J. Wilfrid Spooner, Minister of Municipal Affairs; Hon. Fred M. Cass, Attorney General, and Minister in charge of Department of Insurance; Hon. John Yaremko, Provincial Secretary and Minister of Citizenship; Hon. Robert W. Macaulay, Minister of Energy Resources, and Minister of Economics and Development; Hon. George C. Wardrope, Minister of Mines; Hon. H. Leslie Rowntree, Minister of Labour; Hon. Allan Grossman, Minister without Portfolio; Hon. William A. Stewart, Minister of Agriculture; Hon. Charles S. MacNaughton, Minister of Highways; Hon. Irwin Haskett, Minister of Reform Institutions; Hon. James A. C. Auld, Minister of Transport; Hon. William G. Davis, Minister of Education; Hon. J. R. Simonett, Minister without Portfolio.

HON. WILLIAM EARL ROWE, P.C.(C), LIEUTENANT-GOVERNOR

On January 15, 1963 Prime Minister John Diefenbaker announced the appointment of Hon. William Earl Rowe, P.C.(C), as Lieutenant-Governor of Ontario to succeed Hon. John Keiller Mackay, whose five-year term expired December 31st, 1962. The new Lieutenant-Governor assumed his functions on March 1.

CABINET CHANGES, AUGUST, 1963

On August 14, 1963, Premier John Robarts announced that Hon. James Auld, Minister of Transport, had been transferred to the post of Minister of Travel and Publicity, succeeding Hon. Bryan L. Cathcart who retired. Hon. Irwin Haskett, Minister of Reform Institutions, was transferred to the post of Minister of Transport. Hon. Allan Grossman, Minister without Portfolio and Liquor Commissioner, was appointed as Minister of Reform Institutions.

REDISTRIBUTION, AUGUST 16, 1963

Redistribution approved by the Legislature, and given Royal assent on April 3, became effective as of the above date. Ten seats were added making a total of 108 seats.

GENERAL ELECTION

A general election was held on September 25, 1963, and the Progressive Conservative party headed by Premier John Robarts was returned to power. The result was as follows: Progressive Conservatives, 77; Liberals, 23; New Democratic Party, 7; and Liberal Labour, 1.

CABINET CHANGES, OCTOBER, 1963

On October 16, 1963, Provincial Treasurer James Allan was sworn in as Minister of Economics and Development. The portfolio was made vacant by the resignation of Hon. Robert Macaulay. On the same date Minister without Portfolio J. R. Simonett was sworn in as Energy Resources Minister. This post had also been vacated by the resignation of Hon. Robert Macaulay, who continued to represent the riding of Riverdale.

SPECIAL SESSION OF LEGISLATURE, OCTOBER 29-30, 1963

A special session of the 27th Legislature was held on October 29 and 30. Unanimous approval was given to a bill enabling the Province's municipalities to take advantage of the Federal Government's Municipal Development and Loan Fund. Under the Federal formula, Ontario was allocated \$136,769,000. The House selected a new Speaker, Donald H. Morrow (PC, Ottawa West).

CABINET CHANGE, NOVEMBER, 1963

Premier John Robarts announced on November 8, 1963, the appointment of Stanley J. Randall (PC, Don Mills) as Minister of Economics and Development. Mr. Randall succeeded Hon. James Allan, who was appointed to the post on a temporary basis on October 16, following the resignation of Hon. Robert Macaulay, who continued to represent the riding of Riverdale.

DEPARTMENT OF TOURISM AND INFORMATION, 1964

By Act of the Legislature and as announced in the Speech from the Throne delivered January 15, 1964, the name of the Department of Travel and Publicity was changed to Department of Tourism and Information.

By-elections were held in two ridings to fill vacancies on September 10. In Riverdale riding, James Renwick, NDP, headed the poll with 7,287; Kenneth Waters, PC, 5,774; Charles Templeton, Liberal, 5,771; Fred Graham, Ind., 91. In Windsor-Sandwich, the poll was headed by Ivan Thatcher, PC, 9,670; Archie F. Gignac, Liberal, 8,825; William Riggs, NDP, 5,028.

COMPOSITION OF GOVERNMENT

The Government of Ontario, as of all British Dominions, is based on a two-fold authority and responsibility:

1. The Queen, through her appointed Ministers, governs the country, initiates legislation and propounds policies.

2. The people, through their elected representatives, provide the appropriations of revenue necessary to implement the actions of the Queen and her Cabinet, consider the laws submitted by the Queen's representatives and either give or withhold their sanction and also have the final say in defining the policy of the country.

Ontario was the only province which set out in 1867 with a single-chamber legislature.

Section 70 of the British North America Act provided for eighty-two electoral districts.

See page 271, Government

THE LEGISLATIVE ASSEMBLY

The British North America Act, 1867 (Sections 69 and 70), made provision for a legislative assembly for the Province of Ontario.

First session of the first administration of the Legislative Assembly of Ontario met December 27, 1867, at Toronto in the building on Front Street, then facing Toronto Bay. This building was built in Simcoe Place, a square containing six acres extending in front of Government House and bounded by Simcoe, Front, John and Wellington Streets. It was a long, low, red-brick structure, and had been first used in 1832 by the Legislative Council and the Legislative Assembly of Upper Canada.

For a period in Canada's history the ambulatory system was used. The seat of government changed from time to time. The Act of Union, 1840, united Upper Canada and Lower Canada as the Province of Canada (Canada West and Canada East). The Parliament of the Provinces of Canada opened at Kingston, June 14, 1841; at Montreal, November 28,

1844; at Toronto, May 14, 1850; at Quebec, August 19, 1852; at Toronto, February 15, 1856; at Quebec, February 28, 1860, and at Ottawa, June 8, 1866.

The building on Front Street was used for the sessions of the Parliament of the Province of Canada which were held in Canada West from Union to Confederation.

Between the opening of the first session in 1832 and the prorogation of the last held in the Front Street building, scores of important questions and subjects were dealt with. The struggle for responsible government found victory, the secularization of the clergy reserves was consummated under its roof, the bill being passed in 1858.

POPULATION

The population of Ontario had reached 6.7 million by the beginning of 1965. The increment was 136,000 or 2.1 per cent during 1964 and constituted the largest numerical increase in population among the provinces. Ontario's population rate of growth was slightly larger than that of Canada at 1.8 per cent.

Births in 1964 were estimated in 1964 at 154,200, a decline of 3,200 or 2.1 per cent from the previous year. Deaths also declined by 2.5 per cent and were estimated at 52,800. However, despite the decline in the number of deaths, natural increase amounted only to 101,400, a decline of 1,960 or 1.9 per cent from the 1963 level. The number of marriages contracted in 1964 increased by 5.9 per cent or 2,700 from the previous year and at 48,600 were more numerous than in previous years (7.4 per 1,000 population in 1964 as compared to the period 1961-1963 when the marriage rate stood at 7.0 per 1,000 population).

LABOUR FORCE

In 1964 the Ontario labour force averaged 2,542,000, up 78,000 from the previous year. Of this 78,000 increase, 27,000 were male and 51,000 female. Thus women made up 30.2 per cent of the total work force in 1964.

GEOLOGY AND GEOGRAPHY

AREA

The total area of Ontario is 412,582 square miles, of which 344,092 square miles, or 83 per cent, is land and 68,490 square miles, or 17 per cent, is lakes and rivers. The Province extends 1,000 miles from east to west and 1,050 miles from south to north. About eight per cent of the total area lies south of the isotherm of 60 degrees F. July mean temperature, which is generally considered to be the northern limit for the economic production of cereals.

Located in the heart of the North American continent, Ontario is half as large again as Texas and exceeds the combined areas of the United Kingdom, France and West Germany.

BOUNDARIES

Ontario is that vast section of the Dominion contained between the Great Lakes and Hudson Bay and between the western boundary of Quebec and the eastern limits of Manitoba. Most of the boundary lines consist of lakes and rivers, e.g., the Ottawa River forms much of the eastern border while the southern line follows the St. Lawrence River, the Great Lakes and a series of smaller bodies of water including Pigeon River and Lake of the Woods. Ontario's immediate neighbours are the provinces of Quebec and Manitoba and the states of New York, Pennsylvania, Ohio, Michigan, Wisconsin and Minnesota.

ELEVATION

The height of land which runs in a general east-west direction just north of Lake Superior reaches an elevation of 1,000 feet and over. Here at the northeastern corner of the lake, at a height of 2,120 feet, is Tip Top Mountain, the highest point in Ontario. From the height of land the terrain slopes gently northward to an extensive area of low, swamp land bordering on the south and west shores of James and Hudson Bays.

A striking topographical feature in the southern portion of the Province is the Niagara Escarpment, which extends for 250 miles from Niagara Falls to the Bruce Peninsula. The highest part is found in the counties of Dufferin, Grey and western Simcoe, where the elevation ranges from 1,400 to 1,700 feet. Wellington and Waterloo Counties have elevations of from 1,000 to 1,300 feet.

The eastern portion of Ontario is relatively low and level and drains into the Ottawa or St. Lawrence Rivers. Most of this area is between 200 and 300 feet above sea level, but rises to 400, 500 feet in the western section north of Lake Ontario.

FORMATION

There are four types of rock formations in Ontario: (1) Precambrian, 250,000 square miles; (2) Silurian, 70,000 square miles; (3) Devonian, 33,000 square miles, and (4) Ordovician, over 19,000 square miles. These figures (which are approximate) aggregate 372,000 square miles.

The great area in Eastern Canada which is underlain by rocks of Precambrian age is known as the Canadian (or Precambrian) Shield or the Laurentian Plateau. In Ontario, the Shield covers all the northern part of the Province except the coastal plain around Hudson and James Bays and extends into Southern Ontario north of a line drawn from Georgian Bay to the eastern end of Lake Ontario. It extends southward into New York State, crossing the St. Lawrence between Kingston and Brockville. The surface of the Shield is generally rugged, with successions or rocky hills 100 to 200 feet high. The area has been heavily glaciated and is dotted with lakes, large and small, of irregular outline. The Canadian Shield is a great storehouse of mineral wealth.

The Ordovician formations extend from Kingston to the Niagara Escarpment and northwest to Georgian Bay and into Manitoulin Island. They also underlie that section of the Province which lies east of the Shield. The Silurian formations are exposed in the Niagara Escarpment and westward in a belt 20 to 50 miles wide which extends north-west from the Niagara Peninsula also into Manitoulin Island. West of this, nearly the whole of the area between Lake Erie and Lake Huron is underlain by Devonian limestones and shales.

Southern Ontario, except that portion occupied by the Laurentian Plateau, is part of the St. Lawrence lowlands. These plains are covered with silt deposits left in ancient lakes which were formed when the St. Lawrence outlet was blocked with ice at the end of the glacial period. On the shore of one of these old glacial lakes, Lake Iroquois, are the sites of some of our cities such as Toronto, St. Catharines and Hamilton. It is this part of the Province which contains most of Ontario's heavy industries, large cities and the developed farming areas.

The Clay Belt of Northern Ontario which lies along the southerly part of the coastal plain surrounding Hudson Bay gives promise of becoming a great agricultural area.

POSITION

Ontario falls within the following approximate position:

North: 56 degrees 50" N. latitude
South: 41 degrees 41" N. latitude
East: 74 degrees 25" longitude
West: 95 degrees 9" longitude

SHORELINE

Lakes and rivers are plentiful in Ontario, as may be surmised from the total estimated shoreline of the important bodies of water.

Fresh water shoreline — 2,362 miles

Salt water shoreline — 680 miles

There are many areas in Ontario that have not been surveyed as yet. Each year the unsurveyed area diminishes and the estimate of fresh water shoreline grows more accurate. Many years will pass, however, before the Province will have a complete survey.

The salt water shoreline refers to the shores of James Bay and Hudson Bay, although it is to be noted that the waters of these two bays are not considered as part of Ontario's area.

The Great Lakes and St. Lawrence Waterway constitute a large part of the surveyed fresh water shoreline indicated above. Because the Great Lakes are the most important inland waterway in the world and have had a great economic influence on Ontario's development, they deserve an important place in any discussion of Ontario's geography.

Their total drainage basin consists of about 300,000 square miles, about 60 per cent of which lies within the United States. The following table gives some pertinent information regarding these lakes.

Lakes	Length Miles	Width Miles	Area of Water Surface Sq. Miles	Area of Drainage Basin Sq. Miles	Maximum Recorded Depth Feet	Elevation above Sea-Level Feet
Superior	383	160	31,820	80,700	1,302	602.2
Michigan*	321	118	22,400	69,040	923	580.8
Huron	247	101	23,101	72,600	750	580.8
St. Clair	26	24	460	6,420	23	575.3
Erie	241	57	9,940	34,690	210	572.4
Ontario	193	53	7,540	34,640	774	245.9

**Although Lake Michigan does not form part of Ontario's boundary, it has been included because it is one of the Great Lakes.*

Lake Superior is the largest body of fresh water in the world. Particularly noteworthy is its depth of 1,302 feet, which stands out in strong contrast to the shallowness of Lake St. Clair and Lake Erie.

The largest lake in Ontario not contained in the Great Lakes is Lake Nipigon, situated north of Lake Superior. This lake is 70 miles long and 50 miles wide and is 825 feet above the sea.

CLIMATE

In 1964, temperatures in Toronto ranged from 98.0 degrees to —5.0 degrees Fahrenheit. The long-term average for the city is 48.5 degrees and for other parts of the Province is: north 29.2 degrees; south 50.5 degrees; east 36.7 degrees; and west 42.9 degrees. July is usually the warmest month, January the coldest.

Mean annual precipitation in Southern Ontario varies from 25 inches to 40 inches and in Northern Ontario from 15 to 40 inches. The highest precipitation occurs on the slopes facing the east coast of Lake Huron, Georgian Bay and Lake Superior. A band of heavy snowfall extends from London in the southwest to Owen Sound and then into the districts of Muskoka and Parry Sound.

On the average, more hours of bright sunshine are recorded at Toronto (2,047 hours) than at any other weather station in the Province. In the northern sector, New Liskeard and Moosonee have averages of 1,579 hours and 1,545 hours respectively.

The Great Lakes exert a considerable influence on the climate of Ontario, particularly that of the southern section. They provide moisture in the summer, lengthen the frost-free period and moderate the winters

HISTORICAL SUMMARY

THE FRENCH REGIME

What is now the Province of Ontario once formed part of New France. Among the chivalrous souls of that period, the names of Champlain, Frontenac and La Salle are inseparably linked with our early history. The lustre of their deeds and their devotion remains undimmed, and to them Canada owes a grateful and an enduring memory.

TREATY OF PARIS, 1763

Canada, including the area which comprises the present Province of Ontario, was ceded by France to Great Britain by the Treaty of Paris, signed on February 10, 1763. Great Britain expected little from the change, for at that time the total population of Canada was not 65,000. The western part was settled only around a few forts which had been built to keep open communication with the West.

QUEBEC ACT, 1774

Under this Act the colony was governed by a governor, sent from England, with French civil law and British criminal law. The first governor was Sir Guy Carleton.

AMERICAN REVOLUTION, 1775-1783

The American colonies, then colonies of Great Britain, revolted and won their independence.

TREATY OF VERSAILLES, 1783

The Treaty of Versailles gave the United States their independence.

FIRST SETTLEMENT, 1780-1784

The first actual English settlement in Ontario was on the shore of the Niagara River in 1780, when Governor Haldimand proposed that persons should be encouraged to settle around the forts there. His aim was to produce for the use of the garrison. By December, 1780, four or five families had settled and built themselves houses. The large immigration did not come until 1784, but by the end of that year ten thousand United Empire Loyalists had entered that part of Canada which lay west of Montreal. A new British colony had been formed. The American Revolution and resultant Loyalist immigration changed the official attitude. The sacrifices of these first immigrants laid the foundation of the present Province of Ontario.

UNITED EMPIRE LOYALISTS

Feeling in the revolting thirteen colonies had not been unanimous in opposition to British rule, and with the victory of revolutionary arms the lot of the loyal element was not an enviable one. Thousands of loyalists were driven from their homes and were forced to leave behind any wealth and property which they might have accumulated, in seeking a new living in the backwoods of Canada or New Brunswick. The loyalists who came to Canada settled on the north shore of the St. Lawrence River and at Niagara.

THE CONSTITUTIONAL ACT, 1791

The United Empire Loyalists were English-speaking and had been accustomed to a large measure of self-government and they could not be content under the French system of land holding and the methods of government which prevailed in their new home. In 1791 the Constitutional Act, as it is now called, provided a new form of government for Canada and on December 26, 1791, the western part of the country was set up as a separate province with the name Upper Canada.

THE FIRST LEGISLATURE OF UPPER CANADA AT NEWARK NOW NIAGARA-ON-THE-LAKE, 1792

The government was put in the hands of a Lieutenant-Governor, an Executive Council, a Legislative Council of not less than seven members, and an elected Assembly of sixteen. To Lieutenant-Colonel John Graves, Simcoe, the first Lieutenant-Governor, was entrusted the task of setting up the new machinery of government and placing it in motion, which he did at the first meeting of the Legislature at Newark, now Niagara-on-the-Lake, on September 17, 1792. In 1797 the Legislature was moved to York (now Toronto), which had been made the capital of Upper Canada. English laws and English methods of land holding, provided by the Constitutional Act, attracted many immigrants from the United States. By 1812 the population had increased to 77,000.

THE WAR OF 1812-14

The demands of the citizens of the frontier states, who coveted the rich farm lands and virgin timber of Canada, forced the United States to declare war on Great Britain in June 18, 1812. Other causes based on British policy are given, but so far as Upper Canada was concerned the War of 1812 was a frontier struggle.

THE TREATY OF GHENT, 1814

The Treaty of Ghent, signed December 24, 1814, and ratified at Washington on February 18, 1915, ended the war.

RUSH-BAGOT CONVENTION, 1817

This Agreement limited the number and size of naval vessels on the Great Lakes and thus laid the foundation for a lasting peace between the United States and Canada.

IMMIGRATION FROM BRITISH ISLES

Following the Treaty of Ghent, the type of immigration into Upper Canada changed. It is true that many Americans continued to come into the country but greater numbers came from the British Isles.

DEVELOPMENT OF UPPER CANADA

Upper Canada continued to be a pioneer community, but improved roads and the development of waterways indicated that the country was progressing. York increased in population and importance and in 1834 was incorporated as a city and the name changed to Toronto. At the same time small and scattered settlements were to be found in the whole area of what is now southern Ontario.

REBELLION OF 1837

The rise of reform in England and the democratic movement in the United States, combined with certain local conditions, had their effect. The reform groups demanded responsible government. The final outcome was an uprising on December 5, 1837, led by William Lyon Mackenzie.

LORD DURHAM'S REPORT, 1839

To cope with the critical situation the Home Government appointed the Earl of Durham as Governor-in-Chief of all five British North American provinces and as a special commissioner. In his report he recommended that the Home Government should grant responsible government to the provinces and that Upper and Lower Canada should be united.

ACT OF UNION, 1841

The provinces of Upper and Lower Canada were united on February 10, 1841, with Kingston as the capital.

SIGNING OF REBELLION LOSSES BILL—RESPONSIBLE GOVERNMENT

The principle of responsibility of the Executive to the will of the majority was not recognized until Lord Elgin became Governor of the united provinces. The question of indemnification of those in Lower Canada who had suffered loss during the rebellion of 1837 brought about the concession of Durham's first recommendation. The "Rebellion Losses Bill" was strongly denounced by many groups, but the legislature supported the measure with a large majority. In spite of the representations made to him to dissolve Parliament or to refer the Bill to the imperial authorities, Lord Elgin signed it on April 25, 1849. The principle of responsible government had been established.

THE BRITISH NORTH AMERICA ACT, 1867

The Act of Union was satisfactory for some years but deadlock between the various political parties and the unfair situation which gave Lower Canada, with a population of 30,000 less than that of Upper Canada, equal representation combined to force political leaders to seek a more adequate organization. The development of railways and postal and telegraph services had overcome the isolation of the separate British North American provinces. A further influence on Canadian political development in the sixties was the American Civil War. The political leaders realized that union of the scattered provinces was necessary to protect their borders against invaders.

After much study and many political sacrifices the new Dominion of Canada was created on July 1, 1867. On that day Ontario, with Quebec, New Brunswick and Nova Scotia, began a new and greater existence.

In 1867 Ontario had a population of 1,500,000. The years which followed were marked by a quiet development which has maintained the position of Ontario as one of the leading provinces in the Dominion. Population now is estimated at approximately 5,890,000.

IMPERIAL CONFERENCE, 1926, "THE BALFOUR DECLARATION"

The Conference opened in London, England, on October 19 and continued until November 23. It was attended by governmental representatives and technical experts from all parts of the Empire.

All the questions on the Agenda affecting Inter-Imperial Relations were referred by the Conference to a Committee of Prime Ministers and Heads of Delegations, of which Lord Balfour was asked to be Chairman.

The status of Great Britain and the Dominions was defined as follows: "They are autonomous Communities within the British Empire, equal in

status, in no way subordinate one to another in any aspect of their domestic or external affairs, though united by a common allegiance to the Crown, and freely associated as members of the British Commonwealth of Nations."

The Committee also stated that "Equality of status so far as Britain and the Dominions are concerned is thus the root principle governing our Inter-Imperial Relations. But the principles of equality and similarity, appropriate to 'status,' do not universally extend to function. Here we require something more than immutable dogmas. For example, to deal with questions of diplomacy and questions of defence, we require also flexible machinery—machinery which can, from time to time, be adapted to the changing circumstances of the world."

IMPERIAL CONFERENCE, 1930

The Conference opened in London, England, on October 1, and continued until November 14. Governmental representatives and technical experts from all parts of the Empire were in attendance. The Prime Minister of the United Kingdom (The Right Hon. J. Ramsay MacDonald, M.P.), was asked to take the Chair at the meetings of the Conference and of the Heads of Delegations.

The first concern of the Conference was the relations of the Members of the British Commonwealth with one another in the political and constitutional field, the general principles of which were laid down in the report on the Conference of 1926.

The task of the 1930 Conference was to consider and give practical effect to the declarations of 1926. Other matters considered were Foreign and Economic conditions.

THE STATUTE OF WESTMINSTER, 1931

The Statute was passed December 11, 1931, and is designated as "An Act to give effect to certain resolutions passed by Imperial Conference held in the years 1926 and 1930."

Terms of the Statute are:

(1) The Colonial Law Validity Act, 1865, shall not apply to any law made after the commencement of this Act by the Parliament of a Dominion.

(2) No law and no provision of any law made after the commencement of this Act by the Parliament of a Dominion shall be void or inoperative on the ground that it is repugnant to a law of England, or to the provisions

of any existing or future Act of Parliament of the United Kingdom, or to any order, rule or regulation made under any such Act, and the powers of the Parliament of a Dominion shall include the power to repeal or amend any such Act, order, rule or regulation in so far as the same is part of the law of the Dominion. The above provision extends in Canada to laws made by any of the Provinces of Canada and to the powers of the legislatures of the Provinces respectively.

(3) Full power is given to the Parliament of a Dominion to make laws having extra-territorial operation. This provision does not extend to the Provinces of Canada and thus much conflict of laws is avoided.

(4) The Parliament of the United Kingdom may not legislate for a Dominion except by the request and consent of that Dominion.

(5) Certain provisions relating to merchant shipping.

(6) Certain powers of Dominion Parliaments in relation to Courts of Admiralty.
